‘*Ridding the World of Landmines* Kjell Björk, 2012 This book looks at how international treaties can be used to establish successful national programmes. It is concerned specifically with national mine action programmes, focusing on the capacity of the national governments (also referred to as the state) to implement the Convention on the prohibition of the use, stockpiling, production and transfer of anti-personnel mines and on their destruction. The Convention, which is also referred to as the Mine Ban Treaty (MBT) or Treaty, was finalised on September 18, 1997 in Oslo. Ten years after its creation, the Treaty has proven a successful tool to address the humanitarian disaster caused by landmines, yet most of the mine affected country signatories to the MBT have not been able to meet their clearance deadline. This book examines the underlying reasons for the discrepancy between the terms of the Treaty and the reality of its implementation, exploring its successes and shortcomings. In doing so, the book sets out to answer the research question: considering the disparate levels of success among countries committed to implementing the Mine Ban Treaty, what are the key functions of governments and governance structures in ensuring the successful implementation of the Treaty?

Caring for Orphaned Children in China Shang Xiaoyuan, Karen R. Fisher, 2013-12-24 This is the first book to apply rights-based alternative-care theory and practice for orphans to China’s child-welfare system, including its history and development in urban and rural areas. It analyses empirical research starting 2001 about the profile of orphans; state child-welfare institutions; de-institutionalization; kinship care in rural China; foster-mother villages; non-government children’s welfare; and

current policy changes toward a mixed welfare approach.

Crossroads Anna K. Boucher, Justin Gest, 2018-05-03 In this ambitious study, Anna K. Boucher and Justin Gest present a unique analysis of immigration governance across thirty countries. Relying on a database of immigration demographics in the world's most important destinations, they present a novel taxonomy and an analysis of what drives different approaches to immigration policy over space and time. In an era defined by inequality, populism, and fears of international terrorism, they find that governments are converging toward a 'Market Model' that seeks immigrants for short-term labor with fewer outlets to citizenship - an approach that resembles the increasingly contingent nature of labor markets worldwide.

Performing History Nancy November, 2020-08-25 The fifteen essays of *Performing History* glimpse the diverse ways music historians “do” history, and the diverse ways in which music histories matter. This book’s chapters are structured into six key areas: historically informed performance; ethnomusicological perspectives; particular musical works that “tell,” “enact,” or “perform” war histories; operatic works that works that “tell,” “enact,” or “perform” power or enlightenment; musical works that deploy the body and a broad range of senses to convey histories; and histories involving popular music and performance. Diverse lines of evidence and manifold methodologies are represented here, ranging from traditional historical archival research to interviewing, performing, and composing. The modes of analyzing music and its associated texts represented here are as various as the kinds of evidence explored, including, for example, reading historical accounts against other contextual backdrops, and reading “between the lines” to access other voices than those provided by mainstream interpretation or

traditional musicology.

Cities of Dragons and Elephants Guanghua

Wan,Ming Lu,2019-10-24 Urbanization is one of the most important phenomena in economic development. In the past three decades, Asian urban populations expanded by almost one billion, a figure expected to double in the next three decades. Clearly, both the scale and pace of urbanization in Asia is unprecedented in human history and will dominate the global urbanization landscape. Asia's urbanization, in turn, is dominated by what is happening in China and India, the two most populous, fastest growing economies in the world. Cities of Dragons and Elephants: Urbanization and Urban Development in China and India aims at addressing the two most fundamental issues of urbanization: why and where to urbanize. Contributed by a team of top experts from both countries, it uses original research to explore both the speed and scale of urbanization and urban systems or spatial distribution of urbanities in different-sized cities. It examines various drivers of urbanization alongside the benefits and costs and the role of markets, governments, and NGOs. Cities of Dragons and Elephants presents evidence-based policy suggestions regarding the labor market, the land and housing market, FDI and the capital market, education, environment, poverty, and inequality. It uses the similarities between India and China to draw conclusions and implications of enormous relevance to many governments and institutions in Asia and beyond.

The Colonial Legacy in France Nicolas Bancel,Pascal Blanchard,Dominic Thomas,2017-05-01 Debates about the legacy of colonialism in France are not new, but they have taken on new urgency in the wake of recent terrorist attacks. Responding to acts of religious and racial violence in 2005, 2010, and 2015 and beyond, the essays in this

volume pit French ideals against government-sponsored revisionist decrees that have exacerbated tensions, complicated the process of establishing and recording national memory, and triggered divisive debates on what it means to identify as French. As they document the checkered legacy of French colonialism, the contributors raise questions about France and the contemporary role of Islam, the banlieues, immigration, race, history, pedagogy, and the future of the Republic. This innovative volume reconsiders the cultural, economic, political, and social realities facing global French citizens today and includes contributions by Achille Mbembe, Benjamin Stora, Françoise Vergès, Alec Hargreaves, Elsa Dorlin, and Alain Mabanckou, among others.

