The Bios Companion Phil Croucher,2001 This text describes the functions that the BIOS controls and how these relate to the hardware in a PC. It covers the CMOS and chipset set-up options found in most common modern BIOSs. It also features tables listing error codes needed to troubleshoot problems caused by the BIOS.

Emerging Topics in Management Studies Patrícia Moura e Sá,2020-08-02 Presently, Management has witnessed vast advancements, clearly becoming an area of trans and interdisciplinary knowledge. It has widened its scope from traditional business areas – such as marketing, strategy, management control, accounting and finance, taxation or operations – to other spaces, namely deepening bridges with behavioural sciences, engineering, health, or energy, fostering both quantitative models and methods. Management thinking at the Faculty of Economics of the University of Coimbra (FEUC) has followed these trends, enabling students with the essential skills supporting the practice of the profession, both in business and public sector organisations. This book features topical trends of research in Management studies, in which FEUC professors are involved, together with international peers, evidencing the openness of the Faculty to the world. Numerous of the subjects addressed relate to challenges that organisations are already facing or will have to deal with shortly. Therefore, the book not only presents innovative research questions, but it also delivers a practical perspective. Thus, organisations will certainly find here some support to better manage those issues in practice.

Metadata and Semantic Research Emmanouel Garoufallou,Francesca Fallucchi,Ernesto William De Luca,2019-12-03 This book constitutes the thoroughly refereed proceedings of the 13th International Conference on Metadata and Semantic Research, MTSR 2019, held in Rome, Italy, in October 2019. The 27 full and 15 short papers presented were carefully reviewed and selected from 96 submissions. The papers are organized in the following tracks: metadata and semantics for digital libraries, information retrieval, big, linked, social and open data; metadata and semantics for agriculture, food, and environment; digital humanities and digital curation; cultural collections and applications; european and national projects; metadata, identifiers and semantics in decentralized applications, blockchains and P2P systems.

The Hacker's Dictionary Eric S. Raymond,2017-06-19 This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

Irrationality Stuart Sutherland,2007 Why do qualified professional make wrong decisions that cause enormous harm to others? And why do you sit through a boring play just because the tickets were expensive? Drawing on a mass of intriguing research, Stuart Sutherland analyses the causes of irrationality, demonstrating that the trait is present in all of us.

Digital Art Through the Looking Glass Oliver Grau (Hg),Oliver Grau (Hg.,2019-12-11 Digital art challenges archiving, collecting and preserving methods within and outside of gallery, library, archive and museum (GLAM) institutions. By its media, art in the digital sphere is processual, contextual, modular and ephemeral, and its creative process is collaborative. From artists, scholars, technicians and conservators-to preserve this contemporary art is a transdisciplinary task. This book brings together leading international experts from digital art theory and preservation, digital humanities, collection management, conservation and media art histories. In a transdisciplinary approach, theoretic and practice-based research from these stakeholders in art, research, education and exhibition are presented to create an overview of present preservation methods and discuss demands and opportunities for the future. Finally, the need for a new appropriate museum and archive infrastructure is shown to preserve the art of our time.

The Human Resources Glossary William R. Tracey,1997-12-29 The fast-paced world of human resources (HR) management, development, and utilization requires HR professionals to fill many roles and speak many languages. Finally, the demand for a single authoritative source that compiles and explains the vocabulary of HR practitoners is answered in the Human Resources Glossary. The Glossary defines HR terms and explains their context, use, and managerial implications in 56 of the most important HR areas including:
