*Democracy: A Very Short Introduction* Naomi Zack,2023-08-29 Very Short Introductions: Brilliant, Sharp, Inspiring Democracy refers to both ideal and real forms of government. The concept of democracy means that those governed — the demos — have a say in government. But different conceptions of democracy have left many out. Naomi Zack provides here a fresh treatment of the history of this idea and its key conceptions. In the ancient world, direct and representative democracy in Athens and Rome privileged elites, as did democratic deliberative bodies in Africa, India, the Middle East, and China. Plato, Aristotle, and Cicero were sceptical of mob-rule dangers of democracy. The medieval and renaissance periods saw legislative checks on monarchy, notably the Magna Carta. The social contract theories of Thomas Hobbes, John Locke, and Jean-Jacques Rousseau matched political expectations that national government be based on consent, for the benefit of those governed. The American Revolution established a new sovereignty, based on British government tradition. By contrast, the French Revolution heralded universal humanitarian ideals. In the nineteenth century, Jeremy Bentham, John Stuart Mill, Immanuel Kant, and Karl Marx focused on the democratization of society. Mary Wollstonecraft had championed women's education and rights and Mill advocated further for that cause. Movements for the abolition of slavery, women's suffrage, and labour unionization were organized. World War II brought a reset in the twentieth century, with new democratic governments for many countries, including India and South Africa, and new ideals. Karl Popper, Hannah Arendt, and John Rawls emphasized orderly government transition, inclusion, and fairness. Equalitarian goals have concerned racial and ethnic minorities, as well as women. The twenty-first century has brought fresh challenges, including disasters and uninformed electorates. Democracy among nations is a future goal. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Beyond the Screenplay** Zachariah Rush,2014-01-10 This work analyzes dramatic structures, from Sophocles to Orson Welles and the 21st century cinema, all from the viewpoint of Hegelian dialectic. Utilizing this dialectical process the author demonstrates its particular application to the writing of a screenplay, which should not be considered a simple schematic or formulaic blueprint but legitimate dramatic literature.

That's It, I Quit Dean Giannone,2003-09 About two-thirds of smokers want to quit smoking. So, why don't they? Because it's hard to quit, that's why. There are so many forces opposing smokers, it's a wonder that anyone is able to quit smoking. Those that are successful at quitting recognize the forces against them, and develop strategies to beat them. *That's It, I Quit: A Guide to Quitting Smoking Forever* outlines why people fail at their attempts to quit, and includes techniques to avoid failure. Author and physician Dean F. Giannone reveals the obstacles smokers face and offers individualized strategies to quit smoking forever. As a physician, I have seen the entire spectrum of the nicotine addiction and the smoking habit, from the young recreational smoker to the older medically-compromised hospital patient. I recognize the importance of stopping this progression to illness as soon as possible. Read this book, and stop smoking now. -Dean F. Giannone, M.D.

**Oscar Pistorius Reeva Steenkamp A Double Tragedy** Pamela Lillian Valemont, 2013-06-21 What really transpired on the upper storey of Number 286 in the Silver Woods Estate of Pretoria on the night of St. Valentine's Day 2013? What did happen in the luxury ensuite bathroom of Oscar Pistorius' master bedroom? She died in my arms, a distraught Oscar heartbrokenly and tearfully told police. They returned to arrest him later for pre-meditated murder, though he claimed he had mistaken his beautiful model lover Reeva Steenkamp for a burglar. Violent crime and home invasion is a real problem in South Africa; but Oscar's home was in a secure, guarded and gated estate. He had two large dogs on his property as well, who would have barked and alerted him to the presence of intruders. Still, a man with prostheses such as the legendary Blade Runner had, would feel vulnerable to attack..... Pamela Valemont, crime research numerologist of more than 35 years, goes on the search for clues at the scene of the alleged crime using her uniquely different set of detective tools. What she finds will astound you.

**The Emotionally Intelligent Manager** David R. Caruso, Peter Salovey, 2004-04-05 We have long been taught that emotions should be felt and expressed in carefully controlled ways, and then only in certain environments and at certain times. This is especially true when at work, particularly when managing others. It is considered terribly unprofessional to express emotion while on the job, and many of us believe that our biggest mistakes and regrets are due to our reactions at those times when our emotions get the better of us. David R. Caruso and Peter Salovey believe that this view of emotion is not correct. The emotion centers of the brain, they argue, are not relegated to a secondary place in our thinking and reasoning, but instead are an integral part of what it means to think, reason, and to be intelligent. In The Emotionally Intelligent Manager, they show that emotion is not just important, but absolutely necessary for us to make good decisions, take action to solve problems, cope with change, and succeed. The authors detail a practical four-part hierarchy of emotional skills: identifying emotions, using emotions to facilitate thinking, understanding emotions, and managing emotions—and show how we can measure, learn, and develop each skill and employ them in an integrated way to solve our most difficult work-related problems.

