Dreams of the Hmong Kingdom Mai Na M. Lee,2015-06-16 Authoritative and original, *Dreams of the Hmong Kingdom* is among the first works of its kind, exploring the influence that French colonialism and Hmong leadership had on the Hmong people's political and social aspirations.

Extreme Dreams Depend on Teams Pat Williams,2009-07-22 Pat says though the vision of one person can change the world, no one can carry out a vision alone. Extreme dreams depend on teams, and lack of teamwork is often how big dreams go unrealized. Using examples and anecdotes from history and contemporary life, Pat shows how the greatest world-changing events came to be as the result of the passion of single individuals. In each case, a team was assembled with people equipped in the various areas needed to bring the vision to pass. Pat addresses team assembly, dynamics, and pitfalls to give readers guidance they can immediately apply to their own circumstances. Everyone is looking for ways to be more successful in life. Pat Williams serves up a book packed with practical help to get readers where they want to be.

Antarctica Bernadette Hince,Rupert Summerson,Arnan Wiesel,2015-04-30 This is the first book whose subject is the music, sounds and silences of Antarctica. From 2011 until 2014, Australia marked its long-standing connection with Antarctica by celebrating the centenary of the Australasian Antarctic Expedition. The icy continent, with its extremes of climate and environment and unique soundscapes, offers great potential for creative achievements in the world of music and sound. This book demonstrates the intellectual and creative engagement of artists, musicians, scientists and writers. Consciousness of sounds — in particular, musical ones — has not been at the forefront of our aims in polar endeavours, but listening to and appreciating them has been as important there as elsewhere.

The Man Who Wasn't There Anil Ananthaswamy,2016-08-02 In the tradition of Oliver Sacks, science journalist Anil Ananthaswamy skillfully inspects the bewildering connections among brain, body, mind, self, and society by examining a range of neuropsychological ailments from autism and Alzheimer's to out-of-body experiences and body integrity identity disorder Award-winning science writer Anil Ananthaswamy smartly explores the concept of self by way of several mental conditions that eat away at patients' identities, showing we learn a lot about being human from people with a fragmented or altered sense of self. Ananthaswamy travelled the world to meet those who suffer from "maladies of the self" interviewing patients, psychiatrists, philosophers and neuroscientists along the way. He charts how the self is affected by Asperger's, autism, Alzheimer's, epilepsy, schizophrenia, among many other mental conditions, revealing how the brain constructs our sense of self. Each chapter is anchored with stories of people who experience themselves differently from the norm. Readers meet individuals in various stages of Alzheimer's disease where the loss of memory and cognition results in the loss of some aspects of the self. We meet a woman who recalls the feeling of her first major encounter with schizophrenia which she describes as an outside force controlling her. Ananthaswamy also looks at several less familiar conditions, such as Cotard's syndrome, in which patients believe they are dead, and those with body integrity identity disorder, where the patient seeks to have a body part amputated because it "doesn't belong to them." Moving nimbly back and forth from the individual stories to scientific analysis *The Man Who Wasn't There* is a wholly original exploration of the human self which raises fascinating questions about the mind-body connection.

What in the World is Going On? Dr. David Jeremiah,2010-08-08 In the New York Times best-selling book, *What in the World Is Going On?*, Dr. David Jeremiah answers the hard questions, including these: How is prophecy playing out in modern Europe? Why does Israel matter? How are oil reserves and Islamic terrorism related? Does the United States play a role in prophecy? How should we live in the end times? The Bible has plenty to say about end times. But until now, there has been no other book that—in straightforward prose that's easy to understand —gathers ten scriptural prophecies, lays out a chronological checklist, and offers a guideline for sorting it all out. In *What in the World Is Going On?* Dr. David Jeremiah answers the hard questions, including these: How is prophecy playing out in modern Europe? Why does Israel matter? How are oil reserves and Islamic terrorism related? Does the United States play a role in prophecy? How should we live in the end times? Events unfolding in today's world are certainly unsettling, but they need not be confusing or frightening. Now you can know the meaning behind what you see in the daily news—and understand what in the world is going on! "A clear, compelling primer on God's heart for Israel and the dramatic Bible prophecies that will unfold in these last days. What I loved most is that David Jeremiah unashamedly examines and explains the biggest global trends of our day through the Third Lens of Scripture. And his description of Jesus' unconditional love and compassion for Jews and Muslims is alone worth the read!" —Joel C. Rosenberg, New York Times best-selling author, *The Last Jihad and Epicenter: Why the Current Rumbles in the Middle East Will Change Your World*

Housing for All Xing Quan Zhang,2008 This report provides a comprehensive review of the challenges for low and moderate income housing. It focuses on the issues of affordability, accessibility and sustainability in resolving the housing problem. It looks at both formal and informal instruments and how experiences in developed countries and instruments in addressing middle income households can help inspire solutions for low and moderate income housing. The report examines a whole range of major instruments and experiences across the developing and developed worlds.

