The Pope who Would be King David I. Kertzer, 2018 Days after the assassination of his prime minister in the middle of Rome in November 1848, Pope Pius IX found himself a virtual prisoner in his own palace. The wave of revolution that had swept through Europe now seemed poised to put an end to the popes' thousand-year reign over the Papal States, if not indeed to the papacy itself. Disguising himself as a simple parish priest, Pius escaped through a back door. Climbing inside the Bavarian ambassador's carriage, he embarked on a journey into a fateful exile. Only two years earlier Pius's election had triggered a wave of optimism across Italy. After the repressive reign of the dour Pope Gregory XVI, Italians saw the youthful, benevolent new pope as the man who would at last bring the Papal States into modern times and help create a new, unified Italian nation. But Pius found himself caught between a desire to please his subjects and a fear--stoked by the cardinals--that heeding the people's pleas would destroy the church. The resulting drama--with a colorful cast of characters, from Louis Napoleon and his rabble-rousing cousin Charles Bonaparte to Garibaldi, Tocqueville, and Metternich--was rife with treachery, tragedy, and international power politics. David Kertzer is one of the world's foremost experts on the history of Italy and the Vatican, and has a rare ability to bring history vividly to life. With a combination of gripping, cinematic storytelling, and keen historical analysis rooted in an unprecedented richness of archival sources, *The Pope Who Would Be King* sheds fascinating new light on the end of rule by divine right in the west and the emergence of modern Europe.

**Home and Away** David Owen, Lesley Peterson, 2016-02-08 *Home and Away: The Place of the Child Writer* is an important contribution to the fast-growing and rapidly evolving field of literary juvenilia studies. This collection of essays by fifteen scholars is the first in this area to be published in the past decade. To reflect recent developments, *Home and Away* both theorises the current state of this richly interdisciplinary academic field and exemplifies juvenilia studies in action. An authoritative review of the origins and future of literary juvenilia studies is followed by a collection of essays on individual authors. Wide-ranging in literary periods covered, geographical regions represented, and methodological approaches employed, the collection is organized around the basic tenet that the familiar world of home and the as-yet-untravelled territory of adulthood are both important to the imaginations of juvenile authors. The relationships and

values of the parental home, the topography of the home place, the literature and lives that first fired their imaginations as children, find expression in young writers' works. So too do the unfamiliar or extra-familiar connections, lifestyles, landscapes, and literature that the child writer anticipates, imagines, or invents, whether as a means of temporary escape while still at home, or as a process of preparing for adulthood and artistic maturity.

**The Way Of The Master** Ray Comfort,2006-04-12 Jesus was not afraid to shake people up. He spoke openly of their sinful nature and the righteousness of God. If they died tonight, where would they spend eternity? Do...

**Mining the Web** Soumen Chakrabarti,2002-10-16 Mining the Web: Discovering Knowledge from Hypertext Data is the first book devoted entirely to techniques for producing knowledge from the vast body of unstructured Web data. Building on an initial survey of infrastructural issues—including Web crawling and indexing—Chakrabarti examines low-level machine learning techniques as they relate specifically to the challenges of Web mining. He then devotes the final part of the book to applications that unite infrastructure and analysis to bring machine learning to bear on systematically acquired and stored data. Here the focus is on results: the strengths and weaknesses of these applications, along with their potential as foundations for further progress. From Chakrabarti's work—painstaking, critical, and forward-looking—readers will gain the theoretical and practical understanding they need to contribute to the Web mining effort. \* A comprehensive, critical exploration of statistics-based attempts to make sense of Web Mining. \* Details the special challenges associated with analyzing unstructured and semi-structured data. \* Looks at how classical Information Retrieval techniques have been modified for use with Web data. \* Focuses on today's dominant learning methods: clustering and classification, hyperlink analysis, and supervised and semi-supervised learning. \* Analyzes current applications for resource discovery and social network analysis. \* An excellent way to introduce students to especially vital applications of data mining and machine learning technology.

**Exploring Heavenly Places - Volume 7 - Discernment Encyclopedia for God's Spiritual Creation** Paul Cox,Barbara Parker,2017-09-20 This is perhaps one of

the most unusual books in the world! Taking over twenty-six years to develop, it documents the spiritual realities of the heavenly places as mentioned in the Bible. In a stunning departure from traditional and commonly accepted theological views, the authors acknowledge what the Word of God so clearly articulates; just as the physical world contains a wide variety of beings and other created things, so does the spiritual world. Within the pages of this book you will find over 100 entries that clearly identify multiple aspects of the Holy Trinity, as well as diverse and unique spiritual beings, entities and places. This resource will help you learn how to discern each entry by observing how others are able to sense each spiritual reality with the five physical senses; it is a tool that will train you to know what the Father is doing in the heavenly places so you can model Jesus' life on earth.

**Blurred Nationalities across the North Atlantic** Luca Codignola, 2019-01-02 Long before the mid-nineteenth century, thousands of people were frequently moving between North America – specifically, the United States and British North America – and Leghorn, Genoa, Naples, Rome, Sicily, Piedmont, Lombardy, Venice, and Trieste. Predominantly traders, sailors, transient workers, Catholic priests, and seminarians, this group relied on the exchange of goods across the Atlantic to solidify transatlantic relations; during this period, stories about the New World passed between travellers through word of mouth and letter writing. *Blurred Nationalities across the North Atlantic* challenges the idea that national origin – for instance, Italianness – constitutes the only significant feature of a group's identity, revealing instead the multifaceted personalities of the people involved in these exchanges.

**Crime Analysis With Crime Mapping** Rachel Boba Santos, 2012-02-29 In this text, Santos (criminal justice, Florida Atlantic U.) covers theories, practice, data, and analysis techniques associated with crime mapping and crime analysis. Part 3 describes the data, techniques, and products of tactical crime analysis, and part 4 explains techniques used in analyzing long-term crime and disorder problems, offering case examples. Part 5 considers administrative crime analysis. Revised to reflect current research and methods, this third edition provides a new typology that categorizes crime analysis results by the type of problem examined, the purpose of the analysis, and the type of audience for which the results are produced. Also new are profiles of professionals. The text is illustrated with b&w and two-color charts, maps, and aerial photos. The student website provides police reports, links to journal articles, and a link to ATAC software, which allows students to conduct crime analysis themselves. The instructor website offers tests, slides, syllabi, and assignments. Annotation ©2012 Book News, Inc., Portland, OR (booknews.com).
