Computer Security William Stallings, Lawrie Brown, 2023-04 Since the fourth edition of this book was published, the field has seen continued innovations and improvements. In this new edition, we try to capture these changes while maintaining a broad and comprehensive coverage of the entire field. There have been a number of refinements to improve pedagogy and user-friendliness, updated references, and mention of recent security incidents, along with a number of more substantive changes throughout the book--

Reinventing Cinema Chuck Tryon, 2009-06-29 For over a century, movies have played an important role in our lives, entertaining us, often provoking conversation and debate. Now, with the rise of digital cinema, audiences often encounter movies outside the theater and even outside the home. Traditional distribution models are challenged by new media entrepreneurs and independent film makers, user-generated video, film blogs, mashups, downloads, and other expanding networks. Reinventing Cinema examines film culture at the turn of this century, at the precise moment when digital media are altering our historical relationship with the movies. Spanning multiple disciplines, Chuck Tryon addresses the interaction between production, distribution, and reception of films, television, and other new and emerging media. Through close readings of trade publications, DVD extras, public lectures by new media leaders, movie blogs, and YouTube videos, Tryon navigates the shift to digital cinema and examines how it is altering film and popular culture.

Making Better Policies for Food Systems OECD, 2021-01-11 Food systems around the world face a triple challenge: providing food security and nutrition for a growing global population; supporting livelihoods for those working along the food supply chain; and contributing to environmental sustainability. Better policies hold tremendous promise for making progress in these domains.

The Hockey Stick Illusion A. W. Montford, 2010 From Steve McIntyre's earliest attempts to reproduce Michael Mann's Hockey Stick graph, to the explosive publication of his work and the launch of a congressional inquiry, The Hockey Stick Illusion is a remarkable tale of scientific misconduct and amateur sleuthing. It explains the complex science of this most controversial of temperature reconstructions in layperson's language and lays bare the remarkable extent to which climatologists have been willing to break their own rules in order to defend climate science's most famous finding.

Web Database Applications with PHP and MySQL Hugh E. Williams, David Lane, David John Lane, 2002 Introduces techniques for building applications that integrate large databases with web interfaces. Using a three-tier architecture, the book focuses on the middle tier and the application logic that brings together the fundamentally different client and database tiers. The authors explain the principles behind searching, browsing, storing user data, validating user input, managing user transactions, and security. Artificial Intelligence on Fashion and Textiles Wai Keung Wong, 2018-10-13 The book includes the Proceedings of the Artificial Intelligence on Fashion and Textiles conference 2018 which provides state-of-the-art techniques and applications of AI in the fashion and textile industries. It is essential reading for scientists, researchers and R&D professionals working in the field of AI with applications in the fashion and textile industry; managers in the fashion and textile enterprises; and anyone with an interest in the applications of AI. Over the last two decades, with the great advancement of computer technology, academic research in artificial intelligence (AI) and its applications in fashion and textile supply chain has been becoming a very hot topic and has received greater attention from both academics and industrialists. A number of AI-related techniques has been successfully employed and proven to handle the problems including fashion sales forecasting, supply chain optimization, planning and scheduling, textile material defect detection, fashion and textile image recognition, fashion image and style retrieval, human body modeling and fitting, etc.

The Sustainability of Agro-Food and Natural Resource Systems in the Mediterranean Basin Antonella Vastola, 2015-04-24 This book is focused on the challenges to implement sustainability in diverse contexts such as agribusiness, natural resource systems and new technologies. The experiences made by the researchers of the School of Agricultural, Forestry, Food and Environmental Science (SAFE) of the University of Basilicata offer a wide and multidisciplinary approach to the identification and testing of different solutions tailored to the economic, social and environmental characteristics of the region and the surrounding areas. Basilicata's productive system is mainly based on activities related to the agricultural sector and exploitation of natural resources but it has seen, in recent years, an industrial development driven by the discovery of oil fields. SAFE research took up the challenge posed by market competition to create value through the sustainable use of renewable and non-renewable resources of the territory. Moreover, due to its unique geographical position in the middle of the Mediterranean basin, Basilicata is an excellent "open sky" laboratory for testing sustainable solutions adaptable to other Mediterranean areas. This collection of multidisciplinary case studies and research experiences from SAFE researchers and their scientific partners is a stimulating contribution to the debate on the development of sustainable techniques, methods and applications for the Mediterranean regions.
