Global Versus Local Perspectives on Finance and Accounting David

Procházka,2019-02-28 This proceedings volume examines accounting and financial issues and trends from both global and local economic perspectives. Featuring selected contributions presented at the 19th Annual Conference on Finance and Accounting (ACFA) held in Prague, Czech Republic, this book offers a mixture of research methods and micro- and macroeconomic approaches to depict a detailed picture of the impact of global and local determinants on the globalized economy. The global perspectives versus local specifics make the volume useful for not only academics and scholars, but also for regulators and policy makers when deliberating the potential outcome of competing regulatory mechanisms. The Annual Conference on Finance and Accounting (ACFA) has become one of the biggest conferences in the Central and Eastern European (CEE) region solely oriented to contemporary research in finance and accounting. Bringing together researchers and scholars from all over the world, the conference provides a platform in which thoughts, visions, and contemporary developments in the field of finance and accounting are discussed.

Spanish Peru, 1532-1560 James Lockhart,1994-01-01 When Spanish Peru, 1532-1560 was published in 1968, it was acclaimed as an innovative study of the early Spanish presence in Peru. It has since become a classic of the literature in Spanish American social history, important in helping to introduce career-pattern history to the field and notable for its broad yet intimate picture of the functioning of an entire society. In this second edition, James Lockhart provides a new conclusion and preface, updated terminology, and additional footnotes.

Der ewige Kalte Krieg Wilson Cardozo, 2010-06-25 Innerhalb der außenpolitischen Interaktion zwischen den USA und den Ländern Lateinamerikas gibt es keinen vergleichbaren Fall, der die Differenzen, die ideologische Konfrontation, aber auch die kulturelle Annäherung und gegenseitige Einflussnahme so facettenreich widerspiegelt wie die Beziehungen zwischen den Vereinigten Staaten und Kuba. Die gegenwärtige Gestaltung neuer Ansätze zur Lösung des bilateralen Konflikts, der schon über ein halbes Jahrhundert besteht, wird durch verschiedene historische Ereignisse konditioniert. Die kulturelle Verbundenheit beider Länder, die nicht nur durch die geographische Nähe entstanden ist, sondern auch durch den US-amerikanischen Einfluss zu Zeiten der kubanischen Nationsbildung und der damit verknüpften Auseinandersetzung um die Unabhängigkeit der Insel, die gleichzeitig von einer nachhaltigen Migrationsbewegung begleitet war, führte im Laufe der Jahrzehnte zur Etablierung kubanischstämmiger Gruppierungen in den USA. Diese

bilden zum einen auf Grund ihrer erfolgreichen Integration in die soz- politischen und ökonomischen Strukturen der Vereinigten Staaten, die durch die - amerikanischen Regierungen begünstigt wurde, und zum anderen wegen ihrer demograp- schen Konzentration in der Region Floridas einen Referenzpunkt für eine erfolgreiche - teiligung einer ethnischen Minderheit an der Gestaltung, Einflussnahme und Ausführung außenpolitischer US-amerikanischer Maßnahmen. In der vorliegenden Studie werde ich zeigen, dass die Gruppen für die Interpretation der bilateralen Beziehungen zwischen den USA und Kuba einen entscheidenden innenpolitischen Faktor repräsentieren. Dieser wird zwar in der wissenschaftlichen Literatur zu diesem spezifischen Thema erwähnt, bisher wurde er jedoch nicht in einen theoretischen Rahmen eingebettet und empirisch untersucht.

China and the New Silk Road Harald Pechlaner, Greta Erschbamer, Hannes Thees, Mirjam Gruber, 2020-05-04 This book studies the Chinese “Belt and Road Initiative” (BRI), also called New Silk Road, and focuses on its regional and local effects. Written by experts from various fields, it presents a range of case studies on the geopolitical, socio-economic, ecological and cultural implications of the BRI for European regions and their stakeholders. The book is divided into four parts, the first of which discusses the history of and China’s motivations for the BRI. The second part explores the global phenomenon from a number of regional standpoints. In turn, the third part presents studies on the political, socio-economic, cultural and ecological implications of the New Silk Road project. The final part highlights the tourism prospects in connection with the Silk Road project, as tourism has established itself as an important economic sector in many regions along the historic Silk Road. This book will appeal to scholars of economics, international relations and tourism, decision-makers, managers, chambers of commerce and entrepreneurs with special interests in establishing collaboration with the Chinese market.

Integrated Mission-directed Research Wendy Proctor, 2010-05-21 This book offers readers the chance to learn from the experiences of researchers involved in integrated mission-directed research, particularly in the areas of natural resource management and regional development. Integrated Mission-directed Research covers important issues in integration science, supported by case studies that detail how to engage individuals and communities, and support policy decisions and development. The authors explore case studies undertaken in Australia, Europe, Thailand and Indonesia, as well as perspectives from the Millennium Ecosystem Assessment. Closing chapters demonstrate key challenges for researchers and essential questions that should be answered when trying to set up integrated research. Potential benefits that could be obtained from effective integrated mission-directed research are included, as well as assessment questions to assist researchers to see if such benefits have been truly obtained. Written by experienced researchers, many of whom were involved in CSIRO’s Social and Economic Integration Emerging Science Initiative, the book explores how integrated research is now seen as

crucial in achieving sustainability outcomes in natural resource management.

Printers' Marks William Roberts, 1893

Early Printed Narrative Literature in Western Europe Bart Besamusca, Elisabeth de Bruijn, Frank Willaert, 2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe. The aim of this book is to consider to what extent the shift from hand-written to printed books left its mark on narrative literature in a number of vernacular languages. Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies? Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed? How did this crucial media development affect the nature of these narratives? Which strategies did early printers develop to make their texts commercially attractive? Which social classes were the target audiences for their editions? Around half of the articles focus on developments in the history of early printed narrative texts, others discuss publication strategies. This book provides an impetus for cross-linguistic research. It invites scholars from various disciplines to get involved in an international conversation about fifteenth- and sixteenth-century narrative literature.
