Revolutionizing Education through Web-Based Instruction Raisinghani, Mahesh,2016-02-29 The proliferation of technology has affected all aspects of human life, yet the continuing possibilities of their effects on education have yet to be fully explored. When viewed separately, one may believe that only paltry solutions can be wrought from online and web-based education; however, when applied and studied in a dynamic, interactive sense, these advancements may alter the very notion of learning and education. Revolutionizing Education through Web-Based Instruction is a comprehensive, multi-disciplinary exploration of the emerging digital opportunities available to educators. This book presents contemporary theoretical frameworks as well as practical research findings that support the use of these new computer-assisted teaching techniques. The myriad of research-based topics featured in this book allow for a thorough, diverse discussion about education, technology, and the intersection therein. This title is an invaluable resource for instructors, students of education, and researchers and professionals in the fields of knowledge management.

Academic E-Books Suzanne M. Ward,Robert S. Freeman,Judith M. Nixon,2015-11-15 Academic E-Books: Publishers, Librarians, and Users provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.

Volcanic Reflections: a Bilingual Anthology of Contemporary Ecuadorian Poetry Ronald Haladyna,2011-08-26 Volcanic Reflections: A Bilingual Anthology of Contemporary Ecuadorian Poetry is the third in a series of books that aspires to address a dearth of information in the English-speaking world about South American poetry of the past thirty years. The nineteen outstanding poets included here represent a wide diversity of themes, styles, and perspectives in one of South Americas smaller nations. All of them have published extensively, have been recognized through literary awards and inclusion in national and international anthologies, and continue writing and publishing today. For readers unfamiliar with Ecuador, the Introduction provides a brief background of its geography, history, politics, economy, and society. This is followed by an ample selection of representative poems published previously in Spanish, with translations in English on facing pages. The book concludes with a brief biographical sketch of each poet and an unprecedented bibliography of primary and secondary sources for those readers who might want to pursue further reading or research on any poet of interest. Contemporary Uruguayan Poetry: A Bilingual Anthology and Exotic Territory: A Bilingual Anthology of Contemporary Paraguayan Anthology are two companion volumes that offer similar exposure to poetry that deserves to be better known in the English-speaking world.