Health And Behavior In Childhood And Adolescence Laura L. Hayman, PhD, RN, FAAN,Margaret M. Mahon, PhD, CRNP, FAAN,J. Rick Turner, PhD,2002-10-01 The key to preventing many adult diseases lies in childhood, when lifetime patterns of diet, exercise, and moderation are most often set. Authored by an interdisciplinary team including nurses, psychologists, nutritionists, and researchers, this book provides a research-based examination of the interplay between health and behavior in childhood and adolescence leading to either positive or negative health outcomes. It examines issues such as: What role does temperament play in at-risk behavior? How can we improve dietary choices? How can we reduce the cycle of physical inactivity leading to obesity? What makes some children more prone to substance abuse? This book provides a long-range perspective on health promotion, by examining its roots in the early years of life.

Food Safety in China Linhai Wu,Dian Zhu,2014-07-29 China is the world's top agricultural producer according to a World Trade Organization 2010 report, but a growing number of alarming safety issues has put the world's top manufacturer of food on the defensive. *Food Safety in China: A Comprehensive Review* chronicles China's current food safety problems from a professional perspective. This text describes key concepts, incorporates a research thread, considers various methods, provides context, and presents main conclusions. Containing investigative research and presenting an authoritative analysis of the subject, this text considers the complex issues that span the entire food supply chain system. It provides an overview of the current food safety situation, as well as its development and changes. It also details the structure of the food safety support system, and addresses growing concerns. Explores Involvement in Stages The book considers the interrelationship between the government, producers and traders, and consumers. It studies technical and management issues, and explains how that impacts businesses, the government regulatory system, and the end user. Factoring in the risks that can be caused by both natural and human influences, including the abuse of food additives, this book reviews the efforts put forth by China to prevent food safety

issues. It examines the changing track of food safety (including imported and exported products) in key aspects such as production, circulation, and consumption from 2006 to 2011 based on empirical investigation and comprehensive use of various statistical data, and examines most specifically China's food safety situation in 2011. This book addresses: Food production and processing Food transportation Food consumption Environment and consumer awareness of food safety Efforts and technical means of the government in food regulation Social responsibility of food producers and traders, and moral traits and professional qualities of employees Rationality, effectiveness, and operability of the technical specifications in production, processing, circulation, and consumption Food Safety in China: A Comprehensive Review provides an assessment of the actual state and future trends of the food safety risk in China. This text is an ideal resource for food product developers, regulators and government researchers, regulatory agencies, policy makers, and policy analysts as well as universities, colleges, researchers, students, investors, importers, exporters, and manufacturers of food.

One Thousand Beards Allan Peterkin, 2001 Every man has the capacity to grow facial hair, but the decision to do so has always come with layers of meaning. Facial hair has traditionally marked a passage into manhood, but its manifestations have been determined by class, religion, history and occupational status. In the end, the act of displaying facial hair is still regarded as a form of ultimate cool. With wit and insight, *One Thousand Beards* delves into the historical, contemporary and cultural meaning of facial hair in all of its forms, complete with numerous photographs and illustrations.

Rise of the Brao Ian G. Baird, 2020-01-28 In the early 1970s, the Khmer Rouge had become suspicious of communist Vietnam and began to persecute Cambodian ethnic groups who had ties to the country, including the Brao Amba in the northeast. Many fled north as political refugees, and some joined the Vietnamese effort to depose the Khmer Rouge a few years later. The subsequent ten-year occupation is remembered by many Cambodians as a time of further oppression, but this volume reveals an unexpected dimension of this troubled past. Trusted by the Vietnamese, the Brao were installed in positions of great authority in the new government only to gradually lose their influence when Vietnam withdrew from Cambodia. Based on detailed research and interviews, Ian G. Baird documents this golden age of the Brao, including the voices of those who are too frequently omitted from official records. *Rise of the Brao* challenges scholars to look beyond the prevailing historical narratives to consider the nuanced perspectives of peripheral or marginal regions.

