Muslims under Sikh Rule in the Nineteenth Century Robina Yasmin, 2022-01-13 Though the history of Sikh-Muslim relations is fraught with conflict, this book examines how the policies of Sikh rulers attempted to avoid religious bigotry and prejudice at a time when Muslims were treated as third-class citizens. Focusing on the socio-economic, political and religious condition of Muslims under Sikh rule in the Punjab during the 19th century, this book demonstrates that Maharaja Ranjit Singh and his successors took a secular approach towards their subjects. Using various archival sources, including the Fakir Khana Family archives and the Punjab Archives, the author argues citizens had freedom to practice their religion, with equal access to employment, education and justice.

Stephen A. Douglas, Western Man Reg Ankrom, 2021-04-23 It didn't take long for freshman Congressman Stephen A. Douglas to see the truth of Senator Thomas Hart Benton's warning: slavery attached itself to every measure that came before the U.S. Congress. Douglas wanted to expand the nation into an ocean-bound republic. Yet slavery and the violent conflicts it stirred always interfered, as it did in 1844 with his first bill to organize Nebraska. In 1848, when America acquired 550,000 square miles after the Mexican War, the fight began over whether the territory would be free or slave. Henry Clay, a slave owner who favored gradual emancipation, packaged territorial bills from Douglas's committee with four others. But Clay's Omnibus Bill failed. Exhausted, he left the Senate, leaving Douglas in control. Within two weeks, Douglas won passage of all eight bills, and President Millard Fillmore signed the Compromise of 1850. It was Douglas's greatest legislative achievement. This book, a sequel to the author's *Stephen A. Douglas: The Political Apprenticeship, 1833-1843*, fully details Douglas's early congressional career. The text chronicles how Douglas moved the issue of slavery from Congress to the ballot box.

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars, this collection provides a comprehensive and authoritative overview of modern empires. Spanning the era of modern imperial history from the early sixteenth century to the present, it challenges both the rather insular focuses on specific experiences, and gives due attention to imperial formations outside the West including the Russian, Japanese, Mughal, Ottoman and Chinese. The companion is divided into three broad sections. Part I - Times - surveys the three main eras of modern imperialism. The first was that dominated by the settlement impulse, with

migrants - many voluntarily and many more by force - making new lives in the colonies. This impulse gave way, most especially in the nineteenth century, to a period of busy and rapid expansion which was less likely to promote new settlement, and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade. Lastly, in the twentieth century in particular, empires began to fail and to fall. Part II - Spaces - studies the principal imperial formations of the modern world. Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations. The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations, and reflect critically on the ways in which these topics have been approached in the literature. In Part III - Themes - scholars think critically about some of the key features of imperial expansion and decline. These chapters are brief and many are provocative. They reflect the current state of the field, and suggest new lines of inquiry which may follow from more comparative perspectives on empire. The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism, encompassing political, economic and cultural processes central to the formation and maintenance of empires as well as institutions, ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire. In these pages the reader will find the slave and the criminal, the merchant and the maid, the scientist and the artist alongside the structures which sustained their lives and their livelihoods. Overall, the companion emphasises the diversity of imperial experience and process. Comprehensive in its scope, it draws attention to the particularities of individual empires, rather than over-generalising as if all empires, at all times, and in all places, behaved in a similar manner. It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire.

Signposts Sally E. Hadden,Patricia Hagler Minter,2013-04-01 In Signposts, Sally E. Hadden and Patricia Hagler Minter have assembled seventeen essays, by both established and rising scholars, that showcase new directions in southern legal history across a wide range of topics, time periods, and locales. The essays will inspire today's scholars to dig even more deeply into the southern legal heritage, in much the same way that David Bodenhamer and James Ely's seminal 1984 work, *Ambivalent Legacy*, inspired an earlier generation to take up the study of southern legal history. Contributors to Signposts explore a wide range of subjects related to southern constitutional and legal thought, including real and personal property, civil rights, higher education, gender, secession,

reapportionment, prohibition, lynching, legal institutions such as the grand jury, and conflicts between bench and bar. A number of the essayists are concerned with transatlantic connections to southern law and with marginalized groups such as women and native peoples. Taken together, the essays in *Signposts* show us that understanding how law changes over time is essential to understanding the history of the South. Contributors: Alfred L. Brophy, Lisa Lindquist Dorr, Laura F. Edwards, James W. Ely Jr., Tim Alan Garrison, Sally E. Hadden, Roman J. Hoyos, Thomas N. Ingersoll, Jessica K. Cyndi's List Cyndi Howells, 1999 REF This is a multi-title review. The titles include: 'Cyndi's List (880 pg)', 'Instant Information on the Internet (117 pg)', and 'Instant Information on the Internet (86 pg)' - Although Internet directories such as Howells's wildly popular site, (www.cyndislist.com), offer well-organized access to genealogy sites online, many researchers still want to plan searches with a book in hand. Now Howells (*Netting Your Ancestors*) has created a print version, with some exceptions, of her web site. Including over 100 categories and over 40,000 links (most with brief annotations), this book has something for nearly any genealogy-related topic that comes to mind. Schaefer's 'Instant Information' series offers pared-down compilations of basic information search sites. Her book on the United States categorizes web sites by state and includes vital records information sites, prominent research libraries and societies, indexes and databases, and general information sites. In the *British Isles* book, Schaefer discusses British counties and expands her lists to include major sites for churches and the Celtic language as well as a place-name index. All three books provide easy access to useful genealogy sites. While Howells strives for exhaustive coverage of genealogy links, Schaefer offers very general site lists. Though Howells's book comes with a solid price tag, the purchase of each new (and planned) title in Schaefer's series would quickly rack up the same price or more. Still, for those who want only a brief, focused guide, Schaefer's books are an economical alternative. Elaine M. Kuhn, Allen Cty. P.L., Fort Wayne, IN-

The Canada-Israel Nexus Eric Walberg, 2017-11-07 The Canada-Israel Nexus is a comparative political history of two settler nations, their colonial past, their relations with the indigenous peoples on whose territories they created and imposed new states, and their close linkages to former and current imperial powers. The battle for justice in the Middle East involves treachery, terrorism, exile, apostasy, and, yes, conspiracy. It is the stuff of legend, of which Canada, Israel, and their relationship is a crucial part. The conflict of interests and rights between the colonizer and the colonized is central to this narrative, as is the relationship between Jews and the state in history, and how that relationship was transformed by the creation of a Jewish state. The history of Israel-Palestine is like an accelerated version of Canada's dispossession of native peoples, though with differing endgames: ethnic cleansing vs. forced assimilation. Canada is Israel's 'best friend' – not just in former Conservative prime minister Harper's words, or when a youthful Lester Pearson pushed through the plan for a separate Jewish state, leading to Israel's creation and his own Nobel Peace prize – but in many little known and unexpected ways. On the other hand, Canadians have numbered among the few daring questioners of the Holocaust, for which they have paid dearly. Not least, this book examines the central question of the identity of Jews in Canada: will they be just that, with a primal loyalty to an Israeli homeland, or will they become Jewish Canadians, even anti-Zionist Canadians, melting easily into Canadian popular culture, itself replete with the influence of Jewish east European Yiddishkeit

Mobilities of Return John Taylor, Helen Lee, 2017-12-15 In recent decades, the term 'mobility' has emerged as a defining paradigm within the humanities. For scholars engaged in the multidisciplinary topics and perspectives now often embraced by the term Pacific Studies, it has been a much more longstanding and persistent concern. Even so, specific questions regarding 'mobilities of return'—that is, the movement of people 'back' to places that are designated, however ambiguously or ambivalently, as 'home'—have tended to take a back seat within more recent discussions of mobility, transnationalism and migration. This volume situates return mobility as a starting point for understanding the broader context and experience of human mobility, community and identity in the Pacific region and beyond. Through diverse case studies spanning the Pacific region, it demonstrates the extent to which the prospect and practice of returning home, or of navigating returns between multiple homes, is a central rather than peripheral component of contemporary Pacific Islander mobilities and identities everywhere.
