The Foreign Policies of the European Union and the United States in North Africa Francesco Cavatorta,Vincent Durac,2013-09-13 The war in Iraq seemed to bring to a head underlying differences between the United States and the vast majority of European countries regarding the best means to maintain international peace and stability. The unilateralism of the United States as opposed to the multilateralism of the European Union is seen as a very significant source of potential rivalry between the two actors. This volume examines in detail whether the policies of the United States and the EU are truly diverging with respect to the most pressing issues facing North Africa, or whether, in fact, they are converging in terms of objectives to be achieved and strategies for their implementation. Through a number of papers that include both comparative and case specific studies, this book enables a better understanding of the differences and similarities in EU and US foreign policies and security strategies for the region, a clearer analysis of their respective democracy promotion policies, and a better examination of their respective approach to the 'Islamist question' in light of the continued success of such movements. This book was originally published as a special issue of the Journal of North African Studies.

Pant, 2020-11-29 India's foreign policy, out of the structural confines of the Cold War strategic framework, has become more expansive in defining its priorities over the last few years. Prison Breaks Tomas Max Martin, Gilles Chantraine, 2018-02-12 This edited collection analyses the prison through the most fundamental challenge it faces: escapes. The chapters comprise original research from established prison scholars who develop the contours of a sociology of prison escapes. Drawing on firm empirical evidence from places like India, Tunisia, Canada, the UK, France, Uganda, Italy, Sierra Leone, and Mexico, the authors show how escapes not only break the prison, but are also fundamental to the existence of such institutions: how they are imagined, designed, organized, justified, reproduced and transformed. The chapters are organised in four interconnected themes: resistance and everyday life; politics and transition; imaginaries and popular culture; and law and bureaucracy, which reflect how escapes are productive, local, historical, and equivocal social

practices, and integral to the mysterious intransigence of the prison. The result is a critical and theoretically informed understanding of prison escapes – which has so far been absent in prison scholarship – and which will hold broad appeal to academics and students of prisons and penology, as well as practitioners.

The Constitutional Dimension of European Criminal Law Ester Herlin-Karnell, 2012-05-31 Criminal law is one of the most rapidly changing areas of contemporary EU law and integration. The Treaty of Lisbon has elevated it to a central place in the constitution of the EU, within the dynamic area of freedom, security and justice. The phenomenon of EU criminal law as such is however far from new but has developed on an ad hoc basis, not least as a result of the case law of the European Court of Justice. Central to the Court's reasoning in this area has been the principle of effectiveness. A main theme running through the book is therefore the role of the axiom of effectiveness, which is critically examined, with particular attention to its use by the European Court of Justice in recent leading cases. This book explores the constitutional principles underlying it, both those determining the substantive values it embodies, and those determining its scope and extent. Other chapters consider the phenomenon of preventative criminalisation at EU level and the protection of subsidiarity and proportionality in EU criminal law. The balance between effective EU action, proper control of competence and adequate protection of individual rights is of growing importance as EU criminal law expands, but, as this book suggests, has not yet been fully articulated or entrenched by the institutions of the EU.
