Academic E-Books Suzanne M. Ward,Robert S. Freeman,Judith M. Nixon,2015-11-15 Academic E-Books: Publishers, Librarians, and Users provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.

Biostatistics Wayne W. Daniel,Chad L. Cross,2018-11-13 The ability to analyze and interpret enormous amounts of data has become a prerequisite for success in allied healthcare and the health sciences. Now in its 11th edition, Biostatistics: A Foundation for Analysis in the Health Sciences continues to offer in-depth guidance toward biostatistical concepts, techniques, and practical applications in the modern healthcare setting. Comprehensive in scope yet detailed in coverage, this text helps students understand—and appropriately use—probability distributions, sampling distributions, estimation, hypothesis testing, variance analysis, regression, correlation analysis, and other statistical tools fundamental to the science and practice of medicine. Clearly-defined pedagogical tools help students stay up-to-date on new material, and an emphasis on statistical software allows faster, more accurate

calculation while putting the focus on the underlying concepts rather than the math. Students develop highly relevant skills in inferential and differential statistical techniques, equipping them with the ability to organize, summarize, and interpret large bodies of data. Suitable for both graduate and advanced undergraduate coursework, this text retains the rigor required for use as a professional reference.

Hard Times and New Deal in Kentucky George T. Blakey, 2014-07-15 The Great Depression and the New Deal touched the lives of almost every Kentuckian during the 1930s. Fifty years later the Commonwealth is still affected by the legacies of that era and the policies of the Roosevelt administration. George T. Blakey has written the first full study of this turbulent decade in Kentucky, and he offers a fresh perspective on the New Deal programs by viewing them from the local and state level rather than from Washington. Thousands of Kentuckians worked for New Deal programs such as the Civilian Conservation Corps and the Works Projects Administration; thousands more kept their homes through loans from the Home Owners Loan Corporation. Tobacco growers adopted new production techniques and rural farms received their first electricity because of the Agricultural Adjustment and Rural Electrification administrations. The New Deal stretched from the Harlan County coal mines to a TVA dam near Paducah, and it encompassed subjects as small as Social Security pension checks and as large as revived Bourbon distilleries. The impact of these phenomena on Kentucky was both beneficial and disruptive, temporary and enduring. Blakey analyzes the economic effects of this unprecedented and massive government spending to end the depression. He also discusses the political arena in which Governors Laffoon, Chandler, and Johnson had to wrestle with new federal rules. And he highlights social changes the New Deal brought to the Commonwealth: accelerated urbanization, enlightened land use, a lessening of state power and individualism, and a greater awareness of Kentucky history. *Hard Times and New Deal* weaves together private memories of older Kentuckians and public statements of contemporary politicians; it includes legislative debates and newspaper accounts, government statistics and personal reminiscences. The result is a balanced and fresh look at the patchwork of emergency and reform activities which many people loved, many others hated, but no one could ignore.

IBM System Storage DS8000 Performance Monitoring and Tuning Axel Westphal, Bert Dufrasne, Wilhelm Gardt, Jana Jamsek, Peter Kimmel, Flavio Morais, Paulus Usong, Alexander Warmuth, Kenta Yuge, IBM Redbooks, 2016-04-07 This IBM® Redbooks® publication provides guidance about how to configure, monitor, and manage your IBM DS8880 storage systems to achieve optimum performance, and it also covers the IBM DS8870 storage system. It describes the DS8880 performance features and characteristics, including hardware-related performance features, synergy items for certain operating systems, and other functions, such as IBM Easy Tier® and the DS8000® I/O Priority Manager. The book also describes specific performance considerations that apply to particular host environments, including database applications. This book also outlines the various tools that are available for monitoring and measuring I/O performance for different server environments, and it describes how to monitor the performance of the entire DS8000 storage system. This book is intended for individuals who want to maximize the performance of their DS8880 and DS8870 storage systems and investigate the planning and monitoring tools that are available. The IBM DS8880 storage system features, as described

in this book, are available for the DS8880 model family with R8.0 release bundles (Licensed Machine Code (LMC) level 7.8.0).

Smart Cities and Construction Technologies Sara Shirowzhan, Kefeng Zhang, 2020-05-13 This book includes nine chapters presenting the outcome of research projects relevant to building, cities, and construction. A description of a smart city and the journey from conventional to smart cities is discussed at the beginning of the book. Innovative case studies of underground cities and floating city bridges are presented in this book. BIM and GIS applications on different projects, and the concept of intelligent contract and virtual reality are discussed. Two concepts relevant to conventional buildings including private open spaces and place attachments are also included, and these topics can be upgraded in the future by smart technologies.

Jamaica Making Emma Roberts, 2022-02-04 This book accompanies the first exhibition entirely of Jamaican art to take place in the north-west of the UK. The exhibition, *Jamaica Making: The Theresa Roberts Art Collection*, is sited at the Victoria Gallery and Museum, Liverpool in 2022, and is a comprehensive presentation of the best of Jamaican art since the 1960s. The Theresa Roberts Art Collection is the private collection of Theresa Roberts, a Jamaican-born businesswoman and philanthropist, who has made the UK her home. This collection offers an important insight into the development of Jamaican art since the country gained independence in 1962. Indeed, the exhibition also acts to commemorate the 60th anniversary of Jamaican independence in 2022. Included in the book are the following: an official welcome from the Prime Minister of Jamaica; an essay by the collector, exhibition donor and philanthropist, Theresa Roberts; an introduction by eminent British-Jamaican art historian, Edward Lucie-Smith; essays by Emma Roberts, the exhibition curator (Liverpool John Moores University), Davinia Gregory-Kameka, writer, educator and researcher (Columbia University, USA) and Sireita Mullings, arts practitioner and visual sociologist (University of Bedfordshire). The final section of the book is the full visual catalogue of the *Jamaica Making* exhibition – a unique record of this historic exhibition. An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library.

Handbook on Battery Energy Storage System Asian Development Bank, 2018-12-01 This handbook serves as a guide to deploying battery energy storage technologies, specifically for distributed energy resources and flexibility resources. Battery energy storage technology is the most promising, rapidly developed technology as it provides higher efficiency and ease of control. With energy transition through decarbonization and decentralization, energy storage plays a significant role to enhance grid efficiency by alleviating volatility from demand and supply. Energy storage also contributes to the grid integration of renewable energy and promotion of microgrid.
