Health and Human Security in the Mano River Union Mohamed Saliou Camara,2020-07-15 This book is a study of the challenges facing the Mano River Union (MRU) countries of Liberia, Sierra Leone, Guinea, and Côte d'Ivoire, with respect to health security and human security. The study is conducted against the backdrop of the 2014-2016 Ebola outbreak in Guinea, Liberia, and Sierra Leone, and in conjunction with the impact on human security of the civil wars that engulfed Liberia, Sierra Leone, and Côte d'Ivoire in recent decades. The author explores the state of public health and national health systems across the sub-region with a view to identifying the underlying institutional and societal challenges facing each nation-state, as well as the potential for enhancing national health systems and creating an integrated regional system of health security. Furthermore, the author examines the challenges facing the MRU countries in the broader context of human security which encompasses physical and mental health; food security; environmental security; political security including law and order; and community security, such as the protection and empowerment of vulnerable segments of the population. The author concludes by recommending deeper regional integration, supranational governance and sovereign collective self-reliance within the Economic Community of West African States (ECOWAS) as the most viable strategic approach to the pervasive health and human security challenges in West Africa.

Fadó Rónán Gearóid Ó Domhnaill,2013-11-01 With Fadó, long forgotten about episodes from Irish history are presented in easy to follow short chapters. Who was Crom Cruach and what are Holy Wells? Who were the priest catchers and why were corpses stolen? How did a Cork woman become a feared pirate of the Caribbean and why is William Melville not loved by all in his native county? For such a small island, Ireland has history and archaeology in abundance and much of this is often only known to people in the locality. The author has travelled the island extensively and researched long forgotten characters and events, some of whom are stranger than fiction. Irish men and women of all hues and generations are examined here as the reader is guided through a land of heroes and villains, saints and scholars, pestilence and prosperity. Fadó is a book that can be read with ease and the author's passion for his subject is infectious. It is a must read for anyone interested in Irish history.

Genesis of the Shakespearean Works Peter D Matthews,2017-06-11 This book is the result of fourteen years research scrutinizing thousands of historical documents. Dr Matthews reveals never before seen facts regarding the earliest quartos and the first folio – even new research into the leather cover of the Bodleian first folio and how that particular copy came into the possession of the Turbutt family. Dr Matthews has forensically dated the majority of the Shakespearean plays twenty years before earlier scholars, such as Rowe, Malone and Chambers – some plays dated as early as 1561, 1559 and 1558 – up to six years before William Shakespeare was born. Dr Matthews' exemplary philosophical dissertation of the Shakespearean works and its critics, reveals much about the identity of the real authors. A unique reference work essential to Shakespearean scholars and students alike – this crucial work redates the Shakespearean works, scrutinizes each candidate, and definitively answers the authorship debate.

Constitutional Adjudication in Africa Charles Manga Fombad,2017 Since the 1990 wave of constitutional reforms in Africa, the role of constitutional courts or courts exercising the power to interpret and apply constitutions have become a critical aspect to the on-going process of constitutional construction, reconstruction, and maintenance. These developments appear, at least from the texts of the revised or new constitutions, to have resulted in fundamental changes in the nature and role of courts exercising jurisdiction in constitutional matters. The chapters in this second volume of the Stellenbosch Handbooks in African Constitutional Law series are the first to undertake a critical and comparative examination of the interplay of the diverse forms of constitutional review models on the continent. Comparative analysis is particularly important given the fact that over the last two decades, constitutional courts in Africa have been asked to decide a litany of hotly-contested and often sensitive disputes of a social, political, and economic nature. As the list of areas in which these courts have intervened has grown, so too have their powers, actual or potential. By identifying and examining the different models of constitutional review adopted, these chapters consider the extent to which these courts are contributing to enhancing constitutionalism and respect for the rule of law on the continent. The chapters show how the long-standing negative image of African courts is slowly changing. The courts have in responded in different ways to the variety of constraints, incentives, and opportunities that have been provided by the constitutional reforms of the last two decades to act as the bulwark against authoritarianism, and this provides a rich field for analysis, filling an important gap in the literature of contemporary comparative constitutional adjudication.

Dewigged, Bothered, and Bewildered John McLaren,2011-01-01 Throughout the British colonies in the nineteenth century, judges were expected not only to administer law and justice, but also to play a significant role within the governance of their jurisdictions. British authorities were consequently concerned about judges' loyalty to the Crown, and on occasion removed or suspended those who were found politically subversive or personally difficult. Even reasonable and well balanced judges were sometimes threatened with removal. Using the career histories of judges who challenged the system, Dewigged, Bothered, and Bewildered illuminates issues of judicial tenure, accountability, and independence throughout the British Empire. John McLaren closely examines cases of judges across a wide geographic spectrum – from Australia to the Caribbean, and from Canada to Sierra Leone – who faced disciplinary action. These riveting stories provide helpful insights into the tenuous position of the colonial judiciary and the precarious state of politics in a variety of British colonies.

