Submerged in the Prophetic Jocelyn Y. Buckley,2014-09-26 All of the processing you have ever experienced was designed to refine the prophetic in you and to propel you into the prophetic promises God preordained from the beginning. Author Jocelyn Y. Buckley provides considerable insight on the prophetic that extends beyond the walls of tradition and into the realm of the supernatural. Through revelatory counsel from God, as it pertains to her own traditional background, Buckley carves into form the mysteries surrounding prophetic operations. The Spirit of God will solve these mysteries in your own prophetic journey as you listen while He speaks. From beginning to end, you will find yourself becoming deeper and deeper Submerged in the Prophetic. "Everyone needs someone to unlock the gift that's in them. Prophetess Jocelyn does just that in her freshman book, helping to unlock the prophetic that's in all of us!" —Bishop Gregory M. Davis, Television and Radio Host "Each page is steeped in revelatory truths and permeated with insightful tools for pastors, prophets, and parishioners. Become submerged in a life and ministry enhancing journey in the prophetic!" —Bishop David C. Cooper, SW Regional Bishop, FGBCFI For more information visit www.submergedintheprophetic.com.

Powerplay Victor D. Cha,2018-04-24 A close look at the evolution of American political alliances in Asia and their future While the American alliance system in Asia has been fundamental to the region's security and prosperity for seven decades, today it encounters challenges from the growth of China-based regional organizations. How was the American alliance system originally established in Asia, and is it currently under threat? How are competing security designs being influenced by the United States and China? In *Powerplay*, Victor Cha draws from theories about alliances, unipolarity, and regime complexity to examine the evolution of the U.S. alliance system and the reasons for its continued importance in Asia and the world. Cha delves into the fears, motivations, and aspirations of the Truman and Eisenhower presidencies as they contemplated alliances with the Republic of China, Republic of Korea, and Japan at the outset of the Cold War. Their choice of a bilateral hub and spokes security design for Asia was entirely different from the system created in Europe, but it was essential for its time. Cha argues that the alliance system's innovations in the twenty-first century contribute to its resiliency in the face of China's increasing prominence, and that the task for the world is not to choose between American and Chinese institutions, but to maximize stability and economic progress amid Asia's increasingly complex political landscape. Exploring U.S. bilateral relations in Asia after World War II, *Powerplay* takes an original look at how global alliances are achieved and maintained.

A Polish Woman's Experience in World War II Irena Protassewicz,2019-02-07 This hitherto unpublished first-hand witness account, written in 1968-9, tells the story of a privileged Polish woman whose life was torn apart by the outbreak of the Second World War and Soviet occupation. The account has been translated into English from the original Polish and interwoven with letters and depositions, and is supplemented with commentary and notes for invaluable historical context. Irena Protassewicz's vivid account begins with the Russian Revolution, followed by a rare insight into the life and mores of the landed gentry of northeastern Poland between the wars, a rural idyll which was to be shattered forever by the coming of the Second World War. Deported in a cattle truck to Siberia and

sentenced to a future of forced labour, Irena's fortunes were to change dramatically after Hitler's attack on Russia. She charts the adventure and horror of life as a military nurse with the Polish Army, on a journey that would take her from the wastes of Soviet Central Asia, through the Middle East, to an unlikely ending in the highlands of Scotland. The story concludes with Irena's search to discover the wartime and post-war fate of her family and friends on both sides of the Iron Curtain, and the challenges of life as a refugee in Britain. *A Polish Woman's Experience in World War II* provides a compelling, personal route into understanding how the greatest conflict of the 20th century transformed the lives of the individuals who lived through it.

Success Factors of Corporate Spin-Offs Alexander Tübke, 2004 Corporate Spin-Off processes are very interesting phenomena for management theory and practice. In theory, Corporate Spin-Offs are both a driver and a result of organisational change, offering the possibility to investigate an area where companies are genuinely sharing experience and best practice. Although Corporate Spin-Offs can be clearly distinguished from other types of start-ups and divestments and despite combining key characteristics in a unique way, existing investigation is sparse and heterogeneous. In practice, Corporate Spin-Off processes are frequent and highly successful, but not as well-regarded as Merger & Acquisition strategies and less understood by the decision-makers. The present work was designed to meet these demands by analysing the success factors of Corporate Spin-Offs, their relative contribution to the process and the role of the different actors involved. Based on an extensive literature review and a new Spin-Off typology, a broad range of success factors and success dimensions is proposed. Using a combination of multivariate models, the responses from 211 European companies to a questionnaire are analysed and typologies derived. Among the single factors, customer participation, the transfer of managerial and market-related experience and the main motivation are the most important ones for the Spin-Off process and its success. The typologies reveal characteristic factors sets, showing for example that high-growth Spin-Offs benefited over-proportionally from sector growth or the access to relations with customers or suppliers. This produces a new and comprehensive perspective on the relative contribution of each success factor, their interaction, and the behaviour of both the parent and the Spin-Off companies in the process. These results are highly valuable for managers, scientists in the field and policy-makers.

