Estudios de derecho del consumo (Ley 1480 de 2011) TOMO 2 Fernando, Jiménez Valderrama,2017-04-01 Esta obra tiene un doble mérito. Por un lado, constituye un justo homenaje a uno de los más destacados juristas colombianos, el doctor Álvaro Mendoza Ramírez, quien a lo largo de su cátedra y ejercicio profesional, sin duda alguna, ha sido un modelo para varias generaciones de privatistas colombianos.

The Flesh Cartel, Season 2: Fragmentation Heidi Belleau,Rachel Haimowitz,2013-01-07 Nikolai Petrovic is a man of refinement. He collects fine art, enjoys gourmet cuisine, and trains boutique sex slaves for some of the wealthiest — and most morally dubious — men and women in the world. Charged by a wealthy client to buy a man to train but not break — to shape into a skilled, obedient slave who will yield with hatred rather than love in his eyes — Nikolai finds the perfect raw material in Mathias Carmichael. But there's a problem: he was auctioned off in a lot with his beautiful younger brother. Douglas Carmichael is a lovely, trainable thing, but Nikolai never takes on more than one slave at a time. As a master trainer who's never once failed in his task, he knows he's up to the challenge, but it will take formidable skill and planning to mold these drastically different brothers into their best selves. And in order to make them obedient to Nikolai and their future masters above all others, he'll first have to break their greatest loyalty of all: their dedication to each other. READER DISCRETION ADVISED.

The Flesh Cartel, Season 2: Auction Rachel Haimowitz,Heidi Belleau,2013-01-15 Sublime service, made to order. In episode two of The Flesh Cartel, the dark purpose behind Mat and Dougie Carmichael's abduction is revealed. Though Dougie is protected from the worst of the guards' brutality, he's disgusted to find himself halfway to broken—despairing of escape and terrified of pain. Mat holds onto hope despite repeated rapes and beatings, but threats toward his brother teach him well to lay aside his pride and pick his battles carefully. Worn down by days of unrelenting fear and abuse, Mat and Dougie are packaged and marketed with the same ruthless efficiency as any consumer product: Dougie the prettyboy twink, Mat the rabid pit bull. They are led to the auction block as the showpiece of the house's collection. Mat would rather be beaten to death than play the role of obedient slave for sale, but Dougie, desperate not to be separated from his brother, strikes a deal with the pitiless Madame who runs the auction house and controls both their fates. It might just be enough to keep them together—slaves, but together—assuming Mat even wants to be after Dougie fulfills his end of his deal with the devil. **See this title's page on RiptidePublishing.com for content warnings.**

Green Infrastructure in Chinese Cities Ali Cheshmehzangi,2022-03-19 Since 2014, and the start of the New-type Urbanization Plan (NUP), we see a turning point in the sustainability agenda of China. One of the main indicators is greening cities and the built environments, which will be covered holistically in this edited book. From the perspective of green infrastructure, in particular, the book approaches key areas of 'forest city development', 'sponge city program', 'green roofing', 'nature-based solutions', 'urban farming', 'eco-city development', etc. This is the first time that such important areas of research come together under the perspective of green Infrastructure. The results would be beneficial to policymakers, practitioners, and researchers in China and across the globe. The comprehensive set of findings from this book will benefit other countries, as we aim to highlight some of the best practices of the current age. The main aim of the book is to put together an excellent group of scholars and practitioners from the field, focusing on the topic of 'Green Infrastructure in Chinese Cities'. In doing so, we aim to cover some of the key 'best practices' for sustainable urbanism. Divided into four parts, the book covers four key areas of (1) Policy Interventions, (2) Planning Innovation, (3) Design Solutions, and (4) Technical Integration. In doing so, we cover an array of best practices related to green infrastructures of various types and their impacts on cities and communities in China. We expect the book to be a valuable resource for researchers in the areas of sustainability, urbanism, urban planning, urban geography, urban design, geographical sciences, environmental sciences, landscape architecture, and urban ecology. The book covers essential factors such as policy, regulations, and programs (in Part 1), planning paradigms and their impacts on urban development (in Part 2), integrated design solutions that suggest sustainable urbanization progression (in Part 3), and technical knowledge that would be utilized for the future development of green infrastructure practices in China and beyond. Lastly, this edited book aims to provide a collaborative opportunity for experts and researchers of the field, who could contribute to the future pathways of sustainable urbanization of China. Lessons extracted from these contributions could be utilized for other contexts, which will benefit a wider group of stakeholders.