Process Chemistry in the Pharmaceutical Industry, Volume 2 Kumar Gadamasetti, Tamim Braish, 2007-12-10 As pharmaceutical companies strive to develop safer medicines at a lower cost, they must keep pace with the rapid growth of technology and research methodologies. Defying the misconception of process chemistry as mere scale-up work, *Process Chemistry in the Pharmaceutical Industry, Vol. 2: Challenges in an Ever Changing Climate* explores novel applications of synthetic, physical, and analytical chemistry in drug discovery and development. It offers an accurate depiction of the most up-to-date process research and development methods applied to synthesis, clinical trials, and commercializing drug candidates. The second installment in this progressive series, this volume reviews the latest breakthroughs to advance process chemistry, including asymmetric synthesis, crystallization, morphology, enzymatic intervention, green chemistry, macromolecules (monoclonal antibodies, biological molecules, polymers), enantioselectivity, organometallic chemistry, process analytical tools, chemical engineering controls, regulatory compliance, and outsourcing/globalization. It explores new approaches to synthetic processes, examines the latest safety methods and experiment design, and suggests realistic solutions to problems encountered in manufacturing and process development. Significant topics include atom economy, ease of synthesis, instrumentation, automization, quality control, cost considerations, green practices, and future trends. Jointly edited by the founder/president of Delphian Pharmaceuticals and the director of Chemical R&D at Pfizer, this book brings together contributions by reputed scientists, technologists, engineers, and professors from leading academic institutions, such as the Imperial College, UK, the University of Tokyo, ETH, Switzerland, the International University at Birmen, Germany, and the University of Connecticut, USA, and from principal pharmaceutical companies that include Merck, Bristol Myers Squibb, Pfizer, Novartis, Eli Lilly, AstraZeneca and DSM.

Desenvolvimento e Educação: Volume I Pedro Guimarães Pimentel, Caroline Andrade Fernandes, Gaudêncio Frigotto, Michelle Pinto Paranhos, Jordan Rodrigues dos Santos, Carlos Alberto Gomes Pimentel Júnior, Bruno Miranda Neves, 2021-11-09 La cuarta revolución industrial, caracterizada por um processo de avance tecnológico que vuelve inexistentes los límites entre lo físico, biológico y digital, emerge como algo inevitável. Igual creencia se relaciona com os efeitos da revolução, um sabre: impacto ecológico, profundidade da desigualdade, concentração da riqueza, extinção do diferente ... Ahora bien, ¿estamos determinados a vivir en ese futuro? Este é o interrogante que pretende responder o conjunto de artigos que se expresa nesta magnífica obra. La mayoría de los trabajos trascienden la necesaria reflexión y se compromete a proponernos caminos concretos, historicamente construidos y en construcción that configuran una alternativa tangible para un futuro más humano, democrático y para todos. La lectura de las obras puede ser hecha de dos maneras. La primera de ellas, apunta a proponer un analisis de la realidad, assim como el relato de propuestas alternativas al modelo capitalista y neoliberal hegemónico, that van from el aula y los centros educativos, pasando by la sociedad y llegando al continente latinoamericano y el mundo global. Otra clave de lectura tan interesante como la anterior es por los temas que abordan los trabajos: el contexto (social, cultural, económico y global), la necesaria presencia de la diversidad en los diferentes niveles de trabajo y desarrollo tecnológico, el papel de la ciência e tecnologia nos processos de construção e profundidade de igualdade, a necessidade de reinventar modalidades de organização e participação da classe de empresa, o rol de los centros educativos e estrategias didácticas concretas. Finalmente, dos subrayados: el primero sobre os Institutos Federais de Educação, Ciência e Tecnologia, projeto concreto e histórico na construção que sin dudas muestra cual es el camino; o segundo sobre a importância de gerar conocimiento from una perspectiva histórica crítica, sin lo cual nosotros, educadores, quedaremos expuestos a que nuestras experiencias, vivencias y alternativas se disuelvan y no dejen huellas.

Consórcio de empregadores urbanos Ana Paula da Silveira, 2013-12-21 A presente obra objetiva levar um questionamento ao leitor sobre a eficiência prática das atuais formas de contratação de mão de obra operária por tomadores de serviço, indicando (talvez) o maior vício existente nesse negócio jurídico e que gera consequências profundamente danosas ao trabalhador: a informalidade na relação de emprego. A contratação de trabalhadores sem a formalização do contrato de trabalho, por meio do seu registro na Carteira de Trabalho e Previdência Social (CTPS) do empregado, representa um grande problema que a sociedade contemporânea enfrenta, pois gera limitação ao exercício dos direitos sociais referentes ao trabalho e à previdência social dos obreiros que laboram nessas condições, empurrando-os para as margens do sistema protetivo do Estado. - Ana Paula da Silveira Initia Via Editora

Feeding Manila in Peace and War, 1850-1945 Daniel F. Doeppers, 2016-04-11 The first book to explore the critical problem of provisioning the megacity. A historical study of Manila looks at the continuing challenges of getting food, water, and services to the millions of people who live in the world's megacities.
