**SQL Tuning** Dan Tow, 2003-11-19 A poorly performing database application not only costs users time, but also has an impact on other applications running on the same computer or the same network. SQL Tuning provides an essential next step for SQL developers and database administrators who want to extend their SQL tuning expertise and get the most from their database applications. There are two basic issues to focus on when tuning SQL: how to find and interpret the execution plan of an SQL statement and how to change SQL to get a specific alternate execution plan. SQL Tuning provides answers to these questions and addresses a third issue that's even more important: how to find the optimal execution plan for the query to use. Author Dan Tow outlines a timesaving method he's developed for finding the optimum execution plan--rapidly and systematically--regardless of the complexity of the SQL or the database platform being used. You'll learn how to understand and control SQL execution plans and how to diagram SQL queries to deduce the best execution plan for a query. Key chapters in the book include exercises to reinforce the concepts you've learned. SQL Tuning concludes by addressing special concerns and unique solutions to unsolvable problems. Whether you are a programmer who develops SQL-based applications or a database administrator or other who troubleshoots poorly tuned applications, SQL Tuning will arm you with a reliable and deterministic method for tuning your SQL queries to gain optimal performance.

Manifesto Ernesto Che Guevara, Friedrich Engels, Karl Marx, Rosa Luxemburg, 2015-04-10 "If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." – Adrienne Rich With a preface by Adrienne Rich, Manifesto presents the radical vision of four famous young rebels: Marx and Engels' Communist Manifesto, Rosa Luxemburg's Reform or Revolution and Che Guevara's Socialism and Humanity.

**History of Shock Waves, Explosions and Impact** Peter O. K. Krehl, 2008-09-24 This unique and encyclopedic reference work describes the evolution of the physics of modern shock wave and detonation from the earlier and classical percussion. The history of this complex process is first reviewed in a general survey. Subsequently, the subject is treated in more detail and the book is richly illustrated in the form of a picture gallery. This book is ideal for everyone professionally interested in shock wave phenomena.

*The Conscious Mind and the Material World* Douglas M. Stokes, 2007-05-16 What makes us who we are? From a scientific viewpoint, any individual's existence is improbable at best. Consciousness as an actuality is inarguable; its nature, however, remains elusive. This work argues the view of self as a field of pure consciousness, debating the existence of a continuing self and drawing conclusions about this entity and its relation to the physical body and the physical world. Beginning with an exploration of the relationship between mind and matter, it discusses ostensible psi phenomena such as extra-

sensory perception and psychokinesis and their implications for our understanding of the mind and the cosmos. Additional topics include the perennial mind-body problem; the role of consciousness in quantum mechanics (and conversely the role of quantum mechanics in the study of consciousness); the anthropic principle; and evidence for Intelligent Design. Quasi-religious questions such as the survival of consciousness after death are also addressed.

**Software-Defined Radio for Engineers** Alexander M. Wyglinski, Robin Getz, Travis Collins, Di Pu, 2018-04-30 Based on the popular Artech House classic, Digital Communication Systems Engineering with Software-Defined Radio, this book provides a practical approach to quickly learning the software-defined radio (SDR) concepts needed for work in the field. This up-to-date volume guides readers on how to quickly prototype wireless designs using SDR for real-world testing and experimentation. This book explores advanced wireless communication techniques such as OFDM, LTE, WLA, and hardware targeting. Readers will gain an understanding of the core concepts behind wireless hardware, such as the radio frequency front-end, analog-to-digital and digital-to-analog converters, as well as various processing technologies. Moreover, this volume includes chapters on timing estimation, matched filtering, frame synchronization message decoding, and source coding. The orthogonal frequency division multiplexing is explained and details about HDL code generation and deployment are provided. The book concludes with coverage of the WLAN toolbox with OFDM beacon reception and the LTE toolbox with downlink reception. Multiple case studies are provided throughout the book. Both MATLAB and Simulink source code are included to assist readers with their projects in the field.

