Bigotry, Football and Scotland John Flint,John Kelly,2013-06-30 A multidisciplinary analysis of sectarianism and bigotry in Scottish football Sectarianism and bigotry are among the most publicly debated issues in Scotland, often reported in the newspapers as the ‘shame’ of Scotland's national game. The current crisis in Scottish football includes high profile controversies and disorder related to bigotry and sectarianism which resulted in new legislation to tackle offensive behaviour in and beyond football grounds. In this collection, contributors from a range of disciplinary positions present the latest empirical research evidence and social theory to examine and debate fundamental issues about bigotry in Scottish football and society. The topic has raised many questions. How should sectarianism and bigotry be defined and understood? What are the experiences and impacts of bigotry on different populations in Scotland? Are recent events unique or do they have historic precedents and contemporary comparisons beyond Scotland? What should be the response of government, football authorities, clubs, football supporters and other institutions and organisations in Scotland regarding legislation? What vision should we have for a future Scottish society and its diverse population? Bigotry, Football and Scotland will appeal to all those interested in Scotland's national game, the role of football in the 21st Century and how multicultural contemporary societies attempt to resolve prejudice and promote diversity.

Human Rights and Intellectual Property Rights Mpasi Sinjela,2007-10-15 This collection offers

an overview of the issues involved concerning the interface between human rights and intellectual property rights (IPRs). It makes clear that two schools of thought have developed. The first school maintains that human rights and IPRs are in fundamental conflict. Strong protection of IP is incompatible with human rights obligations. Thus, for resolving the conflict between the two, it is suggested that human rights should always prevail over IPRs. Whereas the second school of thought asserts that human rights and IPRs pursue the same aim; that is to define the appropriate scope of private monopoly power to create incentives for authors and inventors, while ensuring that the public has adequate access to the fruits of their efforts. Accordingly, they argue, human rights and IP are compatible. However, what is needed is to strike a balance between the provision of incentives to innovate and public access to products of that innovation. This collection explores this balance and the extent to which human rights standards can influence the interpretation of IP norms, for example in defining the scope of IPRs. The discussion on the relationship of human rights and IPRs is an ongoing one; this volume makes a valuable contribution to the debate and will further stimulate the interest to explore and address these complex and challenging issues. This is the second volume in The Raoul Wallenberg Institute of Human Rights and Humanitarian Law 'New Authors' series, which contains the best theses from the human rights masters programmes in Lund and Venice.

The European Union's Africa Policies Ms Daniela Sicurelli, 2013-03-28 The European Union (EU) is a key partner for African regional organizations and a major promoter of economic and political integration in the region. Several studies have interpreted the EU's role in Africa as either a self-interested hegemonic actor or as a value oriented normative power. In this volume, Daniela Sicurelli

challenges these views by taking a closer look at Europe's policies towards Sub-Saharan Africa in the area of peacekeeping, trade and development, and environmental protection. Using fresh empirical evidence, including interviews with both European and African officials, she argues that the EU is far from becoming a unitary player in Africa. Lacking a clear strategy and coherent normative framework, the EU should be considered a multi-level actor, where national and supranational institutions have different interests and push forward contrasting views of what role Europe should play in Africa. The ability of single institutions to frame an issue as requiring either intergovernmental or supranational procedures appears crucial for shaping the content of European Africa policies. An original contribution to the growing literature on the EU as an international actor, this book is extremely useful to scholars, researchers and policy-makers demanding critical work in the field of EU-Africa policy.

In The Days of These Kings: The Book of Daniel in Preterist Perspective Jay Rogers, 2019-01-17
And in the days of these kings shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand for ever (Daniel 2:44). The message of Daniel is that Jesus the Messiah is now ruling over the nations. Daniel tells us that Messiah's kingdom will advance in the whole world from generation to generation (Daniel 4:4,34). Christ's dominion is given to the people of the saints of the most High (Daniel 7:22). Our purpose then is to see all people, nations, and languages serve and obey him (Daniel 7:14,27). This meticulously researched and thorough treatment of Daniel from a preterist perspective includes over 700 pages of commentary, historical background and setting, New Testament allusions, and much more. It is enhanced with charts, tables, maps, illustrations, and topped off with helpful, thorough indexes. - Kenneth L. Gentry, Jr.,

Security by Other Means Lael Brainard,2007-08-29 In a world transformed by globalization and challenged by terrorism, foreign aid has assumed renewed importance as a foreign policy tool. While the results of more than forty years of development assistance show some successes, foreign aid is currently dispersed between many agencies and branches of government in a manner that formulation and implementation of a coherent, effective strategy. The current political climate is receptive to a transition toward greater accountability and effectiveness in development aid. Because this transition is clearly an imperative but has not yet been comprehensively addressed, the Brookings Institution and the Center for Strategic and International Studies have conducted a joint study that both assesses the current structures of foreign assistance and makes recommendations for efficient coordination. Drawing on expertise from the full range of agencies whose policies affect foreign aid, *Security by Other Means* examines foreign assistance across four categories reflecting the interests that aid furthers: security, economic, humanitarian, and political. As disparities in the world become more untenable, foreign aid plays a key role in not only the national interests of the U.S. but also the interconnected interests of the international community. This important new volume takes aim at critical questions in a concerted manner by assigning coherence and effectiveness to U.S. foreign aid. Contributors include Owen Barder (Center for Global Development, formerly UK Department for International Development), Charlie Flickner (former Staff Director of

the House Appropriations Subcommittee on Foreign Operations), Steve Hensch (George Washington University), Steve Morrison (Center for Strategic and International Studies), Steve Radelet (Center for Global Development)

Apocalypse, Revolution and Terrorism Jeffrey Kaplan, 2018-10-02 This book focuses on religiously driven oppositional violence through the ages. Beginning with the 1st-century Sicari, it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam past and present. It is divided into two sections, 'This was Then' and 'This is Now', which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements, leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal, in that it incorporates the author's experiences in the worlds of communist Eastern Europe, in the Iranian Revolution, and in the uprisings and wars in the Middle East and East Africa. This book will be of much interest to students of religious and political violence, religious studies, history, and security studies.

A History of Judaism and Christianity Donald Swenson, 2021-07-15 This book, pastoral in nature, is to provide the reader with an in-depth analysis of the challenging history of Judaism, Israel, and the Christian church. After offering an introduction to the First Testament (in Hebrew, Tanakh), the author proceeds to portray an image of Early Christianity or the Jesus Movement during the Apostolic Era to the beginning of the fourth century. During the early part of this era, there was a vibrant union between Jewish believers in Jesus (in Hebrew, Yeshua) and Gentile believers in Jesus. However, over these years, anti-Semitism grew within the Christian Church that resulted in a wound of division between the two segments of the Christian faith. This division resulted in anti-Semitic attitudes, discrimination, exiles and pogroms against the Jewish people, the nation of Israel. This led, in part to one of the most tragic events in human history, the Holocaust or the Shoah. The author documents factors, both distal and proximate, of the tragedy. Beginning in the decade after WWII, the creation of the State of Israel in 1948 and, the Catholic Council called Vatican Council II,

new hopes for repentance, reconciliation, and healing have begun between the Christian Church, Israel and Messianic Judaism. Sources to the work emerge from the theologies of Judaism, Christianity, and Messianic Judaism. The document is framed sociologically by using ideal types and historical sociological materials. The goal is for the Christian Church to remember, repent of her collective sins against the Jewish people and to journey towards reconciliation among Jews, Messianic Jews, and Christians.
