**So Cal Speed Shop's How to Build Hot Rod Chassis** Timothy Remus,2014-11-10 Every hot rod needs a good chassis, whether it's a traditional Model T track roadster, a Pro/Street fat-fendered Chevy, or something in between. In *How to Build Hot Rod Chassis*, author Timothy Remus works with the pros at the SO-CAL Speed Shop, and other builders, to show you how to build a chassis that'll do the job right. Need to know what kind of spring to use? Don't know how to build a frame that's straight and square? This book shows you how, with detailed step-by-step how-to photo sequences. Chapters include information on: Planning your hot rod chassis. Building a frame. Front suspensions. Rear suspensions. Shocks and springs. Brakes. Hardware and plumbing. Drivetrain. Wheels and tires. There's also a detailed source guide that will help you find the parts you need, plus interviews with some of the country's top hot rod builders and stylists to lend valuable insight into hot rod building techniques and strategies.

*How to Build Affordable Hot Rods* Tony Thacker,2020-12-01 Learn how to build an affordable hot rod following the advice of the masters! In *How to Build Affordable Hot Rods*, author and lifelong hot rod aficionado Tony Thacker takes you through the process of building a hot rod on a budget. Drawing on his own extensive experience of both buying and building rods, Thacker explores the good, the bad, and the ugly. The good was setting a land speed record at Bonneville, the bad was buying a rod from which the previous owner had swapped out the good engine, and the ugly--well, let's just not go there. *How to Build Affordable Hot Rods* includes extensive how-to sections that cover step-by-step chassis builds for Model A, 1932, and 1936 Fords, including front- and rear-end setups. The in-depth chassis builds are complimented with sections on powertrain choices, bodywork and roof chops, wheels and tires, and wiring and paint. Also included are chapters on interiors and the all-important details that individualize any project to ensure that it stands out from the rest. When Henry Ford introduced his beloved Model T, he unwittingly gave the average person the means to go racing. Prior to the T, racing was mostly a sport of the rich, but that changed with the Model T. Stripped of fenders and hopped up with speed parts, T speedsters ruled, and it wasn't long before enthusiasm on the track translated to the street and the term hot rod entered the vernacular. Of course, it didn't need to be a Ford (and still doesn't), but the easiest and therefore cheapest route to Hot Rod Boulevard is down the Ford road. The journey accelerated after World War II, as hot rodding boomed with the growth of speed shops, car shows, drag racing, talented and trained GIs returning home, and the launch of Hot Rod magazine to spread the gospel far and wide. More than 100 years after the original Model T, hot rodding remains alive and well in the Australasia, Europe, and (of course) its birthplace the US.

**Hot Rod Garages**, 2013-08-12 DIVIn *Hot Rod Garages*, acclaimed hot rod photographer and author Peter Vincent gives readers an intimate look inside the shops and garages of more than two dozen rod and custom builders. Unlike most hot rod books, Vincent's takes a strictly California-centric approach in examining shops across the United States. From individuals crafting cars for their own reward to more prominent builders turning out cool rides for paying customers, Vincent and his cameras show the builders in the context of their spaces, in the process exploring how their work environments inform their creations and vice versa. Included are individuals like Pete Eastwood who have garnered attention in the hot rod press while building mostly for themselves; builders like Vern and Keith Tardel, the Kennedy Brothers, and Cole Foster with his crew at Salinas Boyz, all currently being celebrated for the traditionally styled rides they build for consumers; and high-end shops widely considered to be the cream of the industry, like Roy Brizio's and Steve Moal's in the Bay Area, as well as SO-CAL Speed Shop (heir to legend Alex Xydias). The result is the next best thing to being there—an exquisitely presented book that eloquently distills the varying nature of these spaces and the cars created within, revealing the countless hours spent machining, wrenching, welding, and shaping these beautiful visions to fruition./div

**The American Speed Shop** Bob McClurg,2021-02-15 The history of hot rodding and performance cars has been well chronicled through the years. Books and magazines have covered the cars, builders, pioneers, engineers, early racers, muscle cars, street racers, etc. Most take a nostalgic and fun look at the cars that many have loved their entire lives. Some even cover the lifestyle, the hobby as it involves people, and the effort, time, and commitment people put into it. It is more than just a hobby to most, and to many, a certain wave of nostalgia comes over them when remembering what the car scene was like back in the day. The local speed shop is an important element of the nostalgic feeling that people have when fondly remembering their hot rodding youth. Speed shops were not just parts stores, they were a communal gathering place for car guys wanting to talk smart, bench race, and catch up on the local scene, as well as to solicit the expert advice from the owner or staff behind the counter. Here, longtime hot rodder and industry veteran Bob McClurg brings you the story of the era and the culture of speed shops as told through individual shop's histories and compelling vintage photography. He covers the birth of the industry, racing versus hot rodding, mail-order, and advertising wars. You learn about the performance boom of the 1960s and 1970s, lost speed shops as well as survivors, and an overview of the giant mail-order speed shops of today.

Profiling top builders like Pete Chapouris, Roy Brizio, Vern Tardel, Troy Trepanier, and 15 others and featuring studio portraits of their most outstanding custom creations, this book celebrates the uniquely American marriage of mechanical know-how to an inspired sense of style and design. Built from the ground up, pieced together from salvaged parts, rebuilt with classic looks and futuristic technology—these are automotive works of art, as powerful on the page as they are on the street. Through the stunning portraiture of master photographer Peter Harholdt, *Art of the Hot Rod* captures these magnificent creations as never seen before.

*Hot Rod Kings* Kevin Thomson, Billy F. Gibbons, David Perry, Here are the hot rodders we'll worship tomorrow. Kevin Thomson and David Perry venture into the shops of all-steel apostles Cole Foster, Gary Howard, Keith Tardel, the Kennedy Brothers, Jimmy White, Mike Smith, Rudy Rodriguez, Scott Mugford, and Mercury Charlie and offer profiles of today's top hot rod and custom builders. Hot rodders themselves, Thomson and Perry get to the heart of what makes today's hot rodders go, how they think, who they are, and what

makes them builders worth watching.

This is the story of how one such veteran, an ex-B-17 airman named Alex Xydias, established the SO-CAL Speed Shop and helped transform hot rodding from a scruffy, underground, outlaw sport into a defining part of postwar American culture.
