The Burqa Affair Across Europe Alessandro Ferrari, Sabrina Pastorelli, 2016-03-23 In recent years, the wearing of the full-face veil or burqa/niqab has proved a controversial issue in many multi-cultural European societies. Focussing on the socio-legal and human rights angle, this volume provides a useful comparative perspective on how the issue has been dealt with across a range of European states as well as at European institutional level. In so doing, the work draws a theoretical framework for the place of religion between public and private space. With contributions from leading experts from law, sociology and politics, the book presents a comparative and interdisciplinary approach to one of the most contentious and symbolic issues of recent times.

Clouds of War Jerry L. Burton, 2020-08-10 For Bill Drumm, history is not about the past. Follow Bill as he makes history, analyzes past events, and identifies clouds of war on the horizon that are warnings to us. Share his burden of command as he pilots his B-24 heavy bomber, transporting over 2,200 gallons of explosive aviation fuel from India into China, through thunder and lightning storms over the world's highest mountains. Experience the pressure and anxiety for the safety of his crew as he flies through the worst weather in the world, performing what has been described by many as the most dangerous missions of the war, more dangerous than bombing raids over Germany or Japan. Bill shares his experiences during the many Cold War crises during his twenty-eight years in the military. And finally, Bill looks at the events of the last few years and identifies the enemy within and the terrible threat they pose to our constitutional republic.

Musicians in Transit Matthew B. Karush, 2016-12-02 In *Musicians in Transit* Matthew B. Karush examines the transnational careers of seven of the most influential Argentine musicians of the twentieth century: Afro-Argentine swing guitarist Oscar Alemán, jazz saxophonist Gato Barbieri, composer Lalo Schifrin, tango innovator Astor Piazzolla, balada singer Sandro, folksinger Mercedes Sosa, and rock musician Gustavo Santaolalla. As active participants in the globalized music business, these artists interacted with musicians and audiences in the United States, Europe, and Latin America and contended with genre distinctions, marketing conventions, and ethnic stereotypes. By responding creatively to these constraints, they made innovative music that provided Argentines with new ways of understanding their nation's place in the world. Eventually, these musicians produced expressions of Latin identity that reverberated beyond Argentina, including a novel form of pop ballad; an anti-imperialist, revolutionary folk genre; and a style of rock built on a pastiche of Latin American and global genres. A website with links to recordings by each musician accompanies the book.

The Violence Continuum Elizabeth C. Manvell, 2012-01-31 We expect schools to be a safe haven, but after more than a decade of targeted school violence prevention laws and safety plans, students are still marginalized and bullied to the point of despondence, retaliation, and even suicide. This thoughtful exploration of what makes a school a safe place is based on the understanding that violence is a continuum of acts and attitudes—subtle to overt—that have a negative effect on how students feel and learn. A school's climate—how it feels to be a member of the learning community—depends on how each student is treated. We are challenged to recognize the often overlooked, yet pervasive, forms of emotional and physical violence that students face every day. After conducting an honest assessment of our own school's climate, we learn how to nurture supportive relationships between students and adults and embed pro-social skills and respect for diversity in everything we do. When done, we are equipped with the understandings, tools, and commitment necessary to create a

safe, positive school climate that is systemic and lasting.

Democracy Despite Itself Danny Oppenheimer, Mike Edwards, 2012-01-27 Why democracy is the most effective form of government despite irrational (and sometime oblivious) voters and flawed (and sometimes inept) politicians. Voters often make irrational decisions based on inaccurate and irrelevant information. Politicians are often inept, corrupt, or out of touch with the will of the people. Elections can be determined by the design of the ballot and the gerrymandered borders of a district. And yet, despite voters who choose candidates according to the boxer-brief dichotomy and politicians who struggle to put together a coherent sentence, democracy works exceptionally well: citizens of democracies are healthier, happier, and freer than citizens of other countries. In *Democracy Despite Itself*, Danny Oppenheimer, a psychologist, and Mike Edwards, a political scientist, explore this paradox: How can democracy lead to such successful outcomes when the defining characteristic of democracy—elections—is so flawed? Oppenheimer and Edwards argue that democracy works because regular elections, no matter how flawed, produce a variety of unintuitive, positive consequences. The brilliance of democracy, write Oppenheimer and Edwards, does not lie in the people's ability to pick superior leaders. It lies in the many ways that it subtly encourages the flawed people and their flawed leaders to work toward building a better society.

