The History of China,

The Aftermath of the Chinese Nationalist Revolution Kathlyn Gay,2008-09-01 Describes the history of China in the first half of the twentieth century, a period of intense civil war following the overthrow of the Mancu dynasty, which in turn led to the establishment of a communist government under Mao Tse-tung.

European Data Collection on Sexual Offences Against Minors Gert Vermeulen, Fleur Dhont, Arne Dormaels, 2001 The fight against the sexual exploitation of and trade in children has gained particular and renewed international attention in the last few years and has become one of the most important concerns in the context of international law enforcement policy and cooperation. Since 1998, policy makers have come up with new legal initiatives at global as well as regional levels in order to tackle this problem in a more effective and coordinated way. This proves that the time has come to match words and actions, and to come up with concrete and useful tools for law enforcement services and NGO's active in the areas concerned. The current study therefore examines the feasibility of the further elaboration and implementation of recommendations from a previous project (96/STOP/003) regarding the systematic gathering and administration of data concerning missing minors, minor victims of trafficking in or sexual exploitation of children and perpetrators of sexual offences against minors, with the goal to further prepare the practical setting up of several international databases with immediate relevance to the police and the prosecuting or investigating magistrates or officials, both in the EU Member States and the candidate countries. It is recommended to give Interpol a mandate to host an international database on missing persons and to create an EU monitoring centre responsible for the gathering and administration of reliable statistics and legal information on sexual exploitation of children and trafficking in human beings. It is also recommended for Interpol to host an international reference database on child pornography and to set up an analysis/intelligence child porn database at Europol. Regarding suspected and convicted sex offenders, it is proposed to create a database on pending investigations, an EU criminal records database at Europol containing encoded information on both suspected and convicted offenders

Copyright and the Public Interest in China G. H. Tang,2011-11 'This brilliant amalgam of law, history, social analysis and some Confucian philosophy argues for a distinctive Chinese approach to copyright and the public interest, aligning not only the Western commitment to individual creativity but also supporting public access to and use of works without the consent of the copyright holder. The argument involves fascinating analysis, not only of evolving Chinese attitudes to education, libraries, archives and censorship, but also of the profound significance of the Internet in China today.' Hector MacQueen, University of Edinburgh, UK 'Guan Hong Tang's book offers a fresh, insightful and scholarly treatment of the relationship between the law of copyright and the public interest in China. Copyright legislation in China is a novelty, dating from 1990, and Dr Tang provides a vivid overview of the historical and cultural tensions between traditional Chinese Confucianism and the very concept of copyright, tensions which more recent legislation and case law seek to address.' Gillian Davies, Hogarth Chambers, UK Guan Hong Tang expertly highlights how the multidimensional concept of public interest has influenced the development and limitations of Chinese copyright. Since 1990 China has awarded copyright individual rights but also provides for public, non-criminal enforcement. The author reveals that pressures of development, globalisation and participation in a world economy have hastened the loss of public interest from copyright. However, for a socialist country, placing the common ahead of the individual interest, the public interest also constitutes a phenomenological tool with which to limit copyright. The author also discusses how the rise of the Internet, which has had a major social and economic impact on China, raises problems for Chinese copyright law. Comparing Chinese copyright law with the USA and the UK, topical issues are presented in this unique book including those arising within education, library a

Space Law Francis Lyall, Paul B. Larsen, 2016-04-01 The opening of space to exploration and use has had profound effects on society. Remote sensing by satellite has improved meteorology, land use and the monitoring of the environment. Satellite television immediately informs us visually of events in formerly remote locations, as well as providing many entertainment channels. World telecommunication facilities have been revolutionised. Global positioning has improved transport. This book examines the varied elements of public law that lie behind and regulate the use of space. It also makes suggestions for the development and improvement of the law, particularly as private enterprise plays an increasing role in space.

Collaborative Engineering and the Internet Anthony Mills,1998 Via the Web. In manufacturing, new communication technologies have ushered in a new era for the team-based product development strategy of concurrent engineering. Known as collaborative engineering, the new phase makes it unnecessary for team members to be in the same room, seated around the same table. The team members can be scattered around the facility, around the city, around the country, and even around the world, and can still contribute their valuable input. More complex than traditional concurrent engineering, collaborative engineering not only deals with collaboration itself, but also the infrastructure and environments that enable and nurture it. Going far beyond describing the use of the internet, Anthony Mills thoroughly examines the principles, applications and various tools relevant to this new age of industrial communications. He explains how an organization can use them effectively in welding together personnel and suppliers - no matter how far flung - so that they can play major roles in the organization's success.

Multinationals as Flagship Firms Alan Rugman, Joseph R. D'Cruz, 2003-03-06 The international dimension of business networks has remained relatively unexplored, mainly because international business writers focus upon multinational enterprises and network writers ignore international issues. In this book Professors Alan Rugman and Joseph D'Cruz bridge the literature on networks and multinationals by introducing the new concept of the flagship firm. In each business network strategic leadership is provided by the flagship firm, which is defined as a multinational enterprise. It has other partners: key suppliers; key customers; key competitors; and key partners in the non-business infrastructure. These business networks are usually located in the 'triad' regions of the European Union, North America, and Japan. There are strong cross-border network linkages within these regions, but less 'globalization' than regional economic integration. The theory of the flagship firm/five partners model is applied to the telecommunications, chemicals, automotive, and electronics sectors, amongst others, and the book reports on both empirical studies and field research of the international competitiveness of these sectors. The book will be of interest to academics, students, and professionals in the areas of international business, strategic management, political science, law, and sociology.

