The papers are organized in the following topical sections: Part I: user centred design and user participation in inclusive R&D; artificial intelligence, accessible and assistive technologies; XR accessibility – learning from the past, addressing real user needs and the technical architecture for inclusive immersive environments; serious and fun games; large-scale web accessibility observatories; accessible and inclusive digital publishing; AT and accessibility for blind and low vision users; Art Karshmer lectures in access to mathematics, science and engineering; tactile graphics and models for blind people and recognition of shapes by touch; and environmental sensing technologies for visual impairment Part II: accessibility of non-verbal communication: making spatial information accessible to people with disabilities; cognitive disabilities and accessibility – pushing the boundaries of inclusion using digital technologies and accessible eLearning environments; ICT to support inclusive education – universal learning design (ULD); hearing systems and accessories for people with hearing loss; mobile health and mobile rehabilitation for people with disabilities: current state, challenges and opportunities; innovation and implementation in the area of independent mobility through digital technologies; how to improve interaction with a text input system; human movement analysis for the design and evaluation of interactive systems and assistive devices; and service and care provision in assistive environments 10 chapters are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Parental Life Courses after Separation and Divorce in Europe Michaela Kreyenfeld,Heike Trappe,2020-06-02 This open access book assembles landmark studies on divorce and separation in European countries, and how this affects the life of parents and children. It focuses on four major areas of post-separation lives, namely (1) economic conditions, (2) parent-child relationships, (3) parent and child well-being, and (4) health. Through studies from several European countries, the book showcases how legal regulations and social policies influence parental and child well-being after divorce and separation. It also illustrates how social policies are interwoven with the normative fabric of a country. For example, it is shown that father-child contact after separation is more intense in those countries which have adopted policies that encourage shared parenting. Correspondingly, countries that have adopted these regulations are at the forefront of more egalitarian gender role attitudes. Apart from a strong emphasis on the legal and social policy context, the studies in this volume adopt a longitudinal perspective and situate post-separation behaviour and well-being in the life course. The longitudinal perspective opens up new avenues for research to understand how behaviour and conditions prior or at divorce and separation affect later behaviour and well-being. As such this book is of special appeal to scholars of family research as well as to anyone interested in the role of divorce and separation in Europe in the 21st century.

Social Writing/social Media Douglas M. Walls,Stephanie Vie,2017 Examines the impact of social media on three writing-related themes: publics and audiences, presentation of self and groups, and pedagogy at various levels of higher education.

Fantasy Literature for Children and Young Adults Pamela S. Gates,Susan B. Steffel,Francis J. Molson,2003 Fantasy conjures up images of witches, fairies, dark woods, magic wands and spells, time travel, ghosts, and dragons. Each of us defines fantasy in a personal way, based on our life stories, experiences, hopes, dreams, and fears. Fantasy Literature for Children and Young Adults, helps teachers and students of literature to develop their own understandings of this broad genre in order to evaluate and promote the joy of fantasy in their classrooms. An excellent teaching tool, the discussions are organized around three categories of fantasy literature, including fairy/folktale; mixed fantasy (which includes journey, transformation, talking animal, and magic); and heroic-ethical; and they are supported by well-chosen examples of representative authors, critics, and theorists. With the assumption that the reader has no special knowledge of fantasy literature but has some previous exposure to the study of literature for children and young adults, this book focuses on reviewing texts that illustrate particular types of fantasy literature. The authors have an extensive knowledge of both classic and contemporary children's and YA titles, and they offer many insightful observations and details that make a book a particularly good classroom choice. Literature allows us to discuss controversial issues without making judgments; it allows us the opportunity to experience another time and space by providing a new lens through which to view; and it offers us a multitude of ways to come to appreciate and embrace the world of fantasy. Fantasy Literature for Children and Young Adults will help teachers and other readers to deepen their knowledge, appreciation, and pedagogical understandings of fantasy literature.

Transportation Network Companies and Taxis Craig A. Leisy,2019-05-07 Transportation Network Companies and Taxis: The Case of Seattle is a modern economic case history and thorough analysis of the devastating impact of the transportation network company (TNC) industry (Uber and Lyft) on the taxicab industry in Seattle, Washington, beginning in 2014. The events that transpired and lessons learned are applicable to most large cities in North America, Europe and Australia. As the regulator of the taxicab and TNC industries in Seattle during this period, the author offers a unique insider perspective. The book also provides internal operating statistics on the TNC industry, which are available here for the first time. Despite the spectacular growth of the TNC industry, growth rates have steadily declined and may fall to zero by 2019 or 2020, while the taxicab industry appears to have begun a modest recovery. This book offers a thorough explanation of how and why this decline has happened. It explains the taxicab industry, economic deregulation, competitive market failure, market disruption, price elasticity of demand and other concepts. There is also a wealth of data, computations and analysis for the specialized reader. This book considers the past, present and future of the taxicab and TNC industries in Seattle, It is recommended for both the general reader and industry professionals.

Group Work in Schools Bradley T. Erford,2015-08-14 School counselors are often the only employees in school settings with any formal education in group work, and yet their training is typically a general course on how to run groups. Group Work in Schools provides an alternative training model; one that presents exactly what counselors need to know in order to successfully implement task-driven, psychoeducational, and counseling/psychotherapy groups in any educational setting. Additions to this newly updated second edition include: discussion topics, activities, case examples, integrated CACREP standards and learning outcomes, as well as an overall update to reflect the most recent research and knowledge.

