### European Data Collection on Sexual Offences Against Minors Gert

Vermeulen, Fleur Dhont, Arne Dormaels, 2001 The fight against the sexual exploitation of and trade in children has gained particular and renewed international attention in the last few years and has become one of the most important concerns in the context of international law enforcement policy and cooperation. Since 1998, policy makers have come up with new legal initiatives at global as well as regional levels in order to tackle this problem in a more effective and coordinated way. This proves that the time has come to match words and actions, and to come up with concrete and useful tools for law enforcement services and NGO's active in the areas concerned. The current study therefore examines the feasibility of the further elaboration and implementation of recommendations from a previous project (96/STOP/003) regarding the systematic gathering and administration of data concerning missing minors, minor victims of trafficking in or sexual exploitation of children and perpetrators of sexual offences against minors, with the goal to further prepare the practical setting up of several international databases with immediate relevance to the police and the prosecuting or investigating magistrates or officials, both in the EU Member States and the candidate countries. It is recommended to give Interpol a mandate to host an international database on missing persons and to create an EU monitoring centre responsible for the gathering and administration of

reliable statistics and legal information on sexual exploitation of children and trafficking in human beings. It is also recommended for Interpol to host an international reference database on child pornography and to set up an analysis/intelligence child porn database at Europol. Regarding suspected and convicted sex offenders, it is proposed to create a database on pending investigations, an EU criminal records database and a database at Europol containing encoded information on both suspected and convicted offenders of sexual offences against children. Finally, it is suggested to create a European network of national DNA databases. The book also contains a summary of the conclusions in French.

*Children and International Human Rights Law* Aisling Parkes, 2013-08-15 The United Nations Convention on the Rights of the Child 1989 is one of the most highly ratified human rights treaties in the world, with 192 states currently signed up to it. Article Twelve is fundamental to the Convention and states that all children capable of forming views have the right to express those views, and recognises that all children have the right to be heard in any judicial and administrative proceedings affecting them. This book explores the historical and theoretical background to Article Twelve, and examines the various models of participation which have been created to facilitate a better understanding of this provision. Aisling Parkes analyzes the extent to which Article Twelve has been implemented under international law, and in domestic law, as well as setting-out recommendations for the most effective

ways of implementing Article Twelve in all areas of children's lives.

Oneness vs. the 1% Vandana Shiva with Kartikey Shiva, 2020 Widespread poverty and malnutrition, an alarming refugee crisis, social unrest, and economic polarization have become our lived reality as the top 1% of the world's seven-billion-plus population pushes the planet—and all its people—to the social and ecological brink. In Oneness vs. the 1%, Vandana Shiva takes on the Billionaires Club of Gates, Buffet, and Zuckerberg, as well as other modern empires whose blindness to the rights of people, and to the destructive impact of their construct of linear progress, have wrought havoc across the world. Their single-minded pursuit of profit has undemocratically enforced uniformity and monocultures, division and separation, monopolies and external control—over finance, food, energy, information, healthcare, and even relationships. Basing her analysis on explosive, little-known facts, Shiva exposes the 1%'s model of philanthrocapitalism, which is about deploying unaccountable money to bypass democratic structures, derail diversity, and impose totalitarian ideas based on One Science, One Agriculture, and One History. She calls for the “resurgence of real knowledge, real intelligence, real wealth, real work, real well-being,” so that people can reclaim their right to: Live Free. Think Free. Breathe Free. Eat Free.

The Electronics Revolution J.B. Williams, 2017-05-25 This book is about how electronics, computing, and telecommunications have profoundly changed our

lives – the way we work, live, and play. It covers a myriad of topics from the invention of the fundamental devices, and integrated circuits, through radio and television, to computers, mobile telephones and GPS. Today our lives are ruled by electronics as they control the home and computers dominate the workspace. We walk around with mobile phones and communicate by email. Electronics didn't exist until into the twentieth century. The industrial revolution is the term usually applied to the coming of steam, railways and the factory system. In the twentieth century, it is electronics that has changed the way we gather our information, entertain ourselves, communicate and work. This book demonstrates that this is, in fact, another revolution.

