Social and Sustainability Marketing Jishnu Bhattacharyya,Manoj Kumar Dash,Chandana Hewege,M.S. Balaji,Weng Marc Lim,2021-09-26 ... an important intervention in the conversation around social and ecological sustainability that draws on both micromarketing and macromarketing scholarship to help the reader understand the challenges with illustrations from insightful cases both from emerging and developed economies. This compilation should be essential reading for the discerning student of sustainable consumption and production. -- Professor Pierre McDonagh, Associate Editor, *Journal of Macromarketing (USA)*; Professor of Critical Marketing & Society, University of Bath, UK Experts in the field of economics, management science, and particularly in the marketing domain have always been interested in and acknowledged the importance of sustaining profitable businesses while incorporating societal and environmental concerns; however, the level of existing literature and availability of teaching cases reflect a dearth of real case studies, especially those focused on marketing for social good. This book of actual case studies will address that need. In addition, this book is important and timely in providing a case book for instructors (those in both industry and academia) to help them in teaching and training the next generation of leaders through corporate training and universities. Currently, marketing for social good is increasingly becoming a part of most curriculums under the umbrella of different titles, such as social marketing, green marketing, and sustainability marketing. The relevance of these studies is increasing across the globe. This book is composed of long and short real cases with varying complexity in different sectors. This case book will also cover some review articles for an overview of the recent developments in the study area. With these case studies, collections of questions, teaching materials, and real-life marketing scenarios, this book offers a unique source of knowledge to marketing professionals, students, and educators across the world. The main objective of this case book is to understand the applicability of marketing science (marketing for social good context, such as social marketing and sustainability marketing) in internet marketing related to e-buying behavior and e-WOM. In addition, it illustrates the various types of existing marketing practices that are relevant from both theoretical and practical points of view in this electronic era, as well as discussing other non-electronic marketing practices and focusing on consumer buying behavior. As a result, marketing managers can treat their customers according to their desired value. This book particularly explores the possibilities and advantages created by social marketing and sustainability marketing through the presentation of thorough review articles and case studies. This case book helps corporate training centers and universities with compact teaching reference materials in their relevant courses.

The Butterfly Effect Marcus J. Moore,2021-10-05 This "smart, confident, and necessary" (Shea Serrano, *New York Times* bestselling author) first cultural biography of rap superstar and "master of storytelling" (*The New Yorker*) Kendrick Lamar explores his meteoric rise to fame and his profound impact on a racially fraught America—perfect for fans of Zack O'Malley Greenburg's *Empire State of Mind*. Kendrick Lamar is at the top of his game. The thirteen-time Grammy Award-winning rapper is just in his early thirties, but he's already won the Pulitzer Prize for Music, produced and curated the soundtrack of the megahit film *Black Panther*, and has been named one of *Time's* 100 Influential People. But what's even more striking about the Compton-born lyricist and performer is how he's established himself as a formidable adversary of oppression and force for change. Through his confessional poetics, his politically charged anthems, and his radical performances, Lamar has become a beacon of light for countless people. Written by veteran journalist and music critic Marcus J. Moore, this is much more than the first biography of Kendrick Lamar. "It's an analytical deep dive into the life of that good kid whose m.A.A.d city raised him, and how it sparked a fire within Kendrick Lamar to change history" (Kathy Landoli, author of *Baby Girl*) for the better.

Eat for the Planet Nil Zacharias, Gene Stone, 2018-03-20 "An indispensable guide for anyone who wants to live to age 100—by making sure there's a livable world when you get there." —Dan Buettner, New York Times–bestselling author of *The Blue Zones* Do you consider yourself an environmental ally? Maybe you recycle your household goods, ride a bike, and avoid too much air travel. But did you know that the primary driver of climate change isn't plastics, or cars, or airplanes? Did you know that it's actually our industrialized food system? In this fascinating new book, authors Nil Zacharias and Gene Stone share new research, intriguing infographics, and compelling arguments that support what scientists across the world are beginning to affirm and uphold: By making even minimal dietary changes, anyone can have a positive, lasting impact on our planet. If you love the planet, the only way to save it is by switching out meat for plant-based meals, one bite at a time. "This fascinating, easy-to-read book will give you still another reason to eat plants and not animals: you will be doing a world of good—literally!" —Rip Esselstyn, #1 New York Times–bestselling author of *Plant-Strong* "Eating plants is not just good for your own health, it's imperative for the health of the planet. This well-argued, well-written book makes it clear why everyone should consider a plant-based diet today." —Michael Greger, MD, New York Times–bestselling author of *How Not to Die* "Possibly the single most important environmental book I've read in years. A must for everyone." —Kathy Freston, New York Times–bestselling author of *The Lean*

