*Saxophone Colossus* Aidan Levy,2022-12-06 \*\*Winner of the American Book Award (2023)\*\* \*\*Longlisted for the PEN/Jacqueline Bograd Weld Award (2023)\*\* The long-awaited first full biography of legendary jazz saxophonist and composer Sonny Rollins. Sonny Rollins has long been considered an enigma. Known as the “Saxophone Colossus,” he is widely acknowledged as one of the greatest jazz improvisers of all time, winning Grammys, the Austrian Cross of Honor, Sweden’s Polar Music Prize and a National Medal of Arts. A bridge from bebop to the avant-garde, he is a lasting link to the golden age of jazz, pictured in the iconic “Great Day in Harlem” portrait. His seven-decade career has been well documented, but the backstage life of the man once called “the only jazz recluse” has gone largely untold—until now. Based on more than 200 interviews with Rollins himself, family members, friends, and collaborators, as well as Rollins’ extensive personal archive, *Saxophone Colossus* is the comprehensive portrait of this legendary saxophonist and composer, civil rights activist and environmentalist. A child of the Harlem Renaissance, Rollins’ precocious talent landed him on the bandstand and in the recording studio with Bud Powell, Thelonious Monk, Charlie Parker, Miles Davis and Dizzy Gillespie, or playing opposite Billie Holiday. An icon in his own right, he recorded *Tenor Madness*, featuring John Coltrane; *Way Out West*; *Freedom Suite*, the first civil rights-themed album of the hard bop era; *A Night at the Village Vanguard*; and the 1956 classic *Saxophone Colossus*. Yet his meteoric rise to fame was not without its challenges. He served two sentences on Rikers Island and won his battle with heroin addiction. In 1959, Rollins took a two-year sabbatical from recording and performing, practicing up to 16 hours a day on the Williamsburg Bridge. In 1968, he left again to study at an ashram in India. He returned to performing from 1971 until his retirement in 2012. The story of Sonny Rollins—innovative, unpredictable, larger than life—is the story of jazz itself, and Sonny’s own narrative is as timeless and timely as the art form he represents. Part jazz oral history told in the musicians’ own words, part chronicle of one man’s quest for social justice and spiritual enlightenment, this is the definitive biography of one of the most enduring and influential artists in jazz and American history.

*The Political Ideology of Ayatollah Khamenei* Yvette Hovsepian-Bearce,2015-07-03 Ayatollah ‘Ali Hosseini Khamenei, Supreme Leader of the Islamic Republic of Iran, is one of the most controversial and influential Muslim leaders in the world today. As Iran’s main decision-maker, his theocratic ideology and decisions carry global consequences. *The Political Ideology of Ayatollah Khamenei* is the first book to identify and analyze the development and evolution of the theocratic ideology of the Supreme Leader from 1962 to 2014, using his own writings, speeches, and biographies, as well as literature published in the Islamic Republic of Iran. This work provides new insights into Khamenei’s political thought and behavior and their impact on Iran’s domestic, regional, and international policies. Correlating the development of Khamenei’s personality, character, and political behavior with Iran’s internal and external challenges, this study explores key issues of the Middle East region, in particular Iran’s political posture toward Israel, the United States, and the Muslim world, and the diplomatic crises unfolding over Iran’s nuclear development program. This work provides a comprehensive chronological and thematic survey of Khamenei’s life. This book will be of interest to students, scholars, researchers, diplomats, and policymakers focusing on Middle Eastern politics, Iranian affairs, Islamic studies, and international relations; and could serve as an essential resource for those striving to understand Iran’s policies toward Israel, the United States, and the Muslim world, as shaped by its supreme autocrat.

*Gilded Age* Ivan Franceschini,Nicholas Loubere,2018-04-01 According to the Chinese zodiac, 2017 was the year of the 'fire rooster', an animal often associated with the mythical fenghuang, a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing. Considering the auspicious symbolism surrounding the fenghuang, it is fitting that on 18 October 2017, President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a 'new era' for Chinese socialism. However, in spite of such ecumenical proclamations, it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities. Migrant workers, for one, remain disposable. Lawyers, activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world. This Yearbook traces the stark new 'gilded age' inaugurated by the Chinese Communist Party. It does so through a collection of more than 40 original essays on labour, civil society and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

