IN THE 80S ,2017-10-01 'It was the best of times it was the worst of times.' Maligned, misunderstood and fetishized the 1980's stands as the decade when post-modern life began in the west, and London was at the epicenter of this shift. An explosion of creativity took place against a backdrop of radical social change. London became a city of tribes. The vast youth culture categories of the preceding decades shattered into shards. It was the decade that sub-culture as a way of life reached it's zenith before giving way to it's inevitable scene surfing conclusion. Ridgers documented this cultural moment obsessively. Punks, post-punks, cyber-punks, gothic punks, mods, hard mods, Trojan skins, racist skins, ska, reggae, dub, early electronica, synth pop, acid house, happy hardcore, Blitz Kids, New Romantics, Hip-Hop, Rap, Electro, Break Beat, Techno, Rave - these were all sub-cultural spaces with scenes attached in London in the 1980's. Unlike now, subcultures in the 1980's were not casual playthings - they were a way of life for their participants. They inspired profound loyalty. They were a beautiful a doomed flowering of the hope for a better world. Derek Ridger's exquisite street portrait photography has captured this creative decade beautifully.

A Celebration of the 80s ,1983 Offers portraits and brief profiles of critics, actors, writers, dancers, business people, artists, photographers, composers, film directors, singers, lawyers, entertainers, and scientists now in their eighties.

Lifestyle in Siberia and the Russian North Joachim Otto Habeck ,2019-11-25 Lifestyle in Siberia and the Russian North breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective. Showcasing the collective work of ten experienced scholars in the field, the book goes beyond concepts of tradition that have often been the focus of previous research, to explain how political, economic and technological changes in

Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life. Each contribution is drawn from meticulous first-hand field research, and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban, Euro-American context and employed in a markedly different setting. Lifestyle in Siberia and the Russian North builds on the contributors' clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region. This book provides inspiring reading for students and teachers of Anthropology, Sociology and Cultural Studies and for anyone interested in Russia and its regions. By providing ethnographic case studies, it is also a useful basis for teaching anthropological methods and concepts, both at graduate and undergraduate level. Rigorous and innovative, it marks an important contribution to the study of Siberia and the Russian North.

Pictures of Belonging ShiPu Wang, 2023 *Pictures of Belonging* showcases more than one hundred objects created by Miki Hayakawa, Hisako Hibi, and Miné Okubo. These trailblazing American women of Japanese descent-part of the pre-World War II generation of artists in California-were committed to exploring art as a productive means of storytelling, but their achievements are rarely recognized in the pages of American history. The book puts the artists' works in dialogue with one another for the first time-creating new conversations on citizenship, community, and agency in the historical record during an era of exclusion for Japanese Americans in particular and Asian Americans as a whole--

Nine Continents Xiaolu Guo, 2017-10-10 The acclaimed novelist's award-winning memoir of growing up in a remote Chinese fishing village is "a rich and insightful coming-of-age story" (Kirkus). The acclaimed author of *A Concise Chinese-English Dictionary for Lovers* and *I Am China*, Xiaolu Guo grew up an unwanted child in a poor fishing village on the East China Sea. But

a Taoist monk made a startling prediction to her grandmother: that Guo would prove herself to be a peasant warrior and grow up to travel the nine continents. In *Nine Continents*, Guo tells the story of a curious mind coming of age in an inhospitable country, and her determination to seek a life beyond the limits of its borders. From her family's village to a rapidly changing Beijing, to a life beyond China, *Nine Continents* presents a fascinating portrait of how the Cultural Revolution shaped families, and how the country's economic ambitions have given rise to great change. This "moving and often exhilarating" memoir confirms Xiaolu Guo as one of world literature's most urgent voices (Financial Times, UK).

School Photos in Liquid Time Marianne Hirsch, Leo Spitzer, 2019-12-30 From clandestine images of Jewish children isolated in Nazi ghettos and Japanese American children incarcerated in camps to images of Native children removed to North American boarding schools, classroom photographs of schoolchildren are pervasive even in repressive historical and political contexts. *School Photos in Liquid Time* offers a closer look at this genre of vernacular photography, tracing how photography advances ideologies of social assimilation as well as those of hierarchy and exclusion. In Marianne Hirsch and Leo Spitzer's deft analysis, school photographs reveal connections between the histories of persecuted subjects in different national and imperial centers. Exploring what this ubiquitous and mundane but understudied genre tells us about domination as well as resistance, the authors examine school photos as documents of social life and agents of transformation. They place them in dialogue with works by contemporary artists who reframe, remediate, and elucidate them. Ambitious yet accessible, *School Photos in Liquid Time* presents school photography as a new access point into institutions of power, revealing the capacity of past and present actors to disrupt and reinvent them.

