Underage and Under Fire Allan C. Stover,2014-06-23 This work tells the personal stories of boys and girls who left home and enlisted in the U.S. military at ages 11 to 16. Many had difficult home lives, some wanted adventure or a better future, but all wanted to serve their country. They missed high school proms, adolescent years with family and friends, homecoming parades, and graduation ceremonies. They served aboard ships and submarines, on airplanes, and at faraway bases and battlefields. Some became prisoners of war. Many performed above and beyond. Jack Lucas earned the Medal of Honor at Iwo Jima six days past his 17th birthday. Calvin Graham enlisted at age 12 and was wounded at Guadalcanal aboard the USS South Dakota. His story was made into a movie starring Rick Schroder. A 13-year-old girl enlisted but was later discovered and sent home from Europe. General Eisenhower told her, Go home and grow up, little girl, we need more soldiers like you. One underage veteran became a senator, another, a governor, still another a Chief of Naval Operations. This book reveals why and how they got in, and what happened to them when they were there.

The Wandering Princess Edward W. Hanson,2017-05-13 Helene was a strong-willed princess, raised in France but closely connected with the court of Queen Victoria. After the premature end to a romance with Victoria's grandson, she married into the royal family of Italy. However, Helene began extended adventuresome trips into Africa where she became a big-game hunter, explorer and travel writer, escaping from an unhappy marriage and the boredom of court life. Her travels took her around the world, but her sense of royal duty brought her back to nurse aboard a hospital ship in Libyan waters, then to an important role as head of the Italian Red Cross nurses during the First World War while her husband headed Italy's Third Army, and her two sons served in the artillery and the navy. Afterwards, her strong Italian nationalism made her an ally to Gabriele d'Annunzio and Benito Mussolini, but the disastrous Second World War saw her grandchildren interned in Austria and her older son die as a British prisoner-of-war while she continued her charitable work in Naples. When the country voted to become a republic in 1946, Helene was the only member of the royal family allowed to remain in Italy with her second 'secret' husband.

Mutiny On The Western Front Greg Raffin,2018-09-05 On 21 September 1918, with retreating German forces on their last legs, the 1st Battalion of the AIF was ordered to return to the front just as they were being relieved and preparing for a well-earned rest. It wasn't just the Germans who were on their last legs; the Australians were depleted and exhausted. In what was the largest such instance of mass 'combat refusal' in the AIF's history, the men of one company in the 1st Battalion defied the order. The 'mutiny' spread to other companies, and when the battalion did eventually comply with the order, over 100 men were absent. The circumstances surrounding this mutiny have long been a matter of embarrassment for the AIF, and of fascination for military historians. While historians have approached the issue in purely military terms – the men as soldiers, over-extended service, rates of wounding, promotions, and so on – this book approaches these 100 plus men as human beings. Mutiny on the Western Front traces how these events played out in the context of the exhausting demands placed upon a unit that had seen practically continuous front-line action for weeks, if not months, in the war's final, decisive stages. Author Greg Raffin considers what happens to men's hearts and minds in the course of a prolonged conflict like the Great War. This story, which will surprise readers – is not just about a group of exhausted and war weary Australian soldiers in 1918, it is a story about humanity in war: about what men do in war, and what war does to men.

Ecuador's Amazon Region Peter Krahenbuhl,2009-09-10 Welcome to the wildest place on earth! Ecuador's upper Amazon Basin, referred to locally as the Oriente, awaits you. Spanning most of the SucumbA-os Province, this region is unquestionably one of the most biologically diverse regions on the planet. Here, you can experience incredible wildlife viewing and bird-watching, nature photography, jungle hikes, dugout-canoe excursions, and a unique mix of native people adapted to life in the heart of the tropics. From bird-size butterflies to butterfly-size birds, from piranhas to vampire bats, from poison-arrow frogs to monster anacondas, and from spider monkeys to howler monkeys, the sky is the limit for the spirited soul. The area surrounding Tena and MisahuallA- is the most-visited rainforest destination in the country. One of the more developed regions of the upper Amazon, it is also the most accessible. Jungle excursions abound and there are still small patches of primary forest, mostly in the form of private reserves. Outstanding rafting, kayaking, swimming, tubing and hiking opportunities are available, as well as birding, botany, medicinal study, cultural and general nature travel. Farther down the RA-o Napo, the land becomes more pristine. In the south, especially along the eastern slopes of the Andes and around Macas, the rugged topography and lack of access have preserved some of the best wildlife-viewing opportunities and intact indigenous cultures in Ecuador. In this region, virgin rainforest and the communities of the unique Achuar and Shuar Nations await the true adventure seeker. As the Andes descend dramatically eastward into the Napo region, the true tropical lowland rainforest begins with the headwaters of the RA-o Napo. The Central Oriente offers ecological life zones similar to those in the northern region (see The Upper Amazon Basin), with many species that live here and nowhere else on earth. This is due primarily to the mixture of different microclimates created by drastic elevation changes between the Andes and the Amazon, resulting in small pockets of life that evolved separately from their close neighbors. Thus, biologically, the Oriente a□ with up to 5% of the earth's plant species a□ is arguably the richest place on the planet. This guide gives you all the details on where to stay, where to eat, what to do, how to get around, the entertainment and arts, the history and culture. Complete with maps and photos throughout.