Identity Politics in the Age of Genocide David B. MacDonald, 2007-09-28 In an era of globalization and identity politics, this book explores how Holocaust imagery and vocabulary have been appropriated and applied to other genocides. The author examines how the Holocaust has impacted on other ethnic and social groups, asking whether the Holocaust as a symbol is a useful or destructive means of reading non-Jewish history. This volume: explains the rise of the Holocaust as a gradual process, charting how its importance as a symbol has evolved, providing a theoretical framework to understand how and why non-Jewish groups choose to invoke 'holocausts' to apply to other events explores the Holocaust in relation to colonialism and indigenous genocide, with case studies on America, Australia and New Zealand analyzes the Holocaust in relation to war and genocide, with case studies on the Armenian genocide, the Rape of Nanking, Serbia and the Rwandan genocide examines how the Holocaust has been used to promote animal rights. Demonstrating both the opportunities and pitfalls the Holocaust provides to non-Jewish groups who seek to represent their collective histories, this book fills a much needed gap on the use of the Holocaust in contemporary identity politics and will be of interest to students and researchers of politics, the Holocaust and genocide.

Making the Transition to E-Learning: Strategies and Issues Bullen, Mark, Janes, Diane, 2006-09-30 Higher education institutions around the world are increasingly turning to e-learning as a way of dealing with growing and changing student populations. Education for the knowledge society means new skills and knowledge are needed and it means that lifelong learning has become a necessity. Higher education institutions are looking to e-learning to provide convenient and flexible access to high quality education and training that is needed to meet these emerging demands. As they implement e-learning, however, institutions are struggling with the many pedagogical, organizational and technological issues. *Making the Transition to E-learning: Strategies*

and Issues provides insights and experiences from e-learning experts from around the world. It addresses the institutional, pedagogical, and technological issues that higher education institutions are grappling with as they move from conventional face-to-face teaching to e-learning in its diverse forms.

Terrorism in Cyberspace Gabriel Weimann, 2015-04-21 The war on terrorism has not been won, Gabriel Weimann argues in *Terrorism in Cyberspace*, the successor to his seminal *Terror on the Internet*. Even though al-Qaeda's leadership has been largely destroyed and its organization disrupted, terrorist attacks take 12,000 lives annually worldwide, and jihadist terrorist ideology continues to spread. How? Largely by going online and adopting a new method of organization. Terrorist structures, traditionally consisting of loose-net cells, divisions, and subgroups, are ideally suited for flourishing on the Internet through websites, e-mail, chat rooms, e-groups, forums, virtual message boards, YouTube, Google Earth, and other outlets. Terrorist websites, including social media platforms, now number close to 10,000. This book addresses three major questions: why and how terrorism went online; what recent trends can be discerned—such as engaging children and women, promoting lone wolf attacks, and using social media; and what future threats can be expected, along with how they can be reduced or countered. To answer these questions, *Terrorism in Cyberspace* analyzes content from more than 9,800 terrorist websites, and Weimann, who has been studying terrorism online since 1998, selects the most important kinds of web activity, describes their background and history, and surveys their content in terms of kind and intensity, the groups and prominent individuals involved, and effects. He highlights cyberterrorism against financial, governmental, and engineering infrastructure; efforts to monitor, manipulate, and disrupt terrorists' online efforts; and threats to civil liberties posed by ill-directed efforts to suppress terrorists' online activities as future, worrisome trends.

India at the Global High Table Teresita C. Schaffer, Howard B. Schaffer, 2016-04-05 An integrated picture of India's global vision, its foreign policy, and the negotiating practices that link the two. In recent decades, India has grown as a global power, and has been able to pursue its own goals in its own way. *Negotiating for India's Global Role* gives an insightful and integrated analysis of India's ability to manage its evolving role. Former ambassadors Teresita and Howard Schaffer shine a light on the country's strategic vision, foreign policy, and the negotiating behavior that links the two. The four concepts woven throughout the book offer an exploration of India today: its exceptionalism; nonalignment and the drive for "strategic autonomy;" determination to maintain regional primacy; and, more recently, its surging economy. With a specific focus on India's stellar negotiating practice, *Negotiating for India's Global Role* is a unique, comprehensive understanding of India as an emerging international power player, and the choices it will face between its classic view of strategic autonomy and the desirability of finding partners in the fast-evolving world.
