**Statistical Abstract of the United States, 2012** Census Bureau,U. S. Department of Commerce,2011-09 The Statistical Abstract of the United States, published since 1878, is the standard summary of statistics on the social, political, and economic organization of the United States. It is designed to serve as a convenient volume for statistical reference and as a guide to other statistical publications and sources. The latter function is served by the introductory text to each section, the source note appearing below each table, and Appendix I, which comprises the Guide to Sources of Statistics, the Guide to State Statistical Abstracts, and the Guide to Foreign Statistical Abstracts.

*The History of the Child Pornography Guidelines* United States Sentencing Commission,2017-05-24 The United States Sentencing Commission (Commission) was created by Congress to establish sentencing policies and practices for the Federal criminal justice system that implement the Sentencing Reform Act of 1984 (SRA),<sup>1</sup> including the purposes of sentencing enumerated at 18 U.S.C. 3553(a)(2).<sup>2</sup> In establishing such policies and practices, principally through the promulgation of federal sentencing guidelines and policy statements, the Commission's efforts are guided by the substantive and procedural requirements of the SRA and other congressional sentencing legislation. The SRA directs that the Commission periodically shall review and revise, in consideration of comments and data coming to its attention, the guidelines.<sup>3</sup> To this end, the Commission has established a review of the child pornography guidelines as a policy priority for the guidelines amendment cycle ending May 1, 2010.<sup>4</sup> This report is the first step in the Commission's work on this priority. Congress has been particularly active over the last decade creating new offenses, increasing penalties, and issuing directives to the Commission regarding child pornography offenses. Indeed, in 2008, the 110th Congress passed three new laws amending child pornography statutes and creating a new offense for creating child pornography through adapting or modifying a depiction of a child.<sup>5</sup> Prompted by congressional action, and on its own initiative, the Commission has reviewed and substantively revised the child pornography guidelines nine times. This report describes the nine revisions made to the possession and trafficking in child pornography guidelines and the guidelines' relation to the requirements imposed on the Commission by related legislation and the SRA

Methodological Advances in Cross-National Surveys of Educational Achievement National Research Council,Division of Behavioral and Social Sciences and Education,Center for Education,Board on Testing and Assessment,Board on International Comparative Studies in Education,2002-05-14 In November 2000, the Board on International Comparative Studies in Education (BICSE) held a symposium to draw on the wealth of experience gathered over a four-decade period, to evaluate improvement in the quality of the methodologies used in international studies, and to identify the most pressing methodological issues that remain to be solved. Since 1960, the United States has participated in 15 large-scale cross-national education surveys. The most assessed subjects have been science and mathematics through reading comprehension, geography, nonverbal reasoning, literature, French, English as a foreign language, civic education, history, computers in education, primary education, and second-language acquisition. The papers prepared for this symposium and discussions of those papers make up the volume, representing the most up-to-date and comprehensive assessment of methodological strengths and weaknesses of international comparative studies of student achievement. These papers answer the following questions: (1) What is the methodological quality of the most recent international surveys of student achievement? How authoritative are the results? (2) Has the methodological quality of international achievement studies improved over the past 40 years? and (3) What are promising opportunities for future improvement?

World Population Ageing 2019 Highlights United Nations,2019-12-18 Drawing on the 2019 revision of World Population Prospects, the World Population Ageing 2019 (Highlights) document global and regional trends in population ageing, including consideration of the implications of these trends for the implementation of the 2030 Agenda. The report also presents various concepts and indicators related to population ageing and discusses related fiscal and economic implications.

Environment and Sustainable Development M.H. Fulekar,Bhawana Pathak,R K Kale,2013-10-04 Global society in the 21st century is facing challenges of improving the quality of air, water, soil and the environment and maintaining the ecological balance. Environmental pollution, thus, has become a major global concern. The modern growth of industrialization, urbanization, modern agricultural development and energy generation has resulted in the indiscriminate exploitation of natural resources for fulfilling human desires and needs, which has contributed in disturbing the ecological balance on which the quality of our environment depends. Human beings, in the truest sense, are the product of their environment. The man-environment relationship indicates that pollution and deterioration of the environment have a social origin. The modern technological advancements in chemical processes/operations have generated new products, resulting in new pollutants in such abundant levels that they are above the self-cleaning capacity of the environment. One of the major issues in recent times is the threat to human lives due to the progressive deterioration of the environment from various sources. The impact of the pollutants on the environment will be significant when the accumulated pollutants load will exceed the carrying capacity of the receiving environment. Sustainable development envisages the use of natural resources, such as forests, land, water and fisheries, in a sustainable manner without causing changes in our natural world. The Rio de Janeiro-Earth Summit, held in Brazil in 1992, focused on sustainable development to encourage respect and concern for the use of natural resources in a sustainable manner for the protection of the environment. This book will be beneficial as a source of educational material to post-graduate research scholars, teachers and industrial personnel for maintaining the balance in the use of natural sources for sustainable development.

**Economic Sanctions in International Law and Practice** Masahiko Asada,2019-11-07 Providing perspectives from a range of experts, including international lawyers, political scientists, and practitioners, this book assesses current theory and practice of economic sanctions, discussing current legal and political challenges faced by the international community. It examines both the implementation of sanctions by major powers – the United States, the European Union, and Japan – as well as assessing the impact of those sanctions through case studies of Russia, Iran, Syria, and North Korea. Balancing theoretical analysis of legal considerations with national and regional

level empirical analysis, it also includes coverage of sanctions issues by the UN Security Council and the EU, as well as the extraterritorial application of sanctions. A valuable reference for academics and practitioners, Economic Sanctions in International Law and Practice will be useful to those working in the fields of international law, diplomacy, and international political economy.