**Insight Turkey 2018 □ □- Winter 2018 (Vol. 20, No.1)** , Today, the world system is in a transition and experiencing a deep international crisis. The U.S. has begun to oppose the basic international institutions such as the United Nations and its subsidiary organs and specialized agencies, even though most of these were established with American motivation. The hegemon state, the U.S., has been alienating most of its partners and even allies. The U.S. governments have begun to focus on the national setting and to underestimate the international one; to favor unilateral policies over multilateral ones. The presidency of Donald Trump has expedited this process. American rejection of providing global public goods such as international security and free trade has led to a systemic crisis. The relative decline of American power coincides with the persistent rise of China. Those who claim that the days of Pax-Americana are numbered assert that the rise of China will determine the future of the world system. China has begun to expand its influence worldwide. For this purpose it has established alternative political and economic international institutions such as the Shanghai Cooperation Organization (SCO) and the Asian Infrastructure Investment Bank (AIIB). Furthermore, China leads the establishment of some other international organizations as well. BRICS is only one of these formations challenging the political hegemony of the West, led by the U.S. One of the

most promising Chinese projects is the One Belt, One Road (OBOR) Project, aspiring to connect the East (China) to the West (the world markets). It is expected that, on its completion, the OBOR Project will take China to the center of the world economy and politics. China has been the fastest growing economy in the world for the last thirty years. Its share of the world trade has increased dramatically, recording the highest share in world exports for several years. China has been enjoying economic transactions with all major international actors with more than 200 partners in exports and imports. However, in terms of per capita income China still lags behind the advanced Western countries. Furthermore, according to the calculations made by the World Bank and IMF, Chinese per capita income is still lower than the world average. China recently began to invest in the political and military sphere in the non-Western world. It has military bases in its near abroad and in the African continent. That is, Chinese economic influence and technological leadership is supported by its political and military power. In spite of the increase in Chinese military and political might, it is careful not to challenge the U.S. and the West. There are several reasons for this policy. First of all, China is aware of its vulnerabilities. It suffers some economic and political inconsistencies and weaknesses. For instance, it has to fortify its regional dominance first in the South China Sea and achieve its longtime one-China policy as a precondition for a possible global hegemony. Second, China wants to win the global rivalry without resorting to war with the current hegemon. Therefore, Chinese leaders refrain from opposing the American hegemony politically. Even though it has introduced some international institutions, the Chinese leadership does not propose a political and diplomatic alternative to the West. It will take time for China to offer a full-scale global leadership alternative to the world, since the global hegemony requires not only economic and military power but also values and norms for cultural hegemony. Lastly, China is not ready to take the global responsibility, since it brings high costs. As long as the current American hegemony works in favor of China, there is no need for China to change the course of its development. In the light of these developments, this issue of Insight Turkey focuses on some of the most important topics related to China's persistent rise in the international system. More specifically, this issue postulates on how to read and understand China's policies towards global powers, i.e. the U.S. and Russia, and regional powers, i.e. India and Turkey. Africa has once again returned to the attention of the global powers after being left for many years in the shadow of western politics. In recent years, Africa has become the center of China's public, economic and military diplomacy. As it may be expected, China's investments in Africa are not totally 'welcomed' by the U.S. Earl Conteh-Morgan in his commentary focuses on the strategic rivalry between China and the U.S. in Africa. Conteh-Morgan argues that their rivalry has progressed from mild to intense, with both powers increasing their activities on the continent and decreasing Africa's erstwhile marginalization. Another rivalry that shapes China's foreign policies in the region is that with India. Especially, since the Doklam Plateau incident in mid-2017, the expectation of a possible tension between the two regional powers is ever present. Taking this into consideration Bruno Maçães, in his commentary, ponders the economic and strategic rivalry between China and India along with a number of dimensions: infrastructure, border disputes, sea power, and trade.

**Reading Children** Patricia Crain, 2016-05-02 What does it mean for a child to be a reader and how did American culture come to place such a high value on this identity? Reading Children offers a history of the relationship between children and books in Anglo-American modernity, exploring long-lived but now forgotten early children's literature, discredited yet highly influential pedagogical practices, the property lessons inherent in children's book ownership, and the emergence of childhood itself as a literary property. The nursery and schoolroom version of the social contract, Crain argues, underwrote children's entry not only into reading and writing but also into a world of commodity and property relations. Increasingly positioned as an indispensable form of cultural capital by the end of the eighteenth century, literacy became both the means and the symbol of children's newly recognized self-possession and autonomy. At the same time, as children's legal and economic status was changing, childhood emerged as an object of nostalgia for adults. Literature for children enacted the terms of children's self-possession, often with explicit references to property, contracts, or inheritances, and yet also framed adult longing for an imagined past called childhood. Dozens of colorful illustrations chart the ways in which early literature for children was transformed into spectacle through new image technologies and a burgeoning marketplace that capitalized on nostalgic fantasies of childhood conflated with bowdlerized fantasies of history. Reading Children offers new terms for thinking about the imbricated and mutually constitutive histories of literacy, property, and childhood in the eighteenth and nineteenth centuries that ground current anxieties and long-held beliefs about childhood and reading.

