**Leibniz on Binary** Lloyd Strickland, Harry R. Lewis, 2022-11-15 The first collection of Leibniz’s key writings on the binary system, newly translated, with many previously unpublished in any language. The polymath Gottfried Wilhelm Leibniz (1646–1716) is known for his independent invention of the calculus in 1675. Another major—although less studied—mathematical contribution by Leibniz is his invention of binary arithmetic, the representational basis for today’s digital computing. This book offers the first collection of Leibniz’s most important writings on the binary system, all newly translated by the authors with many previously unpublished in any language. Taken together, these thirty-two texts tell the story of binary as Leibniz conceived it, from his first youthful writings on the subject to the mature development and publication of the binary system. As befits a scholarly edition, Strickland and Lewis have not only returned to Leibniz’s original manuscripts in preparing their translations, but also provided full critical apparatus. In addition to extensive annotations, each text is accompanied by a detailed introductory “headnote” that explains the context and content. Additional mathematical commentaries offer readers deep dives into Leibniz’s mathematical thinking. The texts are prefaced by a lengthy and detailed introductory essay, in which Strickland and Lewis trace Leibniz’s development of binary, place it in its historical context, and chart its posthumous influence, most notably on shaping our own computer age.

**The Quotable Augustine: Distinctively Catholic Elements in His Theology** Dave Armstrong, 2012-09-01 Protestants (especially Reformed Protestants, or Calvinists) often assert that St. Augustine's views were closer to theirs than to the present-day Catholic Church. My aim is to systematically document St. Augustine's advocacy of positions that historic Protestantism has expressly rejected, and (conversely) detail his opposition to some doctrines or beliefs that it has (generally speaking) espoused. Quotations are drawn from 44 separate works of St. Augustine, arranged under 157 topics, and also arranged chronologically within topics, insofar as that can be determined. This helps to clarify any development in Augustine's views. Editorial input is kept to an absolute minimum: confined to an occasional bracketed clarification (usually a contextual matter or reference) or briefly stated fact considered to be indispensable in understanding some aspect of the quotation. I'm delighted to pass along to readers a capsulized version of St. Augustine's wonderful and eloquent theological writing.

*State-Building and Democratization in Bosnia and Herzegovina* Soeren Keil, Valery Perry, 2016-03-03 State Building and

Democratization in Bosnia and Herzegovina details the post-Dayton evolution of the country over the last two decades. Carefully evaluating the successes and failures the book explores the slow progress of the democratization process and how key elites initially took hold of the state and its institutions and have successfully retained their grip on power, despite heavy international presence and reform attempts to counter-balance this trend. Bosnia and Herzegovina offers a useful lens through which to view international state-building and democratization efforts. International engagement here incorporated significant civilian and military investment and has been ongoing for many years. In each chapter international scholars and field-based practitioners examine the link between post-war events and a structure that effectively embeds ethno-national politics and tensions into the fabric of the country. These contributors offer lessons to be learned, and practices to be avoided whilst considering whether, as state-building and democratization efforts have struggled in this relatively advanced European country, they can succeed in other fragile states.

**God's Eternal Gift: a History of the Catholic Doctrine of Predestination from Augustine to the Renaissance** Guido Stucco, 2009-06-20 Guido Stucco holds a Ph.D. in Historical Theology from Saint Louis University. He is currently working on a book documenting the developments in the doctrine of predestination, from the Council of Trent to the Jansenist controversy.

**Business-to-Business** Mario Glowik, Sarah Maria Bruhs, 2014-06-05 Contemporary business-to-business (B2B) industries consist of networks of customers, competitors and other stakeholders. Firms which manage their relationships with these important stakeholders are more likely to enjoy a sustained competitive advantage in the international business environment. This book is the first to provide a comprehensive overview of the field from a broad and accessible perspective. The authors bring an authoritative, scholarly understanding to the subject, taking readers through the entire process of creating, developing and maintaining B2B networks. Case studies illustrating each chapter include: Apple, Panasonic, Johnson & Johnson, Epson and Samsung. In providing a single and explicit established academic framework for understanding business networks in a global setting, this book is vital reading for students and researchers involved with international management, international marketing and strategic management.

Theological Interpretation of Scripture as Spiritual Formation, 2022-12-19 Theological Interpretation of Scripture often begins and ends in the academy even though it is intended to find its bearing in the heart of the church. This volume seeks to bridge that gap by showing how the exegetical methods of TIS are themselves spiritually formative and naturally intersect into the life of the church.

**The Predestination of Humans** Cornelius Jansen, 2022-02-18 No other theological text polarized the early modern Catholic world as much as Cornelius Jansen's Augustinus. In it the erudite bishop not only reconstructed St. Augustine's teaching on grace and free will, but also boldly claimed that his views were in line with the Council of Trent and the Society of Jesus. For Jansen the latter had marginalized the Church Father's doctrine on divine predestination by overemphasizing human free will. Published after his death in 1640, Jansen's work drew a large crowd of followers and inspired an Augustinian reform movement. Its papal condemnation unintentionally spread this theology, but stifled an impassionate, academic engagement with the Augustinus. This first-ever translation of some of its central chapters enables historians, philosophers and theologians to finally engage with the founding text of Jansenism.