1847 Turtle Bunbury,2016-09-09 Capture the spirit of an industrial, social and cultural revolution through this invigorating collection of historical portraits from the dawn of the industrialised world! Though it feels like an era marooned almost irretrievably in the distant past, the 1840s – a decade of blistering social and cultural change – is only two lifetimes removed from the present day. There are, in other words, people alive today who knew and associated with people for whom the Gold Rush and the Great Famine were living memories. Having grown up in an Irish country house built that year, 1847 has long proven the source of inspiration and fascination for historian Turtle Bunbury. And in a bid to once more grasp the spirit of the age, he has over the years assembled an archive of the most remarkable stories from those twelve momentous months. Bristling with all manner of human life and endeavour, from American pioneers and German

entrepreneurs to circus charlatans and down-and-out songwriters, 1847 is a collection of his most remarkable discoveries to date and a stirring portrait of a chaotic world surging towards the modern. By turns poignant, outlandish, curious and provocative, this is history at its most invigorating – as panorama, as epic. Praise for *The Glorious Madness*: 'An absolutely brilliant book.' Patrick Geoghegan, Associate Professor in History at Trinity College, Dublin 'Turtle Bunbury's open-handed, clear-sighted and finely written book comes fresh and, I might almost say, redeemed out of the moil and storm of controversy that surrounded the topic of the war, in a thousand different guises in the decades since its end. Turtle holds out his hand in the present, seeking the lost hands of the past, in darkness, in darkness, but also suddenly in the clear light of kindness – in the upshot acknowledging their imperilled existence with a brilliant flourish, a veritable banner, of wonderful stories.' Sebastian Barry, author of *The Secret Scripture* 'Turtle continues the wonderful listening and yarn-spinning he has honed in the *Vanishing Ireland* series, applying it to veterans of the First World War. The stories he recreates are poignant, whimsical and bleakly funny, bringing back into the light the lives of people who found themselves on the wrong side of history after the struggle for Irish independence. This is my kind of micro-history.' John Grenham, *The Irish Times* Praise for *Vanishing Ireland*: 'A perfect symbiosis between text and images – both similarly affectionate, respectful, humorous, slightly melancholic but never sentimental or nostalgic. This is invaluable social history.' *Cara Magazine* 'This is a beautiful and remarkably simple book that will melt the hardest of hearts. Bunbury has a light writing style that lets his interviewees, elderly folk from around the country, tell their stories without interference. It's neither patronising nor overly romantic about the past; just narrating moving tales – The portraits by Fennell are striking, warm and dignified, with a feeling of being invited into people's lives.' *The Sunday Times*

Privacy, Due Process and the Computational Turn Mireille Hildebrandt, Katja de Vries, 2013-06-03 Privacy, Due process and the Computational Turn: The Philosophy of Law Meets the Philosophy of Technology engages with the rapidly developing computational aspects of our world including data mining, behavioural advertising, iGovernment, profiling for intelligence, customer relationship management, smart search engines, personalized news feeds, and so on in order to consider their implications for the assumptions on which our legal framework has been built. The contributions to this volume focus on the issue of privacy, which is often equated with data privacy and data security, location privacy, anonymity, pseudonymity, unobservability, and unlinkability. Here, however, the extent to which predictive and other types of data analytics operate in ways that may or may not violate privacy is rigorously taken up, both technologically and legally, in order to open up new possibilities for considering, and contesting, how we are increasingly being correlated and categorized in relationship with due process – the right to contest how the profiling systems are categorizing and deciding about us.

Liberia's Political Economy Stephen H. Gobewole, 2016-09-29 Ever since it was founded for freed blacks in the early 1800s, Liberia has been a country of extremes, whether comparing wealth and poverty; the lifestyles of urban elites and rural tribal communities; or corrupt national government and familial trust. This book uses Liberia's history as the background and ongoing source of the current political and social situations, as revealed by Afrobarometer data. The study considers the ethnicity, gender, and residential location of Liberian citizens and their attitudes regarding the country's rule of law, state authority and democratic accountability – it's government and economic health. After presenting the history and the current data, the author makes recommendations for changing the future of this African nation. If implemented, these changes could have a profound and positive effect on the future of this country that is rated as the third-poorest in the world.

Marx Matters, 2022-01-17 In *Marx Matters* noted scholars explore the way a Marxian political economy addresses contemporary social problems, demonstrating the relevance of Marx today and outlining how his work can frame progressive programs for social change.

