Translating Wisdom Shankar Nair,2020-04-28 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. During the height of Muslim power in Mughal South Asia, Hindu and Muslim scholars worked collaboratively to translate a large body of Hindu Sanskrit texts into the Persian language. Translating Wisdom reconstructs the intellectual processes and exchanges that underlay these translations. Using as a case study the 1597 Persian rendition of the Yoga-Vasistha—an influential Sanskrit philosophical tale whose popularity stretched across the subcontinent—Shankar Nair illustrates how these early modern Muslim and Hindu scholars drew upon their respective religious, philosophical, and literary traditions to forge a common vocabulary through which to understand one another. These scholars thus achieved, Nair argues, a nuanced cultural exchange and interreligious and cross-philosophical dialogue significant not only to South Asia’s past but also its present.

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com We include a Table of Contents on the back cover for quick reference. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, pocket-size (6 by 9 inches), with large text and glossy cover. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

Carbon Sequestration Potential of Agroforestry Systems B. Mohan Kumar,P. K. Ramachandran Nair,2011-08-05 Tree based production systems abound especially in the tropics. Despite the pervasiveness of such multipurpose “trees-outside-forest” resources, they have not attracted adequate attention in the development paradigms of many nation states. These multispecies production systems impact the ecosystem processes favourably. Yet, our understanding of the diversity attributes and carbon dynamics under agroforestry is not adequate. This book focuses on the role of multispecies production systems involving tree and crop species as a means for carbon sequestration and thereby reduce atmospheric carbon dioxide levels. Sixteen chapters organized into three broad sections titled: Measurement and Estimation, Agrobiodiversity and Tree Management, and Policy and Socioeconomic Aspects represent a cross section of the opportunities and challenges in current research and emerging issues in harnessing carbon sequestration potential of agroforestry systems.

Silvopastoral Systems in Southern South America Pablo Luis Peri,Francis Dube,Alexandre Varella,2016-03-02 This multi-authored volume contains peer-reviewed chapters from leading researchers and professionals in silvopastoral systems topic in Southern South America (Argentina, Chile and South Brazil). It is a compendium of original research articles, case studies, and regional overviews and summarizes the current state of knowledge on different components and aspects (pasture production, animal production, trees production, carbon sequestration, conservation) of silvopastoral systems in native forests and tree plantations. The main hypothesis of the book is that farmers have integrated tree and pasture/grassland species in their land use systems to reach higher production per unit of land area, risk avoidance, product diversification, and sustainability. These production systems also impact positively in main ecosystem processes. Management of these productive systems, Policy and Socioeconomic Aspects provide great opportunities and challenges for farmers and policy makers in our region. The book is unique on this subject in Southern South America and constitutes a valuable reference material for graduate students, professors, scientists and extensionists who work with silvopastoral systems.