*World Drug Report 2008* United Nations Office on Drugs and Crime,2008-06-26 The Report continues to provide in depth trend analysis of the four main drug markets in its first section. In addition, to mark the one hundred year anniversary of the Shanghai Opium Commission, and one hundred years of international drug control, the Report contains an in-depth look at the development of the international drug control system. The Report also contains a small statistical annex which provides a detailed look at production, prices and consumption. As in previous years, the present Report is based on data obtained primarily from the annual reports questionnaire (ARQ) sent by Governments to UNODC in 2007, supplemented by other sources when necessary and where available. Two of the main limitations herein are: (i) that ARQ reporting is not systematic enough, both in terms of number of countries responding and of content, and (ii) that most countries lack the adequate monitoring systems required to produce reliable, comprehensive and internationally comparable data. National monitoring systems are, however, improving and UNODC has contributed to this process.

*Setting the Course* Institute of Medicine,Division of Health Care Services,Committee on the Immunization Finance Dissemination Workshops,2002-01-31 The federal and state partnership in supporting immunization programs that benefit the general population evolved over the last half of the 20th century from a simple cost-sharing arrangement for vaccine purchase for disadvantaged children to a more complicated mix of programs, health care coverage benefits, and public-private partnerships. The mix of financial arrangements that support immunization efforts was the subject of a study by the Institute of Medicine, resulting in the publication of the report *Calling the Shots*. In June 2001, a group of 50 health officials, public health experts, health care providers, health plan representatives, and community leaders met at the University of Illinois in Chicago to explore the implications of the IOM findings and recommendations for the states of Illinois and Michigan. The one-day workshop was the first in a series of four meetings organized by IOM with support from the Centers for Disease

Control and Prevention to foster informed discussions about future financing strategies for the public health infrastructure that supports immunization efforts. This report of the Chicago workshop summarizes the findings of the IOM study and reviews the challenges that remain in establishing a reliable financial base for the U.S. immunization system. The report high-lights strategies presented by workshop speakers and discussants for achieving immunization goals, including increases in state and federal public health budgets, the addition of quality improvement measures in health plans, performance-based contracting, public policy actions, and the creation of public-private partnerships.

**Knowledge Sovereignty Among African Cattle Herders** Zeremariam Fre,2018-06-20 Beni-Amer cattle owners in the western part of the Horn of Africa are not only masters in cattle breeding, they are also knowledge sovereign, in terms of owning productive genes of cattle and the cognitive knowledge base crucial to sustainable development. The strong bonds between the Beni-Amer, their animals, and their environment constitute the basis of their ways of knowing, and much of their knowledge system is built on experience and embedded in their cultural practices. In this book, the first to study Beni-Amer practices, Zeremariam Fre argues for the importance of their knowledge, challenging the preconceptions that regard it as untrustworthy when compared to scientific knowledge from more developed regions. Empirical evidence suggests that there is much one could learn from the other, since elements of pastoralist technology, such as those related to animal production and husbandry, make a direct contribution to our knowledge of livestock production. It is this potential for hybridisation, as well as the resilience of the herders, at the core of the indigenous knowledge system. Fre also argues that indigenous knowledge can be viewed as a stand-alone science, and that a community's rights over ownership should be defended by government officials, development planners and policy makers, making the case for a celebration of the knowledge sovereignty of pastoralist communities Praise for Knowledge Sovereignty Among African Cattle Herders 'This book greatly contributes to the limited literature on theoretical discourses and practices on indigenous knowledge of livestock herding communities in the Horn of Africa. It discusses knowledge heritage and sovereignty through the presentation of valid empirical evidence, and its subsequent relevance in nurturing sustainability of knowledge systems to enhance lives of pastoralists in Africa and beyond.' Samuel Tefera PhD, Assistant Professor and Asian Desk Coordinator at the Centre for African and Oriental Studies, Associate Dean for Research and Technology Transfer, College of Social Sciences, Addis Ababa University 'The author has worked with our Beni-Amer pastoral communities in Eastern Sudan and Western Eritrea for over 30 years and this book is the first of its kind in documenting our practices, knowledge systems, heritage and way of life.' Mustafa Faid and Mohamed Ali, Leaders of the of the Pastoral and Environmental Association Kassala State (PEAKS) 'A riveting and rare book! Zeremariam Fre guides you along the sandy [dusty] tracks and grassy pastures that the Beni-Amer and their herds have been softly tracing over time all through the Horn of Africa. One of the virtues of the book is that it illustrates vividly and in clear language how their continuous self-built endogenous knowledge on agro-pastoral life is not only at the core of their survival and the survival of their herds, but more importantly a powerful weapon in facing and resisting multiple aggressions . . . Ground-breaking and a huge achievement.' Yves Cabannes, Emeritus Professor of Development Planning,, The Bartlett Development Planning Unit, UCL 'The book underlines the importance of enriching and utilizing the unrecognized, yet valuable scientific knowledge and practices that are deeply rooted in pastoral traditional expertise about their own environment and breeding practices. It is an important publication that reflects Dr Fre's expertise and long term research in the region and thus, it is a significant addition to the African library.' Hala Alkarib, Director of the Strategic Initiative for Women in the Horn of Africa (SIHA) 'This fascinating book not only gives a unique insight into the knowledge and practice of pastoralists in the Horn of Africa from the author's first-hand experience, it also provides an incisive critique of the multiple dimensions of knowledge, paying tribute to the sovereignty of indigenous knowledge. It has a timely relevance for global sustainability that will appeal to a wider readership.' Nicole Kenton, International Development Consultant, former long serving senior staff member of the International Institute for Environment and Development (IIED) 'The book covers several intertwined issues relevant to contemporary development policy and practice. It goes beyond the rural-urban and peasant-nomadic livelihoods dichotomy by shedding more light on the inter-linkages within the multiple livelihood systems within the Horn of Africa and globally. A rich evidence-based resource for academics, development partners and social movements for promoting and designing state policies that embrace pastoralist aspirations.' Bereket Tsegay MA, PhD candidate, Pastoral and Environmental Network in the Horn of Africa (PENHA) 'Dr Zeremariam Fre has done a wonderful job of placing at the centre of this book the Beni-Amer pastoralists, the world they inhabit and the knowledge they use to navigate and thrive in it. The lessons contained in this book go beyond pastoralism; it is a must read for anyone serious about understanding the importance of located knowledge in the innovation and development process.' Yusuf Dirie, PENHA Research Fellow and PhD researcher at the University of Sussex