**A New Architecture for the U.S. National Accounts** Dale W. Jorgenson, J. Steven Landefeld, William D. Nordhaus, 2007-11-01 A New Architecture for the U.S. National Accounts brings together a distinguished group of contributors to initiate the development of a comprehensive and fully integrated set of United States national accounts. The purpose of the new architecture is not only to integrate the existing systems of accounts, but also to identify gaps and inconsistencies and expand and incorporate systems of nonmarket accounts with the core system. Since the United States economy accounts for almost thirty percent of the world economy, it is not surprising that accounting for this huge and diverse set of economic activities requires a decentralized statistical system. This volume outlines the major assignments among

institutions that include the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Department of Labor, the Census Bureau, and the Governors of the Federal Reserve System. An important part of the motivation for the new architecture is to integrate the different components and make them consistent. This volume is the first step toward achieving that goal.

**The security dimensions of EU enlargement** David Brown, Alistair Shepherd, 2018-07-30 The changing nature of security, the enlargement of European institutions and the evolving functions of the EU have been key developments in post-Cold War Europe. This book blends these three crucial developments in a sophisticated and illuminating manner. It assesses the impact of EU enlargement on both pre-existing security arrangements and key relationships with the EU's new partners and 'neighbours'. It also investigates both hard and soft, and internal and external security issues, ranging from military intervention to terrorism and from organised crime to human rights. From this it concludes that enlargement has both positive and negative implications for European security. Completing the analysis, this study examines the evolving security relationships with key states, regions

and international organisations in the EU's 'neighbourhood'. The examination of relations with Turkey, Russia, Ukraine, the Greater Middle East and the Balkans provides a sense of the direction in which European security politics is moving.

**Cities around the World [2 volumes]** Jing Luo, 2019-07-10 This two-volume set offers a comprehensive overview of major challenges faced by cities worldwide in the 21st century, and how cities in different geographic, economic, and political conditions are finding solutions to them. This two-volume encyclopedia examines ten critical issues that face cities across the globe today—environmental and societal struggles that affect the daily lives of city dwellers. Readers will gain a better understanding of our global neighbors and will be able to use this book in order to compare and contrast different approaches to critical issues in our world. Volume One examines employment and jobs; energy and sustainability; green spaces; housing and infrastructure; and migration and demographic changes. Volume Two discusses pollution; schools; traffic and transportation; violence, corruption, and organized crime; and waste management. Each issue begins with an introduction providing an overview of the issue from a global perspective. Following the introduction are ten alphabetically arranged world city profiles of cities that are struggling with the issue and cities that have found innovative solutions to deal with the crisis. The profiles explain how the problem came to be; consequences inhabitants face, such as compromised health, limited

access to education, and high taxes with low wages; and failed and successful initiatives taken by city management.

Black Wind, White Snow Charles Clover, 2022-07-26 A fascinating study of the root motivations behind the political activities and philosophies of Putin's government in Russia "Part intellectual history, part portrait gallery . . . Black Wind, White Snow traces the background to Putin's ideas with verve and clarity."—Geoffrey Hosking, Financial Times "Required reading. This is a vivid, panoramic history of bad ideas, chasing the metastasis of the doctrine known as Eurasianism. . . . Reading Charles Clover will help you understand the world of lies and delusions that is Eurasia."—Ben Judah, Standpoint Charles Clover, award-winning journalist and former Moscow bureau chief for the Financial Times, here analyzes the idea of Eurasianism, a theory of Russian national identity based on ethnicity and geography. Clover traces Eurasianism's origins in the writings of white Russian exiles in 1920s Europe, through Siberia's Gulag archipelago in the 1950s, the dissolution of the Soviet Union in the early 1990s, and up to its steady infiltration of the governing elite around Vladimir Putin. This eye-opening analysis pieces together the evidence for Eurasianism's place at the heart of Kremlin thinking today and explores its impact on recent events, the annexation of Crimea, and the rise in Russia of anti-Western paranoia and imperialist rhetoric, as well as Putin's sometimes perplexing political actions and ambitions. Based on extensive research and dozens of interviews with Putin's

close advisers, this quietly explosive story will be essential reading for anyone concerned with Russia's past century, and its future.

