*Parliaments and Human Rights* Murray Hunt, Hayley J Hooper, Paul Yowell, 2015-04-30 In many countries today there is a growing and genuinely-held concern that the institutional arrangements for the protection of human rights suffer from a 'democratic deficit'. Yet at the same time there appears to be a new consensus that human rights require legal protection and that all branches of the state have a shared responsibility for upholding and realising those legally protected rights. This volume of essays tries to understand this paradox by considering how parliaments have sought to discharge their responsibility to protect human rights. Contributors seek to take stock of the extent to which national and sub-national parliaments have developed legislative review for human rights compatibility, and the effect of international initiatives to increase the role of parliaments in relation to human rights. They also consider the relationship between legislative review and judicial review for human rights compatibility, and whether courts could do more to incentivise better democratic deliberation about human rights. Enhancing the role of parliaments in the protection and realisation of human rights emerges as an idea whose time has come, but the volume makes clear that there is a great deal more to do in all parliaments to develop the institutional structures, processes and mechanisms necessary to put human rights at the centre of their function of making law and holding the government to account. The sense of democratic deficit is unlikely to dissipate unless parliaments empower themselves by exercising the considerable powers and responsibilities they already have to interpret and apply human rights law, and courts in turn pay closer attention to that reasoned consideration. 'I believe that this book will be of enormous value to all of those interested in human rights, in modern legislatures, and the relationship between the two. As this is absolutely fundamental to the character and credibility of democracy, academic insight of this sort is especially welcome. This is an area where I expect there to be an ever expanding community of interest.' From the Foreword by the Rt Hon John Bercow MP, Speaker of the House of Commons

**The Energy Security Paradox** Jonna Nyman, 2018-03-23 The decisions we make about energy shape our present and our future. From geopolitical tension to environmental degradation and an increasingly unstable climate, these choices infiltrate the very air we breathe. Energy security politics has direct impact on the continued survival of human life as we know it, and the earth cannot survive if we continue consuming fossil energy at current rates. The low carbon transition is simply not happening fast enough, and change is unlikely without a radical change in how we approach energy security. But thinking on energy security has failed to keep up with these changing realities. Energy security is primarily considered to be about the availability of reliable and affordable energy supplies - having enough energy - and it remains closely linked to national security. The Energy Security Paradox looks at contemporary energy security politics in the United States and China: the top two energy consumers and producers. Based on in-depth empirical analysis, it demonstrates that current energy security practices actually lead to a security paradox: they produce insecurity. To illustrate this, it develops the 'energy security paradox' as a framework for understanding the interconnected insecurities produced by current practices. However, it also goes beyond this, examining resistance to current practices to highlight that we not only can do energy security differently: this is already happening. In the process, the volume demonstrates that the value of security depends on the context. Based on this, The Energy Security Paradox proposes a radical reconsideration of how we approach and practice energy security.

*Logic in the Talmud* Avi Sion, 2018-03-22 Logic in the Talmud is a 'thematic compilation' by Avi Sion. It collects in one volume essays that he has written on this subject in *Judaic Logic* (1995) and *A Fortiori Logic* (2013), in which traces of logic in the Talmud (the Mishna and Gemara) are identified and analyzed. While this book does not constitute an exhaustive study of logic in the Talmud, it is a ground-breaking and extensive study.

*Extraterritorial Use of Force against Non-State Actors* Dire Tladi, 2022-05-16 This study assesses the rules of international law relevant to the use

of force against non-State actors. The rules of international law on the use of force are the lynchpin of the project of international law for a more secure and peaceful world. Yet, as important as they are, the rules of international law on the use of force are also highly contentious. With the shift in the nature of conflicts from inter-State wars to conflicts involving non-State actors, and with the growth in the threat of global terrorism, the focus of the law on the use of force has shifted to the use of force against non-State actors. To assess the permissibility of the use of force against non-State actors, this study will focus on two grounds that have been advanced as bases for the extraterritorial use of force against non-State actors: the right of a State to act in self-defence and intervention by invitation. While there are other grounds that have been advanced for the extraterritorial use of force in international law, it is only in respect of these two grounds that the role of non-State actors has a significant influence on the legality or not of the use of force.

**The African Studies Companion** Hans Zell, 2021-11-15 Published in dual print and electronic formats, this is a new edition of a much acclaimed reference source that brings together a wide range of sources of information in the African studies field, covering both print and electronic sources. It evaluates the best online resources, the major general reference tools in print format, current bibliographies and indexing services, biographical, cartographic, statistical and economic resources, as well as film and video resources. Additionally, there are separate sections on African studies library collections and repositories throughout the world, a directory of over 250 African studies journals; listings of news sources, profiles of publishers active in the African studies field, dealers and distributors of African studies materials, African studies societies and associations, major African and international organizations, donor agencies and foundations, awards and prizes in African studies, electronic mailing lists and discussion forums, and more.

*The Atheist Muslim* Ali A. Rizvi, 2016-11-22 In much of the Muslim world, religion is the central foundation upon which family, community, morality, and identity are built. The inextricable embedment of religion in Muslim culture has forced a new generation of non-believing Muslims to face the heavy costs of abandoning their parents' religion: disowned by their families, marginalized from their communities, imprisoned, or even sentenced to death by their governments. Struggling to reconcile the Muslim society he was living in as a scientist and physician and the religion he was being raised in, Ali A. Rizvi eventually loses his faith. Discovering that he is not alone, he moves to North America and promises to use his new freedom of speech to represent the voices that are usually quashed before reaching the mainstream media—the Atheist Muslim. In *The Atheist Muslim*, we follow Rizvi as he finds himself caught between two narrative voices he cannot relate to: extreme Islam and anti-Muslim bigotry in a post-9/11 world. The Atheist Muslim recounts the journey that allows Rizvi to criticize Islam—as one should be able to criticize any set of ideas—without demonizing his entire people. Emotionally and intellectually compelling, his personal story outlines the challenges of modern Islam and the factors that could help lead it toward a substantive, progressive reformation.