Adolescent Health Services Institute of Medicine,National Research Council,Board on Children, Youth, and Families,Committee on Adolescent Health Care Services and Models of Care for Treatment, Prevention, and Healthy Development,2009-01-03 Adolescence is a time of major transition, however, health care services in the United States today are not designed to help young people develop healthy routines, behaviors, and relationships that they can carry into their adult lives. While most adolescents at this stage of life are thriving, many of them have difficulty gaining access to necessary services; other engage in risky behaviors that can jeopardize their health during these formative years and also contribute to poor health outcomes in adulthood. Missed opportunities for disease prevention and health promotion are two major problematic features of our nation's health services system for adolescents. Recognizing that health care providers play an important role in fostering healthy behaviors among adolescents, Adolescent Health Services examines the health status of adolescents and reviews the separate and uncoordinated programs and services delivered in multiple public and private health care settings. The book provides guidance to administrators in public and private health care agencies, health care workers, guidance counselors, parents, school administrators, and policy makers on investing in, strengthening, and

improving an integrated health system for adolescents.

Higher Education Systems 3.0 Jason E. Lane,D. Bruce Johnstone,2013-09-17 An exploration of multi-campus higher education systems and their role in improving communities and their economies. This thought-provoking volume brings together scholars and system leaders to analyze some of the most pressing and complex issues now facing higher education systems and society. Higher Education Systems 3.0 focuses on the remaking of higher education coordination in an era of increased accountability, greater calls for productivity, and intensifying fiscal austerity. System heads have been identifying ways to harness the collective contributions of their various institutions to benefit the students, communities, and other stakeholders that they serve. The contributors explore the recent dynamics of higher education systems, focusing particularly on how systems are now working to improve their effectiveness in educating students and improving our communities, while also identifying new means for operating more efficiently. This enhanced collaboration, or systemness, is the key aspect of version 3.0. Jason E. Lane is Associate Vice Chancellor for Academic Programs and Planning and Associate Provost for Graduate Education and Research at the State University of New York, Deputy Director of the Rockefeller Institute of Government, and Associate Professor of Educational Policy at the University at Albany, State University of New York. D. Bruce Johnstone is Distinguished Service Professor Emeritus of Higher and Comparative Education at the University at Buffalo, State University of New York, and former Chancellor of the State University of New York. They are the coeditors of Universities and Colleges as Economic Drivers: Measuring Higher Education's Role in Economic Development, also published by SUNY Press.

Policing Democracy Mark Ungar,2020-03-03 2011 Winner of the Charles H. Levine Memorial Book Prize of the International Political Science Association Latin America's crime rates are astonishing by any standard—the region's homicide rate is the world's highest. This crisis continually traps governments between the need for comprehensive reform and the public demand for immediate action, usually meaning iron-fisted police tactics harking back to the repressive pre-1980s dictatorships. In Policing Democracy, Mark Ungar situates Latin America at a crossroads between its longstanding form of reactive policing and a problem-oriented approach based on prevention and citizen participation. Drawing on extensive case studies from Argentina, Bolivia, and Honduras, he reviews the full spectrum of areas needing reform: criminal law, policing, investigation, trial practices, and incarceration. Finally, Policing Democracy probes democratic politics, power relations, and regional disparities of security and reform to establish a framework for understanding the crisis and moving beyond it.