Stuffocation James Wallman, 2015-03-17 Stuffocation is a movement manifesto for "experiential" living, a call to arms to stop accumulating stuff and start accumulating experiences, and a road map for a new way forward with the potential to transform our lives. Reject materialism. Embrace experientialism. Live more with less. Stuffocation is one of the most pressing problems of the twenty-first century. We have more stuff than we could ever need, and it isn't making us happier. It's bad for the planet. It's cluttering up our homes. It's making us stressed—and it might even be killing us. A rising number of us are already turning our backs on all-you-can-get consumption. We are choosing access over ownership, and taking our business to companies like Zipcar, Spotify, and Netflix. Fed up with materialism, we are ready for a new way forward. Trend forecaster James Wallman traces our obsession with stuff back to the original *Mad Men*, who first created desire through advertising. He interviews anthropologists studying the clutter crisis, economists searching for new ways of measuring progress, and psychologists who link stuffocation to declining well-being. And he introduces us to the innovators who are already living more consciously and with more meaning by choosing experience over stuff. Experientialism does not mean giving up all of our possessions. It is a solution that is less extreme but equally fundamental. It's about transforming what we value. Stuffocation is a paradigm-shifting look at our habits and an inspiring call for living more with less. It's the one important book you won't be able to live without. Praise for *Stuffocation* "The revelations come fast and furious as he asserts that acquiring 'stuff' is often just an easy way to ignore the tougher questions of life, dodging 'why am I here?' and 'how should I live?' for 'will that go with the top I bought last week?' Tart and often funny . . . [Stuffocation] will be an eye-opener for those long ago persuaded that more is better. A scintillating read that will provoke conversation (or at least closet cleaning)." —Booklist "James Wallman deftly hits upon a major insight for our times: that acquiring 'stuff' and 'things' is not nearly as meaningful as collecting experiences. Some of the happiest days of my life were when I had nothing and lived on a houseboat. Without stuff to tie me down, I felt completely free." —Blake Mycoskie, founder of TOMS and author of the New York Times bestseller *Start Something That Matters* "A must-read . . . We think that more stuff will make us happier, but as the book nicely shows, we're just plain wrong. A great mix of stories and science, *Stuffocation* reveals the downside of more, and what we can do about it." —Jonah Berger, author of the New York Times bestseller *Contagious* "Wallman offers a deeply important message by weaving contemporary social science into very engaging stories. Reading the book is such a pleasure that you hardly recognize you're being told that you should change how you live your life." —Barry Schwartz, author of *The Paradox of Choice* "With a sociologist's eye and a storyteller's ear, Wallman takes us on a tour of today's experience economy from the perspective not of businesses, nor even of consumers per se, but of everyday people." —B. Joseph Pine II and James H. Gilmore, authors of *The Experience Economy*

Slow Clothing Jane Milburn, 2017 *Slow Clothing* presents a compelling case for why we need to change the way we dress, to live lightly on Earth through the everyday practice of how we wear and care for our clothes. Jane tells her journey to Slow Clothing and provides ideas for you to easily implement. Slow Clothing reflects our own style and spirit, independent of fashion cycles. We buy thoughtfully, gain skills, and care for what we wear as an embodiment of ourselves. We - the wearers - become original, authentic and resourceful. We believe secondhand is the new organic and mending is good for the soul. In return, we are liberated and satisfied. Slow Clothing brings wholeness through living simply, creatively and fairly.

Design and Futures Cher Potter, Paola Antonelli, Anne Burdick, Jake Dunagan, Dan Hill, Anab Jain, Alex McDowell, Timothy Morton, Leah Zaidi, Stuart Candy, 2019-12-20 As Nobel Laureate Herbert Simon famously observed: "Everyone designs who devises courses of action aimed at changing existing situations into preferred ones." Designers and futurists, it turns out, have a great deal in common. This mutual recognition is reaching critical mass as each comes to appreciate how their respective traditions have much to offer to making urgent change in the world, and even more so, together. - From the Editors' Introduction Design and Futures is a landmark collection of essays, manifestos and peer-reviewed articles, edited by Stuart Candy (Carnegie Mellon University) and Cher Potter (Victoria and Albert Museum), documenting "design futures" discourse and practice around the world. Originally appearing in back-to-back issues of the open access Journal of Futures Studies (Tamkang University Press, Taiwan), the present compilation preserves the original formatting while unifying all 30 pieces between covers for the first time. Topics range from worldbuilding and curriculum design to temporality and decolonisation, as well as new methods and processes that build on over a decade of experiential futures, speculative design and related practices. Design and Futures will be an essential reference for anyone working or studying in either field.
