*Communicating Science* Toss Gascoigne, Bernard Schiele, Joan Leach, Michelle Riedlinger, Luisa Massarani, Bruce V. Lewenstein, Peter Broks, 2020-09-14 Modern science communication has emerged in the twentieth century as a field of study, a body of practice and a profession—and it is a practice with deep historical roots. We have seen the birth of interactive science centres, the first university actions in teaching and conducting research, and a sharp growth in employment of science communicators. This collection charts the emergence of modern science communication across the world. This is the first volume to map investment around the globe in science centres, university courses and research, publications and conferences as well as tell the national stories of science communication. How did it all begin? How has development varied from one country to another? What motivated governments, institutions and people to see science communication as an answer to questions of the social place of science? *Communicating Science* describes the pathways followed by 39 different countries. All continents and many cultures are represented. For some countries, this is the first time that their science communication story has been told.

**From Behind the Curtain** Mareike Jule Winkelmann, 2005 Annotation. In the aftermath of 9/11 Islamic seminaries or madrasas received much media attention in India, mostly owing to the alleged link between madrasa education and forms of violence. Yet, while ample information on madrasas for boys is available, similar institutions of Islamic learning for girls have for the greater part escaped public attention so far. This study investigates how madrasas for girls emerged in India, how they differ from madrasas for boys, and how female students come to interpret Islam through the teachings they receive in these schools. Observations suggest that, next to the official curriculum, the 'informal' curriculum plays an equally important role. It serves the madrasa's broader aim of bringing about a complete reform of the students' morality and to determine their actions accordingly. This title can be previewed in Google Books -

Alfred Dreyfus Norman Simms, 2013-02 This groundbreaking book focuses on Alfred Dreyfus the man, with emphasis placed on his own writings, including his recently published prison workbooks and his letters to his wife Lucie. Through close reading of these documents, a much more sensitive, intellectual, and Jewish man is revealed than was previously suspected. He and Lucie, through their family connections and mutual loyalty, were interested in and supported the artistic, scientific, philosophical and historical movements that formed their Parisian milieu. But as an Alsatian Jew, Alfred was also critical

of many aspects of technological and ideological developments, making his mentality one of skepticism as well as idealism. Norman Simms addresses the way Dreyfus perceived the world, challenged many of its assumptions and contextualized it in the style of a rabbinical midrash, a process that created what Alfred called a “phantasmagoria” of the Affair that bears his name, and also interprets the man, his milieu and his mentality in the style of a midrash, a creative, transformative reading.

Gentle Birth, Gentle Mothering Sarah Buckley, 2013-02-20 An authoritative guide to natural childbirth and postpartum parenting options from an MD who home-birthing her own four children. Sarah Buckley might be called a third-wave natural birth advocate. A doctor and a mother, she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body. Using current medical and epidemiological research plus women's experiences (including her own), she demonstrates that what she calls undisturbed birth is almost always healthier and safer than high-technology approaches to birth. Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship.

Erik Satie: Music, Art and Literature Caroline Potter, 2016-05-13 Erik Satie (1866-1925) was a quirky, innovative and enigmatic composer whose impact has spread far beyond the

musical world. As an artist active in several spheres - from cabaret to religion, from calligraphy to poetry and playwriting - and collaborator with some of the leading avant-garde figures of the day, including Cocteau, Picasso, Diaghilev and René Clair, he was one of few genuinely cross-disciplinary composers. His artistic activity, during a tumultuous time in the Parisian art world, situates him in an especially exciting period, and his friendships with Debussy, Stravinsky and others place him at the centre of French musical life. He was a unique figure whose art is immediately recognisable, whatever the medium he employed. Erik Satie: Music, Art and Literature explores many aspects of Satie's creativity to give a full picture of this most multifaceted of composers. The focus is on Satie's philosophy and psychology revealed through his music; Satie's interest in and participation in artistic media other than music, and Satie's collaborations with other artists. This book is therefore essential reading for anyone interested in the French musical and cultural scene of the late nineteenth and early twentieth century.

**The Humming Room** Ellen Potter, 2013-04-16 Hiding is Roo Fanshaw's special skill. Living in a frighteningly unstable family, she often needs to disappear at a moment's notice. When her parents are murdered, it's her special hiding place under the trailer that saves her life. As it turns out, Roo, much to her surprise, has a wealthy if eccentric uncle, who has agreed to take her into his home on Cough Rock Island. Once a tuberculosis sanitarium for children of the rich, the strange house is teeming with ghost stories and secrets. Roo doesn't believe in ghosts or fairy stories, but what are those eerie noises she keeps hearing? And who is that strange wild boy who lives on the river? People are lying to her, and Roo becomes determined to find the truth. Despite the best efforts of her uncle's assistants, Roo discovers the house's hidden room—a garden with a tragic secret. Inspired by *The Secret Garden*, this tale full of unusual characters and mysterious secrets is a story that only Ellen Potter could write. Read the Q&A with Ellen Potter from *Publisher's Weekly* on writing a novel inspired by *The Secret Garden* By Sally Lodge Jan 12, 2011 In 2003, Ellen Potter made a lively splash onto the scene with her middle-grade novel *Olivia Kidney*. She went on to write three sequels about that enchantingly quirky heroine, as well as two other