The Palestinian Strategic Report 2010/11 Dr. Mohsen Mohammad Saleh,2011-05-23 This annual referential report, has become an essential classic in the academic realm of Palestinian Studies. It includes the latest and most recent statistical and analytic data on the various developments related to the Palestinian issue. Al-Zaytouna Centre for Studies and Consultations issued its Palestinian Strategic Report 2010/11 (PSR 2010/11) which addresses the developments of the Palestinian issue in 2010/11. The PSR is considered one of the most important scientific studies published annually by Al-Zaytouna Centre. The Report is rich with information, analyses, tables and charts besides strategic visions and future outlooks. It is published for the sixth year in a row and it has become one of the major sources for experts and those interested in the Palestinian issue. It provides a comprehensive coverage of the developments of the Palestinian issue that happened over a year while abiding by strict scientific and professional standards. The Report is 444 medium-sized pages. It is co-authored by 15 researchers specialized in the Palestinian issue, reviewed by four consultants and edited by Dr. Mohsen M. Saleh. The PSR 2010/11 stresses that the uprisings witnessed in the Arab world since early 2011, especially in Egypt, will have a direct impact on the Palestinian issue. The impact will most likely be positive if the uprisings achieved their goals and yielded political regimes which express the real will of the Arab peoples. However, the Report notes that the internal affairs would most probably be the primary concern during the coming period. Regarding the inter-Palestinian reconciliation, PSR 2010/11 asserts that the reconciliation agreement signed in Cairo last May still needs more serious steps to end the division and achieve real reconciliation on the ground. It needs to resolve many obstacles through cooperation between the different parties, away from external interventions and pressures. On the Israeli level, the Report mentions that 2010 has continuously witnessed the inclination of the Israeli society towards the extreme right. It further notes the absence of any breakthroughs in 2011 especially in the light of Israel's rejection for the negotiations with President Mahmud 'Abbas. The agreement signed with Hamas and the PA's attempts to obtain international recognition of the Palestinian State in September 2011 hindered such negotiations. On the international level, the PSR says that the international diplomatic efforts towards the Palestinian issue have failed again in 2010. They could not achieve any significant progress regarding the peace settlement track or the siege imposed on the Gaza Strip. Moreover, PSR 2010/11 includes a large number of figures and statistics on Israeli violations on different levels. During 2010, 98 Palestinians were killed in the West Bank and Gaza Strip (including Jerusalem) by Israeli forces and settlers while 967 Palestinians and international solidarity activists were wounded. On the other hand, Israel's internal security service mentioned that during 2010, 9 Israelis were killed and 28 were wounded in operations carried out by the Palestinians. Concerning settlement building, the Report shows that despite the 10-month Israeli moratorium on settlement building, Israel established 1819 buildings/apartments in 133 settlements all over the West Bank, including Jerusalem; in addition to 1433 mobile homes (caravans). PSR 2010/11 also discusses the increased Israeli attacks on the Islamic and Christian holy sites in Jerusalem and historic Palestine, during 2010. It further shows that the developments during that year revealed that the Judaization of Jerusalem has become the primary battle for Israel due to the obsession with the "Jewishness of the state" dominating the Israeli mind. Concerning demographic indicators, PSR 2010/11 mentions that at the end of 2010 the number of Palestinians around the world was around 11.14 million people. More than half of them, i.e., 5.75 million (51.6%) live in Diaspora, while the rest, i.e., 5.39 million (48.4%) live in historic Palestine. The latter are distributed by 1.28 million people in the territories occupied in 1948 and 4.11 million in the '67 territories. The Report mentions that if the current growth rates of the Palestinians and the Jews persist, the number of Palestinians and Jews will become on par by 2017 where each will

reach around 6.53 million. Thus, in 2020, around 49.2% of the population will be Jews as their number will reach 6.87 million compared to 7.09 million Palestinians. Regarding the economic indicators in the West Bank and the Gaza Strip, the Report shows that events during 2010 has not affected the direct dependence of the Palestinian economy on the Israeli economy. In addition, the isolation of the Palestinian economy from the outside world continued due to the Israeli control of all international exits and Palestinian border crossings besides the Palestinian foreign trade. PSR 2010/11 also refers to the enormous difference between the Palestinian economy in the West Bank and the Gaza Strip on one hand and the Israeli economy on the other. Thus, it shows, for example, that in 2010 the Palestinian GDP per capita was $1500 (around $1925 in the West Bank and $877 in the Strip) compared to $28,500 in Israel. In addition, the GDP amounted to $5.73 billion for the Palestinians compared to $217.13 billion for the Israelis.
