Encyclopedia of Digital Government Anttiroiko, Ari-Veikko,Malkia, Matti,2006-07-31 Containing more than 250 articles, this three-volume set provides a broad basis for understanding issues, theories, and applications faced by public administrations and public organizations, as they strive for more effective government through the use of emerging technologies. This publication is an essential reference tool for academic, public, and private libraries.

SQL Tuning Dan Tow,2003-11-19 A poorly performing database application not only costs users time, but also has an impact on other applications running on the same computer or the same network. SQL Tuning provides an essential next step for SQL developers and database administrators who want to extend their SQL tuning expertise and get the most from their database applications. There are two basic issues to focus on when tuning SQL: how to find and interpret the execution plan of an SQL statement and how to change SQL to get a specific alternate execution plan. SQL Tuning provides answers to these questions and addresses a third issue that's even more important: how to find the optimal execution plan for the query to use. Author Dan Tow outlines a timesaving method he's developed for finding the optimum execution plan--rapidly and systematically--regardless of the complexity of the SQL or the database platform being used. You'll learn how to understand and control SQL execution plans and how to diagram SQL queries to deduce the best execution plan for a query. Key chapters in the book include exercises to reinforce the concepts you've learned. SQL Tuning concludes by addressing special concerns and unique solutions to unsolvable problems. Whether you are a programmer who develops SQL-based applications or a database administrator or other who troubleshoots poorly tuned applications, SQL Tuning will arm you with a reliable and deterministic method for tuning your SQL queries to gain optimal performance.

Non-State Rules in International Commercial Law Johanna Hoekstra,2021-03-15 Through further technological development and increased globalization, conducting business abroad has become easier, especially for Small and Medium Enterprises (SME). However, the legal issues associated with international commerce have not lessened in complexity, including the role of non-state rules. The book provides a comprehensive analysis of non-state rules in international commercial contracts. Non-state rules have legal authority in the national and international sphere, but the key question is how this legal authority can be understood and established. To answer this question this book examines first what non-state rules are and how their legal authority can be measured, it then analyses how non-state rules are applied in different scenarios, including as the applicable law, as a source of law, or to interpret either the law or the contract. Throughout this analysis three other important questions are also answered: when can non-state rules be applied? when are they applied? and how are they applied? The book concludes with a framework and classification that leads to a deeper understanding of the legal authority of non-state rules. Providing a transnational perspective on this important topic, this book will appeal to anyone researching international commercial law. It will also be a valuable resource for arbitrators and anyone working in international commercial litigation.

Mission in the Catholic Magisterium La Civiltà Cattolica,2022-02-08 A collection of 9 articles from the February 2020 edition of La Civiltà Cattolica, the highly respected and oldest Catholic journal published from Rome. Maximum Illud, considered as the Magna Carta of modern missions, has a strong message: the condemnation of nationalism and the desire to break the link between missionary activities and political colonialism. Bryan Lobo, SJ reviews the missiological journey the Catholic Church has made from the promulgation of Maximum Illud in 1919 to Evangelii Gaudium in 2013. Cultural Anemia is a term to describe the arrogance and superficiality that traverse our society. Even though the Church tries to promote cultural commitment, she is always misunderstood because of the prejudices. Giandomenico Mucci, SJ says vigorous therapy is necessary to treat an anemia that threatens to bring the end of an era. Forty years after the publication of Václav Havel's book The Power of the Powerless, Francesco Occhetta, SJ highlights its lessons that are relevant even today about the relationships between politics and power, and between the truth and the lies of ideologies. Pope Francis penned a letter to priests to thank and encourage them, urging them to renew their priestly courage and place themselves in the heart of the Church. Diego Fares SJ considers the important elements in Pope's letter in Experience Being Disciples: The Letter of Pope Francis to Priests.

