Nudge Richard H. Thaler, Cass R. Sunstein,2009-02-24 Now available: Nudge: The Final Edition The original edition of the multimillion-copy New York Times bestseller by the winner of the Nobel Prize in Economics, Richard H. Thaler, and Cass R. Sunstein: a revelatory look at how we make decisions—for fans of Malcolm Gladwell's Blink, Charles Duhigg's The Power of Habit, James Clear's Atomic Habits, and Daniel Kahneman's Thinking, Fast and Slow Named a Best Book of the Year by The Economist and the Financial Times Every day we make choices—about what to buy or eat, about financial investments or our children's health and education, even about the causes we champion or the planet itself. Unfortunately, we often choose poorly. Nudge is about how we make these choices and how we can make better ones. Using dozens of eye-opening examples and drawing on decades of behavioral science research, Nobel Prize winner Richard H. Thaler and Harvard Law School professor Cass R. Sunstein show that no choice is ever presented to us in a neutral way, and that we are all susceptible to biases that can lead us to make bad decisions. But by knowing how people think, we can use sensible “choice architecture” to nudge people toward the best decisions for ourselves, our families, and our society, without restricting our freedom of choice.

Free Trade Agreements V. S. Seshadri,2023-04-15 A Free Trade Agreement (FTA) is an agreement between two or more countries where the countries agree on certain terms and conditions that affect trade between them. There are more than 350 FTAs worldwide today. In the last two decades these agreements significantly expanded in scope, covering not only market access but also behind-the-border policy issues going far beyond WTO rules. Mega regional FTAs like Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) and Regional Comprehensive Economic Partnership (RCEP) are coming into play. Developed countries are also establishing their own templates for FTA-making. This book is intended to bring about a greater level of understanding among readers in a systematic manner with respect to the vast changes taking place on the FTA scene worldwide and about India's own limited participation in this regard so far. FTAs are legal instruments, but they also substantially affect business, industry, and agriculture interests. There is a widely held perception in the country, not without some validity, that India's existing FTAs, even if limited, have benefitted the partner countries more than us. India has recently signed two FTAs- with the UAE and Australia. Discussions with the UK are at an advance stage and both the countries are expected to sign the FTA soon. This book tries to capture various aspects of these agreements keeping India's position in mind.

India and the Republic of Korea Skand R. Tayal,2015-07-17 Examining the underlying logic of the strategic and economic partnership between the Republic of Korea and India, this book is the first detailed study of the numerous facets — cultural, economic, people-to-people, and strategic — of blossoming relations between two major Asian democracies. This comprehensive survey documents the interaction between the two governments, relying on facts and hitherto unpublished original records provided by India's Ministry of External Affairs; offers an illuminating account of India's active role as a neutral party in the post-Second World War events of the Korean War and the division of the Korean Peninsula; and provides a vision of the future direction of India-Korea relations. The author also shares candid observations of Korean society and its people during his service as Ambassador of India in Seoul. The work will be useful to policy makers as well as students of politics and

international relations, strategic studies, economics, and contemporary world history.