Wuthering Heights Emily Bronte, 2020-09-28 Wuthering Heights is the name of Mr. Heathcliff's dwelling. "Wuthering" being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date "1500," and the name "Hareton Earnshaw." I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory

lobby or passage: they call it here 'the house' pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

**The Landscape of Consumption** Clé Lesger, 2014-04-29 This volume brings together research on retailing, shopping and urban space; themes that have attracted wide interest in recent decades. The authors argue that the 'modernity' of the nineteenth century is often over-emphasised at the expense of recognising earlier innovation.

The Language and Imagery of Coma and Brain Injury Matthew Colbeck, 2021-04-22 What occurs within coma? What does the coma patient experience? How does the patient perceive the world outside of coma, if at all? The simple answer to these questions is that we don't know. Yet the sheer volume of literary and media texts would have us believe that we do. Examining representations of coma and brain injury across a variety of texts, this book investigates common tropes and linguistic devices used to portray the medical condition of coma, giving rise to universal mythologies and misconceptions in the public domain. Matthew Colbeck looks at how these texts represent, or fail to represent, long-term brain injury, drawing on narratives of coma survivors that have been produced and curated through writing groups he has run over the last 10 years. Discussing a diverse range of cultural works, including novels by Irvine Welsh, Stephen King, Tom McCarthy and Douglas Coupland, as well as film and media texts such as *The Sopranos*, *Kill Bill*, *Coma* and *The Walking Dead*, Colbeck provides an explanation for our fascination with coma. With a proliferation of misleading stories of survival in the media and in literature, this book explores the potential impact these have upon our own understanding of coma and its victims.

Midnight's Furies Nisid Hajari, 2015 The author describes how a few bloody months in South Asia during the summer of 1947—the Partition of India, which led to the creation of Pakistan—largely explain the world that troubles us today. 25,000 first printing. Illustrations.

*Hoosiers and the American Story* Madison, James H., Sandweiss, Lee Ann, 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the

East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

**Selected Letters of Vernon Lee, 1856 - 1935** Amanda Gagel,2016-10-26 Vernon Lee was the pen name of Violet Paget (1856–1935) – a prolific author best known for her supernatural fiction, her support of the Aesthetic Movement and her radical polemics. She was also an active letter writer whose correspondents include many well-known figures in fin de siècle intellectual circles across Europe. However, until now no attempt has been made to make these letters widely available in their complete form. This multi-volume scholarly edition presents a comprehensive selection of her English, French, Italian, and German correspondence – compiled from more than 30 archives worldwide – that reflect her wide variety of interests and occupations as a Woman of Letters and contributor to scholarship and political activism. Letters written in a language other than English have been expertly translated by scholars Sophie Geoffroy (from the French), Crystal Hall (from the Italian), and Christa Zorn (from the German). The edition focuses on those letters concerning the writing, ideas and aesthetics that influenced Lee's articles, books and stories. Full transcriptions of some 500 letters, covering the years 1856-1935, are arranged in chronological order along with a newly written introduction that explains their context and identifies the recipients, friends and colleagues mentioned. Since scholarship on Lee's critical and creative output is still in the beginning stages, these letters will serve a purpose to students and researchers in a number of academic fields. In this first volume, tracing the years 1856– 1884, the assembled letters cover the beginnings of her career, encompassing her first publication, visits to London and encounters with some of the important artistic figures of the time. As her career begins to blossom, the letters also reflect the expansion of her subject matter from cultural studies and art history to novels and aesthetic philosophy. Correspondents include Lee's parents, Matilda and Henry Paget; her brother the poet Eugene Lee-Hamilton; English poet Mary Robinson; English authors Henrietta Jenkin and Linda Villari; and Italian writers Enrico Nencioni, Mario Pratesi, and Angelo De Gubernatis, among others.