International Business Law Mark Fenwick,Stefan Wr̀bka,2018-07-12 This book provides an accessible introduction to selected new issues in transnational law, and connects them to existing theoretical debates on transnational business regulation. More specifically, (i) it introduces the argument about the evolving character of contemporary international business regulation; (ii) it provides an overview of some of the main fields of law that are currently important for firms that operate across borders; and (iii) it sets out an interpretive framework for making sense of disparate developments occurring across a number of jurisdictions, among which are the form of regulation and style of enforcement, issues of legal certainty, and behavioural aspects of regulation. The selected topics are indicative of some key issues confronting businesses looking to operate across national borders, as well as policy makers seeking to introduce and enforce meaningful regulatory standards in an increasingly global society. Topics include: consumer law; product liability; warranty law and obsolescence; collective redress; alternative dispute resolution; corporate wrongdoing; corporate governance; and e-commerce. This timely work offers a novel perspective on transnational business law and examines a range of legal issues that preoccupy companies operating transnationally. This book is intended not only for law students looking for an introduction, overview or commentary on the contemporary state of international business law, but also for anyone looking for an introduction to the regulation of business in a global, inter-connected economy.

Georgia O'Keeffe, A Private Friendship, Part I Nancy Hopkins Reily,2017-02-01 The time is 1887. From any window in Georgia O'Keeffe's Sun Prairie, Wisconsin birthplace home she only saw the Wisconsin prairie with its traces of roads veering around the flat marshlands and a vast sky that lifted her soul. At twelve years of age Georgia had a defining moment when she declared, "I want to be an artist." Years later from her east-facing window in Canyon, Texas she observed the Texas Panhandle sky with its focus points on the plains and a great canyon of earth history colors streaking across the flat land. Georgia's love of the vast, colorful prairie, plains and sky again gave definition to her life when she discovered Ghost Ranch north of Abiquiú, New Mexico. She fell prey to its charms which were not long removed from the echoes of the "Wild West." These views of prairie, plains and sky became Georgia's muses as she embarked on her step-by-step path with her role models—Alon Bement, Arthur Jerome Dow and Wassily Kandinsky. In this two-part biography of which this is Part I covering the period 1887–1945, Nancy

Hopkins Reily “walks the Sun Prairie Land,” as if in Georgia’s day as a prologue to her family’s friendship with Georgia in the 1940s and 1950s. Reily chronicles Georgia’s defining days within the arenas of landscape, culture, people and the history surrounding each, a discourse level that Georgia would easily recognize.

Think Bayes Allen B. Downey,2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

Human-Robot Interaction Strategies for Walker-Assisted Locomotion Carlos A. Cifuentes,Anselmo Frizera,2016-06-04 This book presents the development of a new multimodal human-robot interface for testing and validating control strategies applied to robotic walkers for assisting human mobility and gait rehabilitation. The aim is to achieve a closer interaction between the robotic device and the individual, empowering the rehabilitation potential of such devices in clinical applications. A new multimodal human-robot interface for testing and validating control strategies applied to robotic walkers for assisting human mobility and gait rehabilitation is presented. Trends and opportunities for future advances in the field of assistive locomotion via the development of hybrid solutions based on the combination of smart walkers and biomechatronic exoskeletons are also discussed.

Anticipare il futuro della Cina Antonio Spadaro,2020-11-23 Il presente ebook intende rendere omaggio al vescovo gesuita Aloysius Jin Luxian, descrivendone il profilo spirituale. Oltre che sulla celebrazione dei sacramenti, Jin ha insistito sulla necessità di sviluppare gli altri due compiti principali della Chiesa, cioè l’annuncio del Vangelo dell’amore e dell’unità in mezzo a un mondo e a una Chiesa divisi, e il servizio ai poveri. Ispirato profondamente dal missionario gesuita p. Matteo Ricci e dal suo amico Xu Guangqi, il vescovo Jin ha esortato la Chiesa a diventare uno strumento di pace e di riconciliazione attraverso un processo di inculturazione in Cina.«Amore per la patria, amore per il popolo, amore per la Chiesa... sono i capitoli centrali della lettera pastorale scritta dal vescovo Jin Luxian in onore di Xu Guangqi. È evidente che in questo grande modello, che ripropone ai suoi fedeli, si rispecchia anche il suo ideale personale, il giusto atteggiamento che indica ai cattolici cinesi la via maestra per il rapporto corretto e fecondo fra la Chiesa e il Paese. Essere pienamente cattolici e pienamente cinesi» (Card. Luis Antonio Gokim Tagle).

