Library Lion Michelle Knudsen,2024-03-05 A reminder that sometimes, there is a good reason to break the rules. . . .This winsome pairing of text and illustration is a natural for storytime. -- SCHOOL LIBRARY JOURNAL (starred review) (Ages 4-7) Miss Merriweather, the head librarian, is very particular about rules in the library. No running allowed. And you must be quiet. But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. And, as it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children at story hour. And he never roars in the library, at least not anymore. But when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. Michelle Knudsen's disarming story, illustrated by the matchless Kevin Hawkes in an expressive timeless style, will win over even the most ardent of rule keepers.

Veterinary Technician's Daily Reference Guide Candyce M. Jack,Patricia M. Watson,2014-05-20 Veterinary Technician's Daily Reference Guide: Canine and Feline, Third Edition provides a quick reference to all aspects of a technician's daily responsibilities in clinical practice. Retaining the tabular format for easy access, the Third Edition adds more in-depth skill descriptions, allowing the technician to reach an even higher level of care. Coverage ranges from anatomy and preventative care to diagnostic and patient care skills, pain management, anesthesia, and pharmacology. Now fully revised and updated, the book is designed to build on a veterinary technician's current knowledge, acting as a quick refresher in the daily clinic setting. A companion website offers forms and worksheets, training materials, review questions, vocabulary flashcards, links to online resources, and the figures from the book in PowerPoint. The Third Edition is an invaluable practical resource for increasing confidence and improving technical skills for veterinary technicians.

Landmark Copyright Cases in China Luo Dongchuan,2018-11-20 With China's third major amendment of its Copyright Law now well underway, the international significance of China's handling of copyright matters comes into clearer focus. This book, an English translation of Chief Judge Luo Dongchuan's recent selection and detailed analysis of twenty-five landmark copyright cases decided by the Chinese courts in the past few years, provides an in-depth understanding of the fundamental theories of copyright as interpreted in current Chinese jurisprudence and of the sophisticated balance of interests among copyright owners, communicators of works and the public domain in China. Following a comprehensive introductory chapter on the Chinese copyright system, both administrative and judicial, the presentation proceeds with annotated English texts of cases that determine the nature of a copyrightable work and elaborate on how copyright may be infringed under Chinese law. The subject matter of the cases includes such typical internationally important elements as the following: • architectural works; • sport; • music videos; • typeface libraries; • technical standards; • expressions of folklore; • Internet TV; • liability of service providers; • online rebroadcast; • revision of computer software; and • layout designs of integrated circuits. In addition to the texts and Dr. Luo's analyses, each case study includes comments from the exact judge of the particular case offering the reasoning for the decision. The value of this book to non-Chinese enterprises and individuals with Chinese connections or prospects is immeasurable. There are no peers for this book. Every professional, official, policymaker or academic interested in international copyright will welcome its prodigious first-hand communication about one of the most crucial aspects of global trade relations.

Natural Language Processing with Python Steven Bird,Ewan Klein,Edward Loper,2009-06-12 This book offers a highly accessible introduction to natural language processing, the field that supports a variety of language technologies, from predictive text and email filtering to automatic summarization and translation. With it, you'll learn how to write Python programs that work with large collections of unstructured text. You'll access richly annotated datasets using a comprehensive range of linguistic data structures, and you'll understand the main algorithms for analyzing the content and structure of written communication. Packed with examples and exercises, Natural Language Processing with Python will help you: Extract information from unstructured text, either to guess the topic or identify named entities Analyze linguistic structure in text,

including parsing and semantic analysis Access popular linguistic databases, including WordNet and treebanks Integrate techniques drawn from fields as diverse as linguistics and artificial intelligence This book will help you gain practical skills in natural language processing using the Python programming language and the Natural Language Toolkit (NLTK) open source library. If you're interested in developing web applications, analyzing multilingual news sources, or documenting endangered languages -- or if you're simply curious to have a programmer's perspective on how human language works -- you'll find Natural Language Processing with Python both fascinating and immensely useful.