Planning, Development and Management of Sustainable Cities Tan Yigitcanlar,Md. (Liton) Kamruzzaman,2019-04-30 The concept of 'sustainable urban development' has been pushed to the forefront of policymaking and politics as the world wakes up to the impacts of climate change and the destructive effects of the Anthropocene. Climate change has emerged to be one of the biggest challenges faced by our planet today, threatening both built and natural systems with long-term consequences, which may be irreversible. While there is a vast body of literature on sustainability and sustainable urban development, there is currently limited focus on how to cohesively bring together the vital issues of the planning, development, and management of sustainable cities. Moreover, it has been widely stated that current practices and lifestyles cannot continue if we are to leave a healthy living planet to not only the next generation, but also to the generations beyond. The current global school strikes for climate action (known as Fridays for Future) evidences this. The book advocates the view that the focus needs to rest on ways in which our cities and industries can become green enough to avoid urban ecocide. This book fills a gap in the literature by bringing together issues related to the planning, development, and management of cities and focusing on a triple-bottom-line approach to sustainability.

U.S. Vulnerabilities to Money Laundering, Drugs, and Terrorist Financing Us Senate Investigations Subcommittee,2012 The U.S. Senate Permanent Subcommittee On Investigations (PSI) issued a report in *U.S. Vulnerabilities to Money Laundering, Drugs, and Terrorist Financing*, using the global banking and financial firm, HSBC Group, as a case study. HSBC lapsed in the management of anti-money laundering and compliance issues in an effort to cut costs as the firm grew. As a result, the report suggests the sharing of information among globally systemically important financial institutions to maintain an awareness of risk alerts. The PSI suggests standards that HSBC and Office of the Comptroller of the Currency, HSBC's regulator, should uphold. The U.S. SENATE PERMANENT SUBCOMMITTEE ON INVESTIGATIONS (PSI) is a bi-partisan committee of senators that deals with Homeland Security and Governmental Affairs, and is currently headed by Senator Carl Levin (D-MI) and Senator Tom Coburn (R-OK). Formerly known as the Committee on Government Operations, PSI is the oldest subcommittee of the Senate Homeland Security Committee.

Advances in Comparative Immunology Edwin L. Cooper,2018-08-07 Immunologists, perhaps understandably, most often concentrate on the human immune system, an anthropocentric focus that has resulted in a dearth of information about the immune function of all other species within the animal kingdom. However, knowledge of animal immune function could help not only to better understand human immunology, but perhaps more importantly, it could help to treat and avoid the blights that affect animals, which consequently affect humans. Take for example the mass death of honeybees in recent years – their demise, resulting in much less pollination, poses a serious threat to numerous crops, and thus the food supply. There is a similar disappearance of frogs internationally, signaling ecological problems, among them fungal infections. This book aims to fill this void by describing and discussing what is known about non-human immunology. It covers various major animal phyla, its chapters organized in a progression from the simplest unicellular organisms to the most complex vertebrates, mammals. Chapters are written by experts, covering the latest findings and new research being conducted about each phylum. Edwin L. Cooper is a Distinguished Professor in the Laboratory of Comparative Immunology, Department of Neurobiology at UCLA's David Geffen School of Medicine.

Global Marketing Ilan Alon,Eugene Jaffe,Christiane Prange,Donata Vianelli,2020-08-19 Global Marketing, 3rd edition, provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically and apply tools and techniques creatively in order to respond decisively within a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred; A shift toward greater consideration of services marketing as more companies move away from manufacturing; A shift from developed markets to emerging markets with more dynamic environments; A focus on emerging markets to equip students with the skills necessary to take advantage of the opportunities that these rapidly growing regions present; Chapters on social media, innovation, and technology teaching students how to incorporate these new tools into their marketing strategy; New material on sustainability, ethics, and corporate social responsibility—key values for any modern business; Short and long cases and examples throughout the text show students how these principles and techniques are applied in the real world. Covering key topics not found in competing books, Global Marketing will equip today's students with the knowledge and confidence they need to become leading marketing managers. A companion website features an instructor's manual with test questions, as well as additional exercises and examples for in-class use.

Happy Endings Jim Norton,2008-06-10 The popular stand-up comedian offers an offbeat, frequently raunchy memoir of his life, in which he shares his affinity for hookers, the time he stalked Black Sabbath and Alan Alda, his experiences with Opie and Anthony, his arrest on the infamous Voyeur Bus, and other controversial events. Reprint.

The Christian Reformed Church in North America Henry Beets,1924

Biopunk Dystopias Lars Schmeink,2016 'Biopunk Dystopias' contends that we find ourselves at a historical nexus, defined by the rise of biology as the driving force of scientific progress, a strongly grown mainstream attention given to genetic engineering in the wake of the Human Genome Project (1990-2003), the changing sociological view of a liquid modern society, and shifting discourses on the posthuman, including a critical posthumanism that

decenters the privileged subject of humanism. The book argues that this historical nexus produces a specific cultural formation in the form of biopunk, a subgenre evolved from the cyberpunk of the 1980s. Biopunk makes use of current posthumanist conceptions in order to criticize contemporary reality as already dystopian, warning that a future will only get worse, and that society needs to reverse its path, or else destroy all life on this planet.