novels, *Slob* and *The Kneebone Boy*. Most recently, the author tapped into memories of her own childhood reading to pen *The Humming Room*, a novel inspired by Frances Hodgson Burnett's *The Secret Garden*. Set in a mansion-a former children's tuberculosis sanitarium-on an island in the St. Lawrence River, the story centers on Roo, a prickly orphan who goes to live with her aloof uncle, and befriends Phillip, his troubled son, and Jack, a local boy. Potter talks about how this novel took shape. Is it safe to assume that *The Secret Garden* was an important book to you as a child? Obviously, I loved the novel as a kid. What really struck me was that when I went back to read it as an adult, the story not only held up, but I discovered elements in it I had never noticed before. It felt very fresh, and surprisingly layered in a way I hadn't realized as a child. Was that an unusual reaction for you to have to a book you revisit from your childhood? Yes, very unusual for me. A lot of times when I go back to books I loved when I was young I don't quite understand what it was that I loved about them. Rereading *The Secret Garden*, I felt a lot like Mary feels when she visits her garden. She's always finding something new popping up-something delightful or surprising. I've reread *The Secret Garden* every year as an adult. I have a battered copy on my bookshelf-it's really quite a mess! The experience of reading the novel keeps deepening for me. How did you tackle the actual writing of *The Humming Room*? The idea of writing a contemporary version of *The Secret Garden* was very exciting to me, yet at the same time it was very, very intimidating. I knew I needed to follow the original story line-or that I wanted to-but I knew I had to make it different enough that it would be worthwhile for people to read my novel. My editor, Jean Feiwel, was great and kept encouraging me to have at it, to go anywhere that I felt I had to go with it. Did you set parameters for yourself,

in terms of working within Burnett's original storyline? I actually kept trying to swerve away from the original story, but it wasn't easy. There's something about *The Secret Garden* that kept me rooted in the original storyline, which was difficult for me. I don't plot my novels-I move along with my characters. For the first time I had a story already set out for me, which was very challenging. Would you say that you heard Burnett's voice in your head as you wrote? Yes. I feel I know *The Secret Garden* so well that I could kind of riff on it like a jazz musician. I know it in my core, and could take the essence and work with that. Still, I love the original novel so much that it was psychologically a very tough book to write. Though I think whenever I finish a book I always say it's the hardest thing I've ever written! You obviously did branch out from the original, with the setting to begin with. Why choose an island on the St. Lawrence? I went back and forth on the setting, actually. At first I thought of perhaps setting it in New York City, but that didn't work. At the time I began writing the novel I was living in the Thousand Islands, and was spending a lot of time on the St. Lawrence. The river is so very beautiful, and it struck me as similar in some ways to the moor in *The Secret Garden*. Similar in what ways? The St. Lawrence seems a vast expanse of gray, the way the moor is a vast expanse of purple. But if you stop and look closely at the river, it's incredibly changeable and moody-and sometimes violent. But it's always surprising. And it occurred to me that this would be a perfect setting for *The Humming Room*. On top of that, there are quite a few mansions in the Thousand Islands with ghost stories attached to them. It's quite incredible. So that inspired your mansion setting, with mysterious humming noises and an abandoned garden hidden within it? Yes, and I decided to make the mansion a defunct sanitarium, because I wanted there to be a ghostly

presence, an eerie echo, in the house. One of the things I loved in *The Secret Garden*, and tried to put in my novel, was that there was a consciousness to everything-the house, the moor, and the garden. They are really characters themselves. In my novel, I wanted to give this same consciousness and self-awareness to the mansion, the river, and the garden, to give them personalities. How did you set out to make Roo, Jack, and Phillip distinct from-and have a more modern sensibility than-Burnett's characters? One thing I remember about Mary and Dickon is that there was a little squeak of romance in their relationship, but it was so understated. As a child, I remember wanting more romance in the book. So I brought out a bit more romance between Roo and Jack. It's a young romance and entirely innocent, but it's there. With Phillip, my Colin character, I tried at first to make his ailment physical, like Colin's, but that didn't work, so I decided to give Phillip a more mental affliction, which worked better for the story. And like Mary, Roo starts off as a not very likable character-she's a pretty tough customer. That's unusual for a heroine, and I loved that about *The Secret Garden*. But before long Mary begins to blossom, and that happens to Roo as well. Have you tackled another writing project since finishing *The Humming Room*? Yes. I'm working on a series for younger readers, for *Feiwei and Friends*. It's directed at boys-though I think girls will like it, too. I have a son who is seven, and I've been noticing for a while how few very engaging books there are for boys around that age. They somehow get the short shrift. Boys at that age who are big readers are reading books like *Diary of a Wimpy Kid*, which deal with middle-school issues that seven-year-olds are not yet concerned about. So I'm trying to write something along those lines, but more appropriate for younger kids. As I write, I've been trying out scenes on my son. I wait for his giggle, and if it comes, I keep

that part in the book. Luckily, it's a method that seems to be working quite well! -
