TiVo Hacks Raffi Krikorian,2003-08-22 TiVo Hacks helps you get the most out of your TiVo personal video recorder. Armed with just a screwdriver and basic understanding of PC hardware (or willingness to learn), preeminent hackability awaits. This book includes hacks for changing the order of recorded programs, activating the 30-second skip to blaze through commercials, upgrading TiVo's hard drive for more hours of recording, use of TiVo's Home Media Option to remotely schedule a recording via the Web, log in to the serial port for command-line access to programming data, log files, closed-captioning data, display graphics on the TiVo screen, and even play MP3s. Readers who use advanced hacks to put TiVo on their home network via the serial port, Ethernet, USB, or wireless (with 802.11b WiFi) will watch a whole new world open up. By installing various open source software packages, you can use TiVo for mail, instant messaging, caller-ID, and more. It's also easy to run a web server on TiVo to schedule recordings, access lists of recorded shows, and even display them on a web site. While TiVo gives viewers personalized control of their TVs, TiVo Hacks gives users personalized control of TiVo. Note: Not all TiVos are the same. The original TiVo, the Series 1, is the most hackable TiVo out there; it's a box thrown together with commodity parts and the TiVo code is running on open hardware. The Series 2 TiVo, the most commonly sold TiVo today, is not open. You won't see hacks in this book that involve modifying Series 2 software.

The One RJ Smith,2012-03-15 The definitive biography of James Brown, the Godfather of Soul, with fascinating findings on his life as a Civil Rights activist, an entrepreneur, and the most innovative musician of our time *Playing 350* shows a year at his peak, with more than forty Billboard hits, James Brown was a dazzling showman who transformed American music. His life offstage was just as vibrant, and until now no biographer has delivered a complete profile. The One draws on interviews with more than 100 people who knew Brown personally or played with him professionally. Using these sources, award-winning writer RJ Smith draws a portrait of a man whose twisted and amazing life helps us to understand the music he made. The One delves deeply into the story of a man who was raised in abject-almost medieval-poverty in the segregated South but grew up to earn (and lose) several fortunes. Covering everything from Brown's unconventional childhood (his aunt ran a bordello), to his role in the Black Power movement, which used Say It Loud (I'm Black and Proud) as its anthem, to his high-profile friendships, to his complicated family life, Smith's meticulous research and sparkling prose blend biography with a cultural history of a pivotal era. At the heart of The One is Brown's musical genius. He had crucial influence as an artist during at least three decades; he inspires pity, awe, and revulsion. As Smith traces the legend's reinvention of funk, soul, R&B, and pop, he gives this history a melody all its own.

Hacking Politics David Moon,Patrick Ruffini,David Segal,2013-05-01 Hacking Politics is a firsthand account of how a ragtag band of activists and technologists overcame a \$90 million lobbying machine to defeat the most serious threat to Internet freedom in memory. The book is a revealing look at how Washington works today – and how citizens successfully fought back. Written by the core Internet figures – video gamers, Tea Partiers, tech titans, lefty activists and ordinary Americans among them – who defeated a pair of special interest bills called SOPA (“Stop Online Piracy Act”) and PIPA (“Protect IP Act”), Hacking Politics provides the first detailed account of the glorious, grand chaos that led to the demise of that legislation and helped foster an Internet-based network of amateur activists. Included are more than thirty original contributions from across the political spectrum, featuring writing by Internet freedom activist Aaron Swartz; Lawrence Lessig of Harvard Law School; novelist Cory Doctorow; Rep. Zoe Lofgren (D-CA.); Jamie Laurie (of the alt-rock/hip-hop group The Flobots); Ron Paul; Mike Masnick, CEO and founder of Techdirt; Kim Dotcom, internet entrepreneur; Tiffiniy Cheng, co-founder and co-director of Fight for the Future; Alexis Ohanian, co-founder of Reddit; Nicole Powers of Suicide Girls; Josh Levy, Internet Campaign Director at Free Press, and many more.

On the Noodle Road Jen Lin-Liu,2013-07-25 A food writer travels the Silk Road, immersing herself in a moveable feast of foods and cultures and discovering some surprising truths about commitment, independence, and love. As a newlywed traveling in Italy, Jen Lin-Liu was struck by culinary echoes of the delicacies she ate and cooked back in China, where she'd lived for more than a decade. Who really invented the noodle? she wondered, like many before her. But also: How had food and culture moved along the Silk Road, the ancient trade route linking Asia to Europe—and what could still be felt of those long-ago migrations? With her new husband's blessing, she set out to discover the connections, both historical and personal, eating a path through western China and on into Central Asia, Iran, Turkey, and across the Mediterranean. The journey takes Lin-Liu into the private kitchens where the headscarves come off and women not only knead and simmer but also confess and confide. The thin rounds of dough stuffed with meat that are dumplings in Beijing evolve into manti in Turkey—their tiny size the measure of a bride's worth—and end as tortellini in Italy. And as she stirs and samples, listening to the women talk about their lives and longings, Lin-Liu gains a new appreciation of her own marriage, learning to savor the sweetness of love freely chosen.

Seating and Wheeled Mobility Michelle L. Lange,Jean Minkel,2017-11-15 Seating and Wheeled Mobility: A Clinical Resource Guide presents clinical assessment considerations when working with a person with a disability who may need wheelchair seating for postural support, skin integrity, or a wheelchair base to best meet dependent or independent mobility needs. Michelle L. Lange and Jean L. Minkel have designed this text to support occupational and physical therapists, complex rehabilitation technology suppliers, and even third-party payers who are interested in wheelchair seating and mobility assessment and applications. Seating and Wheeled Mobility provides a wide spectrum of information from foundational information for those practitioners who are new to the field to in-depth, population-specific information for practitioners who perhaps have not worked with a particular population in the past. Information sharing, opportunities for demonstration and trial, and patience on the part of the clinician working with the person with a disability are all critical precursors to the actual process of making equipment recommendations. Seating and Wheeled Mobility is divided into sections, each addressing a different area of clinical practice: - The first section is an in-depth presentation of the assessment process and the critical understanding of pressure management needed by the clinical team when working with a client population who rely on wheeled mobility. - The second section focuses on postural support. Also included is a completely updated method to measure and describe the seated person and related support surfaces needed when recommending a device. - The third section lays the
