Profit First Mike Michalowicz, 2017-02-21 Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that:

- Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances.
- A small, profitable business can be worth much more than a large business surviving on its top line.
- Businesses that attain early and sustained profitability have a better shot at achieving long-term growth.

With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

Lawyers are Liars Mark J. Kohler, 2007 Are all Lawyers Liars? Of course not! But some lawyers are, and others who are not lawyers use that charge to sell the unsuspecting public asset protection structures or strategies that are outright lies. Until now, no other professional has been willing to call out the frauds and cheats in this powerful industry where self-professed experts and do-it-yourself hacks wreak havoc on the innocent just wanting to protect their assets. Mark Kohler exposes the liars and tells us the truth! In *Lawyers are Liars*, Mark explains the strategies that actually work to protect our assets and uses more than 270 footnotes to do it, quoting and referencing the true experts around the country. Undoubtedly, this book will become a desktop resource for not only the average middle income American wanting to protect his or her assets, but attorneys, estate planners and financial professionals guiding their clients through this complex area of the law.

Money In, Money Out: \$en\$ible Financial Organization In Your Practice Susan E. Gunn, 2019-02-12 Business Management and Financial Organization with Dual Practice Software The voice on the other end of the phone was beyond frustrated. It was the Office Manager and Doctor of a lucrative practice trying to make sense of what their practice software stated they received as income vs what the CPA had on the financial reports. It was a tangled mess and they needed help! The challenge of dual business software exists. *Money In, Money Out* does not deal with the step-by-step process of how to use either software, but instead focuses on how the day-to-day process of organizing that financial information can and should be managed ... together. With dual business software use in the practice, the necessity for a book that defines the systems and procedures in a practice has grown imperative. Written by the Financial Organizational Expert, Susan Gunn pulls from her 21 years of working with practices nationally to understand the business side of their practice and how to organize their financial information by implementing systems and procedures to help protect the practice from embezzlement. Valuable advice from notable industry thought leaders include Teresa Duncan (Odyssey Management), Kim McClesky (Avitus Group), Andy Cleveland (Dental Accounts Receivable Ninja), Cheryl Donahue (Merchant Advocate), Sally McKenzie

(McKenzie Management), Debbie Castagna (Castagna Coaching), Kate Willeford (Willeford Group), Theresa Narantic (Theresa Narantic Inc.), and Virginia Moore (Moore Practice Success). Topics include: establishing your practice's financial flow; back-to-back accountability between the bank, practice software and the accounts payable software; entanglements of insurance payments; outrageous merchant card service providers; end of day/month/year checklists; how to choose a great CPA; how many bank accounts do you really need; paying employees is a good idea; modeling integrity in your practice; and so much more. Susan's 40th book, Money In, Money Out offers readers a mesmerizing plot line about financial organization and the spellbinding romantic relationship between the three major players: #1 Accounts Receivable (Money In), #2 Accounts Payable (Money Out) and #3 what's left at the end of the day in your bank account! BONUS: Not only do you get this content-rich book, but all forms, checklists and spreadsheets mentioned are available to download with the purchase of the book!