Freedom's Progress? Gerard Casey, 2021-10-04 In *Freedom's Progress?*, Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism, from the primacy of the collective to the fragile centrality of the individual person and of freedom. Such a transition is, he argues, neither automatic nor complete, nor are relapses to tribalism impossible. The reason for the fragility of freedom is simple: the importance of individual freedom is simply not obvious to everyone. Most people want security in this world, not liberty. 'Libertarians,' writes Max Eastman, 'used to tell us that the love of freedom is the strongest of political motives, but recent events have taught us the extravagance of this opinion. The herd-instinct and the yearning for paternal authority are often as strong. Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history.' The charm of the collective exercises a perennial magnetic attraction for the human spirit. In the 20th century, Fascism, Bolshevism and National Socialism were, Casey argues, each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses. Thinkers you would expect to feature in a history of political thought feature in this book - Plato, Aristotle, Machiavelli, Locke, Mill and Marx - but you will also find thinkers treated in *Freedom's Progress?* who don't usually show up in standard accounts - Johannes Althusius, Immanuel Kant, William Godwin, Max Stirner, Joseph Proudhon, Mikhail Bakunin, Pyotr Kropotkin, Josiah Warren, Benjamin Tucker and Auberon Herbert. *Freedom's Progress?* also contains discussions of the broader social and cultural contexts in which politics takes its place, with chapters on slavery, Christianity, the universities, cities, Feudalism, law, kingship, the Reformation, the English Revolution and what Casey calls Twentieth Century Tribalisms - Bolshevism, Fascism and National Socialism and an extensive chapter on human prehistory.

*Homosexuality and the European Court of Human Rights* Paul Johnson, 2013-09-05 *Homosexuality and the European Court of Human Rights* is the first book-length study of the Court's jurisprudence in respect of sexual orientation. It offers a socio-legal analysis of the substantial number of decisions and judgments of the Strasbourg organs on the wide range of complaints brought by gay men and lesbians under the European Convention on Human Rights. Providing a systematic analysis of Strasbourg case law since 1955 and examining decades of decisions that have hitherto remained obscure, the book considers the evolution of the Court's interpretation of the Convention and how this has fashioned lesbian and gay rights in Europe. Going beyond doctrinal analysis by employing a nuanced sociological consideration of Strasbourg jurisprudence, Paul Johnson shows how the Court is a site at which homosexuality is both socially constructed and regulated. He argues that although the Convention is conceived as a 'living instrument' to be interpreted 'in the light of present-day conditions' the Court's judgments have frequently forged and advanced new social conditions in respect of homosexuality. Johnson argues that the Court's jurisprudence has an extra-legal importance because it provides an authoritative and powerful discursive resource that can be mobilized by lesbians and gay men to challenge homophobic and heteronormative social

relations in contemporary societies. As such, the book considers how the Court's interpretation of the Convention might be evolved in the future to better protect lesbian and gay rights and lives.

Breast Cancer and the Environment Institute of Medicine, Board on Health Sciences Policy, Board on Health Care Services, Committee on Breast Cancer and the Environment: The Scientific Evidence, Research Methodology, and Future Directions, 2012-04-20 Breast cancer remains the most common invasive cancer among women. The primary patients of breast cancer are adult women who are approaching or have reached menopause; 90 percent of new cases in U.S. women in 2009 were diagnosed at age 45 or older. Growing knowledge of the complexity of breast cancer stimulated a transition in breast cancer research toward elucidating how external factors may influence the etiology of breast cancer. *Breast Cancer and the Environment* reviews the current evidence on a selection of environmental risk factors for breast cancer, considers gene-environment interactions in breast cancer, and explores evidence-based actions that might reduce the risk of breast cancer. The book also recommends further integrative research into the elements of the biology of breast development and carcinogenesis, including the influence of exposure to a variety of environmental factors during potential windows of susceptibility during the full life course, potential interventions to reduce risk, and better tools for assessing the carcinogenicity of environmental factors. For a limited set of risk factors, evidence suggests that action can be taken in ways that may reduce risk for breast cancer for many women: avoiding unnecessary medical radiation throughout life, avoiding the use of some forms of postmenopausal hormone therapy, avoiding smoking, limiting alcohol consumption, increasing physical activity, and minimizing weight gain. *Breast Cancer and the Environment* sets a direction and a focus for future research efforts. The book will be of special interest to medical researchers, patient advocacy groups, and public health professionals.