Economic Integration and the Investment Climates in ASEAN Countries ASEAN Studies Center,2009 In November 2008, Center for Asia-Pacific Area Studies (CAPAS), Academia Sinica, Taiwan, the ASEAN Studies Centre (ASC), Institute of Southeast Asian Studies (ISEAS), Singapore, and the Taiwan Institute of Economic Research (TIER) organized a symposium in Taipei on ASEAN-Taiwan economic relations. The symposium concluded that while a free trade agreement between Taiwan and ASEAN was not, for political reasons, possible at the moment, Taiwan businesses could take part in the ASEAN regional integration process. Involvement in ASEANs production chain would give Taiwanese enterprises access to other markets Australia, New Zealand, India, Japan, etc. The symposium also concluded that to strengthen ASEAN-Taiwan relations, a Taiwan-ASEAN business council could be formed among Taiwanese companies doing business in ASEAN. However, ASEAN needed to provide the appropriate environment including schools and medical facilities for Taiwanese investors and managers. Information on ASEAN countries and doing business in them should be readily available, especially in Chinese, as many Taiwanese investors had limited grasp of the English language.

The Global Economic Crisis Asean Studies Center,2010 In June 2009, the ASEAN Studies Centre of the Institute of Southeast Asian Studies and the Konrad Adenauer Stiftung organized ISEAS' annual roundtable, this time on the subject of The Global Economic Crisis: Implications for ASEAN. The roundtable concluded that the crisis had a significant impact on the region, and ASEAN needed to have a better co-ordinated approach if it was to weather the storm. The region had taken into account the fact that the developed countries like the US and the EU would take a longer time to come out of the crisis. Hence, while export-led growth policies had served the region well in the past, governments now had to adopt policies that were oriented more to the domestic or regional markets. Another conclusion of the roundtable had to do with the notion of security. The current economic crisis was considered as a new kind of insecurity. Hence, the future treatment of regional security should be reconceptualized, so that there could be better prospects of anticipating future threats from the economic realm. Lastly, the roundtable judged that ASEAN had not fully addressed the implications of the current crisis on the poor. In the light of the tendency of the crisis to push increasing number of people to become poor, ASEAN cooperation in labour and social protection needed to aim at preventing the crisis from causing further social damage.

Counterterrorism and Cybersecurity Newton Lee,2013-04-15 Imagine James Bond meets Sherlock Holmes: Counterterrorism and Cybersecurity is the sequel to Facebook Nation in the Total Information Awareness book series by Newton Lee. The book examines U.S. counterterrorism history, technologies, and strategies from a unique and thought-provoking approach that encompasses personal experiences, investigative journalism, historical and current events, ideas from great thought leaders, and even the make-believe of Hollywood. Demystifying Total Information Awareness, the author expounds on the U.S. intelligence community, artificial intelligence in data mining, social media and privacy, cyber attacks and prevention, causes and cures for terrorism, and longstanding issues of war and peace. The book offers practical advice for businesses, governments, and individuals to better secure the world and protect cyberspace. It quotes U.S. Navy Admiral and NATO’s Supreme Allied Commander James Stavridis: “Instead of building walls to create security, we need to build bridges.” The book also provides a glimpse into the future of Plan X and Generation Z, along with an ominous prediction from security advisor Marc Goodman at TEDGlobal 2012: “If you control the code, you control the world.” Counterterrorism and Cybersecurity: Total Information Awareness will keep you up at night but at the same time give you some peace of mind knowing that “our problems are manmade — therefore they can be solved by man [or woman],” as President John F. Kennedy said at the American University commencement in June 1963.

Nuclear War Survival Skills Cresson H. Kearny,2016-01-19 A field-tested guide to surviving a nuclear attack, written by a revered civil defense expert. This edition of Cresson H. Kearny’s iconic Nuclear War Survival Skills (originally published in 1979), updated by Kearny himself in 1987 and again in 2001, offers expert advice for ensuring your family’s safety should the worst come to pass. Chock-full of practical instructions and preventative measures, Nuclear War Survival Skills is based on years of meticulous scientific research conducted by Oak Ridge National Laboratory. Featuring a new introduction by ex-Navy SEAL Don Mann, this book also includes: instructions for six

different fallout shelters, myths and facts about the dangers of nuclear weapons, tips for maintaining an adequate food and water supply, a foreword by “the father of the hydrogen bomb,” physicist Dr. Edward Teller, and an “About the Author” note by Eugene P. Wigner, physicist and Nobel Laureate. Written at a time when global tensions were at their peak, Nuclear War Survival Skills remains relevant in the dangerous age in which we now live.
