Unlearning Eugenics Dagmar Herzog, 2018-11-20 Since the defeat of the Nazi Third Reich and the end of its horrific eugenics policies, battles over the politics of life, sex, and death have continued and evolved. Dagmar Herzog documents how reproductive rights and disability rights, both latecomers to the postwar human rights canon, came to be seen as competing--with unexpected consequences. Bringing together the latest findings in Holocaust studies, the history of religion, and the history of sexuality in postwar--and now also postcommunist--Europe, *Unlearning Eugenics* shows how central the controversies over sexuality, reproduction, and disability have been to broader processes of secularization and religious renewal. Herzog also restores to the historical record a revelatory array of activists: from Catholic and Protestant theologians who defended abortion rights in the 1960s-70s to historians in the 1980s-90s who uncovered the long-suppressed connections between the mass murder of the disabled and the Holocaust of European Jewry; from feminists involved in the militant cripple movement of the 1980s to lawyers working for right-wing NGOs in the 2000s; and from a handful of pioneers in the 1940s-60s committed to living in intentional community with individuals with cognitive disability to present-day disability self-advocates.

"Not an Idea We Have to Shun" Christopher D. Yung, Ross Rustici, Scott Devary, Jenny Lin, 2014 This study considers six logistics models that might support expanded PLAN overseas operations: the Pit Stop Model, Lean Colonial Model, Dual Use Logistics Facility, String of Pearls Model, Warehouse Model, and Model USA. Each model is analyzed in terms of its ability to support likely future naval missions to advance China's expanding overseas economic, political,

and security interests and in light of longstanding Chinese foreign policy principles. This analysis concludes that the Dual Use Logistics Facility and String of Pearls models most closely align with China's foreign policy principles and expanding global interests.

Messengers of Disaster Annette Becker, 2022-01-11

Leading up to World War II, two Polish men witnessed the

targeted extermination of Jews under Adolf Hitler and the German Reich before the reality of the Holocaust was widely known. Raphael Lemkin, a Jewish lawyer who coined the term genocide, and Jan Karski, a Catholic member of the Polish resistance, independently shared this knowledge with Winston Churchill and Franklin D. Roosevelt. Having heard false rumors of wartime atrocities before, the leaders met the messengers with disbelief and inaction, leading to the eventual murder of more than six million people.

Messengers of Disaster draws upon little-known texts from an array of archives, including the International Committee of the Red Cross in Geneva and the International Tracing Service in Bad Arolsen. Carrying the knowledge of disaster took a toll on Lemkin and Karski, but their work prepared the way for the United Nations to unanimously adopt the first human rights convention in 1948 and influenced the language we use to talk about genocide today. Annette Becker's detailed study of these two important figures illuminates how distortions of fact can lead people to deny knowledge of what is happening in front of their own eyes.

Unforgettable Alice Flynn,2011-09-10 Born and raised on East End Avenue in Manhattan during the Great Depression, Tom lied about his age to join the New York National Guard. His unit, The Fighting Irish, would be the first to be activated to duty in October 1940 for the U.S. Army prior to the attack on Pearl Harbor. After becoming an officer, Tom met Anna, a beautiful young Army nurse, in the summer of 1942. The two fell in love and were married just one month later. In September 1944, Tom was shipped to Europe for combat duty and found himself promoted to

commanding officer of the 110th's K Company during the Battle of Hurtgen Forest in November - a replacement officer with the 28th Infantry Division. Lucky to survive, the remnants of his unit are moved to a front line position in the quiet sector of the Ardennes Forest to rest and recuperate only to face the brunt of Hitler's last offensive to retake Europe just four weeks later. During the ensuing battle, Tom's K Company and Company B's 103rd Engineers faced insurmountable odds, yet held the town of Hosingen for two and half days, helping to buy precious time for the American defense of Bastogne. Being the last company of the 110th to hold their town, they were in essence what were left of the Bulge. Tom and the men of Hosingen would then be tested to their physical and emotional limits as POWs in Nazi Germany until the end of the war four and a half months later. Returning to civilian life with his young wife, Anna, Tom finishes college at Iowa State College on the GI Bill and becomes a veterinarian in Anna's hometown, Kimballton, Iowa, where they raised a large family. The next forty years are packed with humorous, entertaining and touching stories of a humble man who touched the hearts of everyone he knew. Like many of our WWII heroes, Tom was a humble man who rarely spoke of his time in combat or as a Nazi POW so when Tom was laid to rest in November 1993, his family was sure all the stories that he could have shared with them would never be known. Fortunately that turned out not to be the case as author, Alice Flynn, uncovered books, National Archives records, consulted Battle of the Bulge experts, and combined with the few stories he did share with his wife and children, has put together the most comprehensive analysis of what happened in Hosingen during the Battle of the Bulge that is available to date.

Description

Exodus and Its Aftermath Albert

Kaganovich, 2022-02-22 During World War II, some two million Jewish refugees relocated from the western regions of the USSR to the Soviet interior. Citizens in the Central Asian territories were at best indifferent—and at worst openly hostile—toward these migrants. Unpopular policies dictated that residents house refugees and share their limited food and essentials with these unwelcome strangers. When the local population began targeting the newcomers, Soviet authorities saw the antisemitic violence as discontentment with the political system itself and came down hard against it. Local authorities, however, were less concerned with the discrimination, focusing instead on absorbing large numbers of displaced people while also managing regional resentment during the most difficult years of the war. Despite the lack of harmonious integration, party officials spread the myth that they had successfully assimilated over ten million evacuees. Albert Kaganovich reconstructs the conditions that gave rise to this upsurge in antisemitic sentiment and provides new statistical data on the number of Jewish refugees who lived in the Urals, Siberia, and Middle Volga areas. The book's insights into the regional distribution and concentration of these émigrés offer a behind-the-scenes look at the largest and most intensive Jewish migration in history.