**The Development of Disability Rights Under International Law** Arlene S. Kanter, 2014-11-27 The adoption of the Convention on the Rights of People with Disabilities (CPRD) by the United Nations in 2006 is the first comprehensive and binding treaty on the rights of people with disabilities. It establishes the right of people with disabilities to equality, dignity, autonomy, full participation, as well as the right to live in the community, and the right to supported decision-making and inclusive education. Prior to the CPRD, international law had provided only limited protections to people with disabilities. This book analyses the development of disability rights as an international human rights movement. Focusing on the United States and countries in Asia, Africa, the Middle East the book examines the status of people with disabilities under international law prior to the adoption of the CPRD, and follows the development of human rights protections through the convention's drafting process. Arlene Kanter argues that by including both new applications and entirely new approaches to human rights treaty enforcement, the CPRD is significant not only to people with disabilities but also to the general development of international human rights, by offering new human rights protections for all people. Taking a comparative perspective, the book explores how the success of the CPRD in achieving protections depends on the extent to which individual countries enforce domestic laws and policies, and the changing public attitudes towards people with disabilities. This book will be of excellent use and interest to researchers and students of human rights law, discrimination, and disability studies.

**Environmental Law in Developing Countries** Nazrul Islam, 2002 This publication contains four papers on different legal issues of interest to developing countries. The papers were researched and written by four Carl Duisberg Gesellschaft (CDG) Fellows who came to Germany from Bangladesh, Venezuela, Nigeria and China to study under the host leadership of the IUCN Environmental Law Centre. Subjects chosen by these Fellows vary widely, and cover ISO 14001, access to environmental justice in Latin America, patents and plant resources-related knowledge, and law and policy of the European Union on the reduction of greenhouse gas emissions and their significance to China.

**Charlotte de La Trémoille, the Notorious Countess of Derby** Sandy Riley, 2018-01-23 A Parliamentarian described his feelings towards Charlotte de La Trémoille when he wrote in the journal the Parliamentary Scout "three women ruined the Kingdom Eve, The Queen and the Countess of Derby". This historical biography uses the letters found in the Chateau at Thouars and preserved in the French National Archive in Paris to piece together an account of her ideas and actions. Eyewitness writings are used to describe her activities during the siege by Parliamentary forces of the Royalist Lathom House. Following the end of the siege, she was exiled to the Isle of Man. A Huguenot, Charlotte lived at a time of religious and political upheaval in both France and England. She was related by birth and marriage to European royalty and aristocracy. She was the only woman sequestered by the Parliament of Oliver Cromwell and King Charles II promised her the position of Governess to his children.

**Preventing Treaty Abuse** Daniel Blum, Markus Seiler, 2016-09-19 Analysis of notion, roots and measures of treaty abuse The OECD initiative on Base Erosion and Profit Shifting has put the issue of treaty abuse and the means to counter it on top of the global political agenda. Preventing treaty abuse is therefore currently one of the most debated topics in international tax law. Diverging national legal traditions in combatting abuse both under domestic and tax treaty law have led to a globally diversified legal framework in this respect and make the OECD's agenda to harmonize these attempts even more challenging. The aim of this book is to analyze the notion of treaty abuse, its historical roots and the measures to counter it. The book's topics cover a wide range of both policy

and legal issues. The contributions’ main focus lies on analyzing the proposals put forward by the OECD in BEPS action items 6 and 7. In addition, this book analyzes the lessons which can be learnt from the US tax treaty policy and elaborates on the effects the intensified fight against treaty abuse will have from a Non-OECD member state perspective. Also EU law is taken into account and the question raised which impact the fundamental freedoms might have on the development of new anti-avoidance rules. Finally the relation between domestic and treaty based anti-avoidance is analyzed in great detail, identifying the methodical problems of ensuring a sound and abuse safe legal framework. With this book, the authors and editors hope to contribute to the discussion on selected issues of preventing treaty abuse and the challenges they present to policy makers, judges, tax administrations and tax advisers.

**Nostalgia d'Oriente** Alessia Ceccarelli, 2023-02-07 T00:00:00+01:00 Il legame tra Genova e il Levante è un tema di grande fascino e di notevole complessità. Quando, nel 1475, a seguito della conquista ottomana di Caffa, i Genovesi persero l'ultima colonia sul Mar Nero, si chiuse una stagione che li aveva visti protagonisti nel Mediterraneo orientale. Da quel momento in poi, e soprattutto nel corso del Seicento, il tentativo di tornare a Oriente divenne un elemento cardine della politica e della cultura genovese. Per questo ceto di governo, il Levante non fu solo un nostalgico richiamo ai perduti possedimenti d'Oltremare – una dimensione mitica, in cui ritrovare l'essenza della propria identità e della propria grandezza – fu soprattutto sinonimo dell'agognato ritorno al mare (del rilancio della sua marineria, mercantile e militare). Questo volume – i cui protagonisti sono diplomatici e alti prelati, mercanti, uomini d'arme, corsari, rinnegati, intellettuali e missionari – esplora e racconta ciò che il Levante evocò e significò nella visione dei Genovesi d'età moderna: una somma di reliquie, memorie, immagini, valori, progetti e ambizioni di cui essi seppero in vario modo servirsi, dalla sfera pubblica a quella privata, nel tentativo di ridefinirsi e di essere riconosciuti da un Oriente che a sua volta non li aveva affatto dimenticati.