International Groundwater Law and the US-Mexico Border Region Maria E. Milanés, 2020-07-20 In *International Groundwater Law and the US-Mexico Border Region*, Maria E. Milanés provides a study and analysis of the international groundwater law. The regulation and groundwater management along the US-Mexico border reflect the current international trends for management of transboundary groundwater. *International Groundwater Law and the US-Mexico Border Region* offers a new international legal and institutional framework to manage fossil aquifers and groundwater in conjunctive use with surface water, where specific guidelines and recommendations for water banking can improve water allocation and protect the environment. This framework can be adapted to any region of around the world. The US-Mexico border is the case study selected to apply and demonstrate the efficacy of this legal and institutional framework.

*Longford Folk Tales* Philip Byrne, 2021-01-18 *Longford Folk Tales* is a treasure trove of wonderful stories of saints and deities, fairies and devils,

kings and ghosts, shoemakers and other engaging characters. Read about The Blake Millions, butter stealing, the Wooing of Étaín, and 'The Walking Gallows', Hempenstall – all your favourite legends and many more. This selection of tales and stories from every corner of the county of Longford reflects the wisdom of the countryside and its people. Legends, folk customs and local lore from earliest times up to the county's more recent past are expertly told by storyteller Philip Byrne.

**Self-Defence against Non-State Actors** Mary Ellen O'Connell, Christian J. Tams, Dire Tladi, 2019-08 Provides a multi-perspective study of the international law on self-defence against non-State actors.

How to Get the Teaching Job You Want Robert Feirsen, Seth Weitzman, 2023-07-03 Competition for the best teaching jobs is becoming more intense. Since publication of the first edition, when it was mainly the most desirable schools that were deluged by applications, the economic climate has made the teacher market more competitive across the board, and is changing hiring practices. Now extensively revised, this book maintains its place as the most up-to-date book available on job hunting for teachers. The authors cover changes in the educational marketplace; the new mandates about standardized testing and public reporting of student achievement-and what they mean for applicants; how new certification standards and schools' requirements affect career changers; the growing acceptance of on-line applications and electronic portfolios; and provide additional advice for teachers applying to change schools or districts. This is also the only guide written by school administrators. Offering the insights and experience of two authors who do the hiring, it details a step-by-step program for taking charge of your teaching career. How to Get the Teaching Job You Want enables you to: \* Match your unique talents to the needs of a particular school \* Craft effective cover letters and resumes, using models that address the specific needs of college graduates, teachers changing schools, returning teachers and career changers \* Make effective on-line applications \* Leverage your achievements as an experienced teacher-or, for graduates or career changers, student teaching, substitute teaching, volunteer work or content knowledge-into a job offer \* Locate jobs on-line and discover valuable information about schools, including test results, educational philosophy and names of key administrators \* Design a portfolio in book or electronic format to showcase your abilities \* Practice interview skills using 100 questions taken from real job interviews \* Apply proven strategies for a variety of interview formats, including high stress interviews and performance interviews \* Address controversial questions during interviews This book covers procedures for applying to elementary, middle and high schools; public, independent, and parochial schools; as well as international and boarding schools. Anecdotes recounting the experiences of real candidates looking for jobs illustrate key points. Access to the authors' web site ensures that you will stay current in a changing job market. This is a vital book for teachers and aspiring teachers who want to achieve their career goals. It will also be invaluable for guidance counselors, psychologists, librarians and other school professionals.

Transforming Payment Systems in Europe Jakub Górka, 2016-04-08 The European payment market has undergone rapid transformation in recent years due to changes in payment habits, new business rules and new legal frameworks and regulation. There has also been an advent of new technologies and payment solutions which has altered the European payments landscape drastically. This book provides an overview of the fundamental issues involved in this new payments landscape. The authors discuss fundamental problems such as substitution between cash and non-cash payment instruments, payment costs, the economics of fees, and the demand for cash and deposit money. They also analyse issues such as two-sided markets, business platforms and the problem of critical mass. Other chapters focus on new phenomena in payments such as mobile payments, multi-sided platforms, electronic wallets, virtual currencies, decentralised ledgers, private digital currencies, blockchain and instant payments. The

authors also review existing regulation for the topic including the revised Payment Services Directive (PSD2), Interchange Fee Regulation (IF/MIF Reg), and the Single Euro Payments Area (SEPA) project. Transforming Payment Systems in Europe offers insight into changing payment culture and the ways in which new payment systems can create a single digital market to foster further integration in Europe.

A Fortiori Logic Avi Sion,2013-11-24 A FORTIORI LOGIC: INNOVATIONS, HISTORY AND ASSESSMENTS, by Avi Sion, is a wide-ranging and in-depth study of a fortiori reasoning, comprising a great many new theoretical insights into such argument, a history of its use and discussion from antiquity to the present day, and critical analyses of the main attempts at its elucidation. Its purpose is nothing less than to lay the foundations for a new branch of logic, and greatly develop it; and thus to once and for all dispel the many fallacious ideas circulating regarding the nature of a fortiori reasoning.