Rural Urban Framework Joshua Bolchover, John Lin, 2013-10-24 While most attention is given to the booming mega-cities in China and the associated problems of over-population, the rural areas in China are being largely ignored. Yet, a sustainable development of the rural areas is precisely that, which will be decisive for China's future. Through its rapid development into an industrial country, China now needs to tackle far-reaching problems such as increasing population, growing income gap between the poor and the rich, rural exodus, decreased agricultural production, and environmental pollution. Rural Urban Framework is a work group at the University of Hong Kong that not only researches the far-reaching changes of the last thirty years in China's rural areas, but has also realized concrete projects aimed at improving supply and infrastructure on site. In this publication, the authors present for the first time the results of their research as well as their built projects in the Chinese backlands, and question whether China's only future model lies in cities.

Lizzy Albright and the Attic Window Ricky Tims,Kat Bowser,2020-07-15 Lizzy Albright and the Attic WindowSummaryThe mage council in the Kingdom of Ailear is up in arms over a sorceress who has assembled an army of grackles. She is invincible. They decide their highest priority is to find a missing princess that was taken to another world far away.It's Christmas Eve 1964 and Lizzy Albright is celebrating her 10th birthday with her family in Overland Park, Kansas. Later that day the family make a journey to Cordelia, Kansas to spend Christmas week in the old family mansion with Lizzy's granny, Esther McHale.That night, Lizzy discovers an old quilt in a secret drawer of the cedar chest in the attic. The names of the quilt blocks spark her imagination. She is allowed to sleep

under the quilt but is awoken by a tapping noise. She discovers a goose outside the attic window as a winter storm is raging. The goose urges Lizzy to come with her because their kingdom has befallen a curse. The goose believes that Lizzy is the lost princess and is the only one who can break the curse. In the Kingdom of Ailear, we learn that Calixta, a sorceress, and Beatrice, the queen, are related. Beatrice is barren and desperately wants a child. Calixta assists by making a fertility potion, with the caveat that Queen Beatrice's first grandchild is handed over to the sorceress. Beatrice has her child and years pass. The royal grandchild is born, Beatrice has schemed to betray Calixta by sending the child with a goose through the Tunnel of Stars. The sorceress returns and puts the Groaning Stone Curse on the castle and its inhabitants and informs everyone that the only one who can reverse the curse is the royal child. For ten years the mages are doing what they must in order to find the child, but also find a way to save her from the hands of the sorceress. The plot ultimately succeeds and the kingdom is saved. There are unexpected plot twists that are revealed during the final chapters of the story. Ricky Tims - Kat Bowser 2020

Les Deux visages du Tibet Jack Lu, 2013-06-14 Où se trouve exactement le Tibet? Dans sa configuration actuelle, est-il un enfer ou un paradis? Comment résoudre le conflit? Seules sources officielles, Pékin et Dharamsala avancent quant à la problématique sino-tibétaine des informations contradictoires au goût de propagande. Selon la Chine, le développement économique – et notamment la construction du chemin de fer Qinghai-Tibet – représente la meilleure politique ethnique envers le Tibet et les Tibétains. A contrario, la communauté tibétaine perçoit le dalaï-lama comme la seule issue à la crise. Quid d'une troisième voie passant par la démocratisation de la Chine? Analysant les

différentes solutions envisagées pour tenter de désamorcer et d'enrayer la spirale des crises sino-tibétaines, Jack Lu signe une réflexion pertinente, objective et particulièrement documentée qui vient dévoiler les obstacles à toute résolution. De l'implication étrangère aux conflits internes, ces Deux visages offrent une synthèse exhaustive et éclairée de l'histoire de la question tibétaine.

Housing Estates in Europe Daniel Baldwin Hess, Tiit Tammaru, Maarten van Ham, 2018-08-14 This open access book explores the formation and socio-spatial trajectories of large housing estates in Europe. Are these estates clustered or scattered? Which social groups originally had access to residential space in housing estates? What is the

size, scale and geography of housing estates, their architectural and built environment composition, services and neighbourhood amenities, and metropolitan connectivity? How do housing estates contribute to the urban mosaic of neighborhoods by ethnic and socio-economic status? What types of policies and planning initiatives have been implemented in order to prevent the social downgrading of housing estates? The collection of chapters in this book addresses these questions from a new perspective previously unexplored in scholarly literature. The social aspects of housing estates are thoroughly investigated (including socio-demographic and economic characteristics of current and past inhabitants; ethnicity and segregation patterns; population dynamics; etc.), and the physical composition of housing estates is described in significant detail (including building materials; building form; architectural and landscape design; built environment characteristics; etc.). This book is timely because the recent global economic crisis and Europe's immigration crisis demand a thorough investigation of the role large housing estates play in poverty and ethnic concentration. Through case studies of housing estates in 14 European centers, the book also identifies policy measures that have been used to address challenges in housing estates throughout Europe.