*Islam and Christianity* James Gauss, 2009-02-05 The media bombards us daily with disturbing images and reports related to terrorist threats from radical, fundamentalist Islamists. Is Islam a peaceful religion or a seedbed for terrorism? What are the differences between Christianity and Islam? What does the Koran teach? How closely related are the Bible and the Koran? *Islam & Christianity* is the best resource available in today's market to help seekers find the answers to these very important and timely questions. James Gauss presents us with an insightful and interesting contrast between Islam and Christianity, enabling people of all faiths to understand the difference between the two religions. This book delves into both the Bible and the Koran and a multitude of other sources to show how Christianity and Islam are on a collision course because of the distinct differences between the two. James Gauss sheds light on the practices and teachings of Islam that will enable non-Muslims to understand the battle that is before them and to make vital choices for the future. *Islam and Christianity* gives a clarion call to the Church and society, a call that is a prophetic warning to us.

**A Life of Conversion** Derek Rotty, 2019-09-13 "As Jesus passed on from there, he saw a man called Matthew sitting at the tax office; and he said to him, 'Follow me.' And he rose and followed him." — Matthew 9:9 Conversion. The word is often associated with a one-time event, such as the call of Saint Matthew. But even for Matthew, that call was only the beginning, the moment when he started following Jesus. For Matthew, as for all the saints, his conversion lasted a lifetime. Real conversion — repentance and turning toward God — is a process that happens daily. It is our continual yes to the Lord and the grace he offers us. In *A Life of Conversion*, Derek Rotty walks through eight Gospel passages that reveal essential lessons about conversion. Through these stories from Scripture, you will encounter Christ again and again, and, with him as your model, you'll be drawn into a deeper relationship with the master of conversion. Each chapter includes reflection questions that are perfect for both individual and group study. ABOUT THE AUTHOR Derek

Rotty is a husband and father. For more than a decade, he has ministered in Catholic parishes, helping children, teens, and adults find deeper encounters and relationships with Jesus. He currently serves as Director of Evangelization and Discipleship at St. Mary's Catholic Church in Jackson, Tennessee. He has written for The Catechetical Review, Crisis Magazine, Catholic Exchange, and the West Tennessee Catholic. To learn more, visit [www.derekrotty.com](http://www.derekrotty.com).

**Monastic Practices** Charles Cummings, 2015-12-07 For three decades, *Monastic Practices* has been a valued resource for English-speaking aspirants to monastic life. In this revised edition, updated and expanded, Charles Cummings, OCSO, explores the common practices of the monastic life in order to rediscover them as viable means of leading persons to a deeper encounter with God. How do monks and nuns occupy themselves throughout the day? Have they modernized their lifestyle or is it still cluttered with medieval customs? Could any of the monastic practices be of use to those outside the monastery? A certain wisdom is necessary to know how to use such practices and how to give oneself to them until they lead one to God. After long monastic experience, Cummings shows us how the ordinary things we do constitute our path to God. In the art of living life, he argues, we are always beginners, searching for God through our concrete circumstances and actions.

**Between Two Worlds: The autos sacramentales of Sor Juana Inés de la Cruz** Amy Fuller, 2015-06-12 The seventeenth-century Mexican poet, playwright and nun, Sor Juana Inés de la Cruz, is best known for her secular works, most notably her damning indictment of male double standards, *Hombres necios* (Stupid Men). However, her *autos sacramentales* (allegorical one-act plays on the Eucharist) have received little attention, and have only been discussed individually and out of sequence. By examining them as a collection, in their original order, their meaning and importance are revealed. □ The *autos* combine Christian and classical 'pagan' imagery from the 'Old World' with the conquest and conversion of the 'New World'. As the plays progress, the mystery of Christ's 'greatest gift' to mankind is deciphered and is mirrored in Spain's gift of the True Faith to the indigenous Mexicans. Sor Juana's own image is also situated within this baroque landscape: presented as a triumph of Spanish imperialism, an exotic muse between two worlds.

**Debating Christian Religious Epistemology** John M. DePoe, Tyler Dalton McNabb, 2020-02-06 What does it mean to believe in God? What passes as evidence for belief in God? What issues arise when considering the rationality of belief in God? *Debating Christian Religious Epistemology* introduces core questions in the philosophy of religion by bringing five competing viewpoints on the knowledge of God into critical dialogue with one another. Each chapter introduces an epistemic viewpoint, providing an overview of its main arguments and explaining why it justifies belief. The validity of that viewpoint is then explored and tested in a critical response from an expert in an opposing tradition. Featuring a wide range of different philosophical positions, traditions and methods, this introduction: - Covers classical evidentialism, phenomenal conservatism, proper functionalism, covenantal epistemology and traditions-based perspectivalism - Draws on MacIntyre's account of rationality and ideas from the Analytic and Conservatism traditions - Addresses issues in social epistemology - Considers the role of religious experience and religious texts Packed with lively debates, this is an ideal starting point for anyone interested in understanding the major positions in contemporary religious epistemology and how religious concepts and practices relate to belief and knowledge.