The Soviet-Polish War and its Legacy Peter Whitewood, 2023-09-21 This detailed study traces the history of the Soviet-Polish War (1919-20), the first major international clash between the forces of communism and anti-communism, and the impact this had on Soviet Russia in the years that followed. It reflects upon how the Bolsheviks fought not only to defend the fledgling Soviet state, but also to bring the revolution to Europe. Peter Whitewood shows that while the Red Army's rapid drive to the gates of Warsaw in summer 1920 raised great hopes for world revolution, the subsequent collapse of the offensive had a more striking result. The Soviet military and political leadership drew the mistaken conclusion that they had not been defeated by the Polish Army, but by the forces of the capitalist world – Britain and France – who were perceived as having directed the war behind-

the-scenes. They were taken aback by the strength of the forces of counterrevolution and convinced they had been overcome by the capitalist powers. The Soviet-Polish War and its Legacy reveals that – in the aftermath of the catastrophe at Warsaw – Lenin, Stalin and other senior Bolsheviks were convinced that another war against Poland and its capitalist backers was inevitable with this perpetual fear of war shaping the evolution of the early Soviet state. It also further encouraged the creation of a centralised and repressive one-party state and provided a powerful rationale for the breakneck industrialisation of the Soviet Union at the end of the 1920s. The Soviet leadership's central preoccupation in the 1930s was Nazi Germany; this book convincingly argues that Bolshevik perceptions of Poland and the capitalist world in the decade before were given as much significance and were ultimately crucial to the rise of Stalinism.

Rethinking Race in Modern Argentina Paulina Alberto, Eduardo Elena, 2016-03-21 This book reconsiders the relationship between race and nation in Argentina during the twentieth and twenty-first centuries and places Argentina firmly in dialog with the literature on race and nation in Latin America, from where it has long been excluded or marginalized for being a white, European exception in a mixed-race region. The contributors, based both in North America and Argentina, hail from the fields of history, anthropology, and literary and cultural studies. Their essays collectively destabilize widespread certainties about Argentina, showing that whiteness in that country has more in common with practices and ideologies of Mestizaje and 'racial democracy' elsewhere in the region than has typically been acknowledged. The essays also situate Argentina within the well-established literature on race, nation, and whiteness in world regions beyond Latin America (particularly, other European 'settler societies'). The collection thus contributes to rethinking race for other global contexts as well.

Ending Big Government Michael Dahlen, 2016-02 Statism denotes any system of big government, a government that gains power at the expense of individual freedom, a government that uses its power to redistribute wealth and regulate the economy. Laissez-faire capitalism, by contrast, is the system of limited government, the system of economic and political freedom. It is a system that has created more wealth and lifted more people out of poverty than any other system. Yet it is relentlessly demonized. We are told that the free market is impractical--prone to crises, depressions, and coercive monopolies. Michael Dahlen dispels these and many other myths. He shows that a laissez-faire capitalist system is not only practical; he shows that it is moral, as it is the only system that recognizes each individual's inalienable right to his own life. A provocative weave of history, philosophy, and political economy,

Ending Big Government: The Essential Case for Capitalism and Freedom, shows that capitalism is incontestably superior to statism.

Ours to Master and to Own Immanuel Ness, Dario Azzellini, 2011 From the dawning of the industrial epoch, wage earners have organized themselves into unions, fought bitter strikes, and gone so far as to challenge the very premises of the system by creating institutions of democratic self-management aimed at controlling production without bosses. With specific examples drawn from every corner of the globe and every period of modern history, this pathbreaking volume comprehensively traces this often underappreciated historical tradition. Ripe with lessons drawn from historical and contemporary struggles for workers' control, *Ours to Master and to Own* is essential reading for those struggling to create a new world from the ashes of the old. Immanuel Ness is professor of political science at Brooklyn College, City University of New York, and edits *WorkingUSA*. Dario Azzellini is a writer, documentary director, and political scientist at Johannes Kepler University in Linz.