Fetal Alcohol Spectrum Disorders in Adults: Ethical and Legal Perspectives Monty Nelson, Marguerite Trussler, 2015-07-28 This book discusses and provides insight on the legal and ethical dilemmas of managing those with Fetal Alcohol Spectrum Disorder (FASD). This book provides a clear perspective for those clinicians and legal professionals who are working with those with this disorder, and correspondingly increases their understanding when arranging

effective supports for this population. Historically, the primary focus on FASD has been on children. However, this is a lifelong disorder and the implications of this disorder become even more prominent and complex in adulthood. Those with this condition can struggle with impulsiveness, and a host of cognitive difficulties. This correspondingly impacts their independence and employability, and produces an elevated risk for homelessness and other residential issues, involvement in substance use, being exploited, development of behavioural issues, and subsequent legal difficulties. Their cognitive difficulties result in challenges for legal systems around the world to understand their issues, and to design appropriate remedial strategies, recommendations for treatments and supports, and even for understanding the failure of many of these individuals to be able to change their behaviours effectively. This produces various legal and ethical dilemmas, which are discussed in detail in this volume by 28 authors from Europe, New Zealand and North America. These include discussions regarding the rights of the unborn child, the alcohol industry's duty to warn, whether small amounts of alcohol during pregnancy can be condoned, and even the current use of involuntary hospitalization for addicted mothers. Other chapters discuss the need for training on FASD for front line officers, use of lies during interrogation of those with FASD, medical and legal interventions for offenders with FASD, access to diagnostic services and follow-up supports, and whether FASD can be considered a mitigating factor for sentencing. Furthermore, caregivers also provide their stories regarding the daily dilemmas that are faced in raising those with FASD.

Toxicological Survey of African Medicinal Plants Victor Kuete, 2014-05-30 Toxicological Survey of African Medicinal Plants provides a detailed overview of toxicological studies relating to traditionally used medicinal plants in Africa, with special emphasis on the methodologies and tools used for data collection and interpretation. The book considers the physical parameters of these plants and their effect upon various areas of the body and human health, including chapters dedicated to genotoxicity, hepatotoxicity, neurotoxicity, neurotoxicity, and specific organs and systems. Following this discussion of the effects of medicinal plants is a critical review of the guidelines and methods in use for toxicological research as well as the state of toxicology studies in Africa. With up-to-date research provided by a team of experts, Toxicological Survey of African Medicinal Plants is an invaluable resource for researchers and students involved in pharmacology, toxicology, phytochemistry, medicine, pharmacognosy, and pharmaceutical biology. Offers a critical review of the methods used in toxicological survey of medicinal plants Provides up-to-date toxicological data on African medicinal plants and families Serves as a resource tool for students and scientists in the various areas of toxicology

Green Consensus and High Quality Development CCICED., China Council for International Cooperation on Environment and Development (CCICED) Secretariat, 2021 This open access book is based on the research outputs of China Council for International Cooperation on Environment and Development (CCICED) in 2020. It covers major topics of Chinese and international attention regarding green development, such as climate, biodiversity, ocean, BRI, urbanization, sustainable production and consumption, technology, finance, value chain, and so on. It also looks at the progress of China's environmental and development policies, and the impacts from CCICED. This is a highly informative and carefully presented book, providing insight for policy makers in environmental issues.

Taylor's 10-Minute Diagnosis Manual Paul M. Paulman, Audrey A. Paulman, Jeffrey D. Harrison, 2006-09-01 This quick-reference pocket book is written for primary care practitioners who face diagnostic problems in brief office visits. It offers evidence-based guidelines on which key questions to ask and what data to obtain in order to provide sound diagnoses of common adult problems. More than 140 chapters in eighteen sections cover mental health problems, symptoms and signs in each organ system, laboratory abnormalities, and radiologic abnormalities. This edition has been thoroughly updated by new editors. New chapters cover corneal foreign body, hematuria, brain natriuretic peptide in congestive heart failure, and D-dimer. The format includes more quick-scanning bullets and tables.

The "state of the Art" in Child Abuse Prevention, 1997 Andy Wachtel, Canada. Health Canada, 1999 This report provides an overview of the child abuse and neglect prevention agenda and an outline of how it was developed. It was created in the process of a larger and more ambitious project. A report on that larger project, entitled Current directions in child abuse and neglect prevention and intervention, is available ... from United Way Research Services, Vancouver.

The Genealogist's Internet Peter Christian, 2001 A comprehensive introduction and guide to researching Briish family history on the Internet.

The Languages and Linguistics of South Asia Hans Henrich Hock, Elena Bashir, 2016-05-24 With nearly a quarter of the world's population, members of at least five major language families plus several putative language isolates, South Asia is a fascinating arena for linguistic investigations, whether comparative-historical linguistics, studies of language contact and multilingualism, or general linguistic theory. This volume provides a state-of-the-art survey of linguistic research on the languages of South Asia, with contributions by well-known experts. Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research. In addition to covering the languages, their histories, and their genetic classification, as well as phonetics/phonology, morphology, syntax, and sociolinguistics, the volume provides special coverage of contact and convergence, indigenous South Asian grammatical traditions, applications of modern technology to South Asian languages, and South Asian writing systems. An appendix offers a classified listing of major sources and resources, both digital/online and printed.