The Unmaking of Arab Socialism Ali Kadri, 2016-10-01 Conditions of malnutrition, conflict, or a combination of both characterize many Arab countries, but this was not always so. As in much of the developing world, the immediate post-independence period represented an age of hope and relative prosperity. But imperialism did not sleep while these countries developed, and it soon intervened to destroy these post-independence achievements. The two principal defeats and losses of territory to Israel in 1967 and 1973, as well as the others that followed, left in their wake more than the destruction of assets and the loss of human lives: the Arab World lost its ideology of resistance. *The Unmaking of Arab Socialism* is an attempt to understand the reasons for Arab world's developmental descent from the pinnacle of Arab socialism to its present desolate conditions through an examination of the post-colonial histories of Egypt, Syria, and Iraq.

Atlantic Bonds Lisa A. Lindsay, 2016-12-22 A decade before the American Civil War, James Churchwill Vaughan (1828–1893) set out to fulfill his formerly enslaved father's dying wish that he should leave America to start a new life in Africa. Over the next forty years, Vaughan was taken captive, fought in African wars, built and rebuilt a livelihood, and led a revolt against white racism, finally becoming a successful merchant and the founder of a wealthy, educated, and politically active family. Tracing Vaughan's journey from South Carolina to Liberia to several parts of Yorubaland (present-day southwestern Nigeria), Lisa Lindsay documents this free man's struggle to find economic and political autonomy in an era when freedom was not clear and unhindered anywhere for people of African descent. In a tour de force of historical investigation on two continents, Lindsay tells a story of Vaughan's survival, prosperity, and activism against a seemingly endless series of obstacles. By following Vaughan's transatlantic journeys and comparing his experiences to those of his parents, contemporaries, and descendants in Nigeria and South Carolina, Lindsay reveals the expansive reach of slavery, the ambiguities of freedom, and the surprising ways that Africa, rather than America, offered new opportunities for people of African descent.

Youth and Sport for Development Holly Collison, 2016-06-29 Processes of development concerning reconciliation, rehabilitation and peace-building have become a central theme for global organizations tasked with intervening in broken and divided societies after violent conflicts. What can reunite populations divided by war and violence whilst attempting to build a peaceful civil society? This book considers the impact and value of sport, notably football, towards achieving this goal. Using extensive fieldwork from Liberia, Collison highlights the multiple and diverse stakeholders and actors aligning themselves with 'Sport for Development and Peace' interventions. By unpacking and conceptualising the ambiguous terminology, complex social effects and the lived experience of SDP, this book draws upon participant voices and the author's own lived experience within SDP to gain symbolic understandings of culture, identity and the formal and informal social structures in which participants and interventions operate. Collison identifies that SDP has become fashionable within development agendas but it remains an aspirational image, a notion of seduction, rather than a tested method of reintegration and youth development in post-conflict environments. *Youth and Sport for Development* questions the assumptions of SDP rhetoric and programs, and traces the effects of football – the favoured vehicle of SDP – on youth in post-conflict Liberia. Examining three core themes: post-conflict development, youth and community, this book centralises the narratives of young football players in Liberia and will appeal to scholars across Anthropology, Sociology, Sports Studies, Politics and Development.

The Neoliberal Pattern of Domination José Manuel Sánchez Bermúdez, 2012-06-21 An examination of the domination of neoliberal capital, showing how it renders impossible the unity of human beings dispossessed from the means of production and subsistence. Left unchallenged, capital confines large masses to a life of exploitation, domination, and bare subsistence as the majority

remain divided and predisposed to infighting.

Young People and the Belt and Road Opportunities and Challenges in Central and Eastern Europe Young Belt And Road Series English Editorial Board,2021-01-01 Young People and the Belt and Road is a joint effort by over 40 young people across 20 countries to tell their stories about the future of Central and Eastern Europe, China, and the Belt and Road Initiative. In 2013, the Belt and Road Initiative, which envisions a world with better development, better connectivity, and better cooperation was launched in Kazakhstan,. As a global, multi-generational vision, the Belt and Road Initiative will primarily benefit the young people of the world today. To ensure the success of the Initiative, their voices need to be heard. This is particularly urgent as little systematic work has been done to encourage the participation of young people. This publication places the focus on young people and asks them the question: what should the Belt and Road Initiative look like for you? In this book, young authors from 16 Central and Eastern European nations share insights about their countries. For the Belt and Road Initiative, Central and Eastern Europe plays a critical role in linking together Western Europe, Northern Europe, Central Asia, and East Asia. Each chapter focuses on a single country in the region. Based on the complex historical background and present realities of their respective countries, the authors present their cases of the potential obstacles and opportunities related to the Initiative and provide their suggestions for change. 2020年4月出版 16位作者共同撰写 90万字 2020年4月出版