By Man Shall His Blood Be Shed Edward Feser, Joseph Bessette, 2017-03-15 The Catholic Church has in recent decades been associated with opposition to the death penalty. It was not always so. This timely work recovers, and calls for a revival of, the Catholic tradition of support for capital punishment. Drawing upon a wealth of philosophical, scriptural, theological, and social scientific arguments, the authors show that it is the perennial and irreformable teaching of the Church that capital punishment can in principle be legitimate -not only to protect society from immediate physical danger, but also for purposes such as retributive justice and deterrence. They show that the recent statements of churchmen in opposition to the death penalty are merely prudential judgments with which faithful Catholics are not obliged to agree. They also show that the prudential grounds for opposition to

capital punishment offered by Catholics and others in recent years are without force. The extreme statements made by some Catholics in opposition to the death penalty do grave harm to the Church by falsely suggesting a rupture in her traditional teaching, thereby inadvertently casting doubt on the reliability of the Magisterium. And they do grave harm to society by removing a key component of any system of criminal justice which can protect the lives of the innocent, inculcate a horror of murder, and affirm the dignity of human beings as free and rational creatures who must be held responsible for their actions. By Man Shall His Blood Be Shed is a challenge to contemporary Catholics to move beyond simple-minded sloganeering to a serious engagement with scripture, tradition, natural law, and the actual social scientific evidence, and a faithful exercise of the hermeneutic of continuity called for by Pope Benedict XVI.

**Medienpolitik für Europa II** Christina Holtz-Bacha, 2010-12-28 Die medienpolitischen Aktivitäten des Europarates orientieren sich an den Rechten

und Freiheiten der Europäischen Menschenrechtskonvention. Sie weisen daher ein breiteres Spektrum wie auch eine andere Perspektive auf als die Medienpolitik der Europäischen Union, die aus einer Wirtschaftsgemeinschaft entstanden ist und Medien daher primär als Wirtschaftsunternehmen behandelt. Wegen der unterschiedlichen Verbindlichkeit ihrer Aktivitäten hat es der Europarat jedoch schwerer, Aufmerksamkeit für seine Entscheidungen und Empfehlungen zu erlangen und steht eher im Schatten der EU. Dieses Buch verfolgt die Medienpolitik des Europarates, diskutiert ihre Wirksamkeit und die Chancen, damit neben der EU zu bestehen.

*Eine Erde für alle! – Einssein versus das 1 %* Vandana Shiva, 2021-08-30 In diesem klug auf Fakten aufgebauten Buch zeigt Vandana Shiva, wie eine kleine Gruppe superreicher Einzelpersonen, Stiftungen und Investmentfirmen die Kontrolle über unsere Lebensmittelversorgung, unser Informationssystem, unser Gesundheitswesen und unsere Demokratien immer weiter ausbaut. Die Autorin macht sehr deutlich, dass unser Überleben von der Vielfalt unseres Saatgutes und dass unsere Demokratien von einer aufgeklärten Öffentlichkeit abhängen. Es ist ein sehr leidenschaftlicher, weiblicher wissenschaftlicher Diskurs, der eine globale Leserschaft verdient. Die Warnungen in diesem Buch zeigen

die Roten Linien auf, die nicht überschritten werden dürfen, wenn wir nicht riskieren wollen, dass das globale Agri-Business-Modell und das von Bill Gates und seiner Stiftung vorangetriebene Eine-Wissenschaft-Modell die Möglichkeit für eine gesunde globale Gemeinschaft zunichtemachen. Unabhängig davon, ob Sie mit all ihren Schlussfolgerungen übereinstimmen oder nicht, ist dies ein sehr durchdachtes und gut dokumentiertes Buch, das im Mittelpunkt vieler Überlegungen und Diskussionen stehen sollte. Interessanterweise schreibt sie als Wissenschaftlerin, aber ihre Sichtweise und ihre Warnungen sind stark von ihrem Wissen als Frau geprägt, dass wir unsere Nahrungsquellen nicht gefährden dürfen. Ihre These ist, dass die Verflechtung unserer Gesundheit, unserer Ernährung und unserer sozialen Strukturen viel komplexer ist, als wir es bisher angenommen haben. Dr. Shiva erklärt, warum Bill Gates' Philanthropie-Kapitalismus eigentlich Philanthropie-Imperialismus ist. Er benutzt sein Geld, um die demokratischen Strukturen der Gesellschaft zu umgehen. Seine Stiftung ist daran beteiligt, Alternativen zu seiner Vision zu unterdrücken oder zu verhindern. Er fördert eine totalitäre Weltsicht, die viele Bereiche prägt: Gesundheit, Bildung, Landwirtschaft, Wirtschaft und Finanzen. Gates ignoriert die Beiträge von Frauen, Indigenen und Kleinbauern, die das Wissen vom Land haben. Doch nur dieses Wissen, das uns wieder in eine echte Verbindung mit unseren Lebensgrundlagen bringt, wird uns eine Zukunft geben können. Vielfach aus schwammigen Gründen geschmäht, wird Bill Gates hier tatsächlich mal konkret unter die Lupe genommen.