**Sterile Insect Technique** Victor A. Dyck,Jorge Hendrichs,A.S. Robinson,2021-01-06 The sterile insect technique (SIT) is an environment-friendly method of pest control that integrates well into area-wide integrated pest management (AW-IPM) programmes. This book takes a generic, thematic, comprehensive, and global approach in describing the principles and practice of the SIT. The strengths and weaknesses, and successes and failures, of the SIT are evaluated openly and fairly from a scientific perspective. The SIT is applicable to some major pests of plant-, animal-, and human-health importance, and criteria are provided to guide in the selection of pests appropriate for the SIT. In the second edition, all aspects of the SIT have been updated and the content considerably expanded. A great variety of subjects is covered, from the history of the SIT to improved prospects for its future application. The major chapters discuss the principles and technical components of applying sterile insects. The four main strategic options in using the SIT — suppression, containment, prevention, and eradication — with examples of each option are described in detail. Other chapters deal with supportive technologies, economic, environmental, and management considerations, and the socio-economic impact of AW-IPM programmes that integrate the SIT. In addition, this second edition includes six new chapters covering the latest developments in the technology: managing pathogens in insect mass-rearing, using symbionts and modern molecular technologies in support of the SIT, applying post-factory nutritional, hormonal, and semiochemical treatments, applying the SIT to eradicate outbreaks of invasive pests, and using the SIT against mosquito vectors of disease. This book will be useful reading for students in animal-, human-, and plant-health courses. The in-depth reviews of all aspects of the SIT and its integration into AW-IPM programmes, complete with extensive lists of scientific references, will be of great value to researchers, teachers, animal-, human-, and plant-health practitioners, and policy makers.

**Rcaf War Prize Flights, German and Japanese Warbird Survivors** Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence, and the test flying of war prizes carried out by

two RCAF bomber pilots who were posted to the Royal Aircraft Establishment's Foreign Aircraft Flight, Farnborough, in the United Kingdom in May 1945. Their primary task was to visit former Luftwaffe airfields, and to find and fly back any aircraft they deemed worthy of evaluation. The list of aircraft found here does not include every German combat aircraft of the Second World War, as it focuses on those warbirds captured and flown by members of the RCAF, or sent to Canada as war prizes. Very few of these rare aircraft exist today, and therefore, information on known locations where German, Japanese and Italian warbird survivors may be found is included. As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association, the author strongly supports the preservation of Canada's aviation heritage. The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject, and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist.