The African Photographic Archive Christopher Morton, Darren Newbury, 2020-10-15 African photography has emerged as a significant focus of research and scholarship over the last twenty years, the result of a growing interest in postcolonial societies and cultures and a turn towards visual evidence across the humanities and social sciences. At the same time, many rich and fascinating photographic collections have come to light. This volume explores the complex theoretical and practical issues involved in the study of African photographic archives, based on case studies drawn from across the continent dating from the 19th century to the present day. Chapters consider what constitutes an archive, from the familiar mission and state archives to more local, vernacular and personal accumulations of photographs; the importance of a critical and reflexive engagement with photographic collections; and the question of where and what is 'Africa', as constructed in the photographic archive. Essential reading for all researchers working with photographic archives, this book consolidates current thinking on the topic and sets the agenda for future research in this field.

Now that's what I call a history of the 1980s Lucy Robinson, 2023-07-18 Now that's what I call a history of the 1980s tells the story of eighties Britain through its popular culture. Charting era-defining moments from Lady Diana's legs and the miners' strike to Glastonbury's Pyramid Stage and Adam and the Ants, Lucy Robinson weaves together an alternative history to the one we think we know. This is not a history of big geopolitical disasters, or a nostalgic romp through discos, shoulder pads and yuppie culture. Instead, the book explores a mashing together of different genres and fan bases in order to make sense of our recent past and give new insights into the decade that defined

both globalisation and excess. Packed with archival and cultural research but written with verve and spark, the book offers as much to general readers as to scholars of this period, presenting a distinctive and definitive contemporary history of 1980s Britain, from pop to politics, to cold war cultures, censorship and sexuality.

Diana: The Portrait Rosalind Coward,2007-07 Supplemented by photographs, offers a personal look at the woman known for her humanitarian inspiration to the world.

The Tribe Carlos Manuel Álvarez,2022-06-21 Teeming with life and compulsively readable, the pieces gathered in *The Tribe* aggregate into an extraordinary mosaic of Cuba today. Carlos Manuel Álvarez, one of the most exciting young writers in Latin America, employs the crónica form—a genre unique to Latin American writing that blends reportage, narrative nonfiction, and novelistic techniques—to illuminate a particularly turbulent period in Cuban history, from the reestablishment of diplomatic relations with the United States, to the death of Fidel Castro, to the convulsions of the San Isidro Movement. Unique, edgy, and stylishly written, *The Tribe* shows a society in flux, featuring athletes in exile, artists, nurses, underground musicians and household names, dissident poets, the hidden underclass at a landfill, migrants attempting to make their way across Central America, fugitives escaping the FBI, and dealers in the black market, as well as revelers and policemen in the noisy Havana night. It is a major work of reportage by one of Granta's Best of Young Spanish-Language Novelists.

78-87 John Maybury,2013 Taken in the streets, clubs, basements and bars of London between 1978 and 1987, this new book brings together an incredible series of images from the British photographer Derek Ridgers. People dressing up and going out have always been central to Derek's work from the first days of punk through to the fetish and fringe scenes of present day.-- Publisher's website.

Pictures of Nothing Kirk Varnedoe, 2006-10-29 He delivered the lectures, edited and reproduced here with their illustrations, to overflowing crowds at the National Gallery of Art in Washington in the spring of 2003, just months before his death. With brilliance, passion, and humor, Varnedoe addresses the skeptical attitudes and misunderstandings that we often bring to our experience of abstract art. Resisting grand generalizations, he makes a deliberate and scholarly case for abstraction--showing us that more than just pure looking is necessary to understand the self-made symbolic language of abstract art. Proceeding decade by decade, he brings alive the history and biography that inform the art while also challenging the received wisdom about distinctions between abstraction and representation, modernism and postmodernism, and minimalism and pop.

Another Planet Jay McInerney, Bob Colacello, 2015 The 1970s and 80s in New York were a dazzling age. Since the 1920s in Paris, the world had not seen such a cultural movement. Christophe von Hohenberg lived and photographed this period, when the giants of

fashion, art and society rubbed elbows with drag queens and addicts in clubs like the legendary Studio 54.
