A World History of Photography Naomi Rosenblum,1984

A History of Women Photographers Naomi Rosenblum,2014-12 In this landmark volume, Rosenblum (*A World History of Photography*) examines sympathetically the achievements of women in photography since its invention in 1839, and highlights society's failure to give them appropriate recognition. One research obstacle the author encountered was the 19th-century practice of men taking credit for work done by women. Here is work from 250 female camera artists, from Julia Margaret Cameron (b. 1815) to Annie Leibovitz (b. 1949), who, despite strong cultural resistance, mastered everything from early wet-plate views and portraits to 35 millimeter photojournalism, often initiating aesthetic and commercial improvements. Her chronicle of women's part in each era's artistic movements and media transitions, plus capsule biographies with an in-depth bibliography and index, make this a seminal reference work. The author's choice of 263 photographs seems to favor the esoteric, bringing to light a largely unknown world in vivid originality and broad archival conception.

A World History of Photography Naomi Rosenblum,2007 This book investigates all aspects of photography--aesthetic, documentary, commercial, and technical--while placing photos in their historical context. Included among the more than 800 photographs by men and women are both little-known and celebrated masterpieces, arranged in stimulating juxtapositions that illuminate their visual power. Authoritative and unbiased, Rosenblum's chronicle of photography both chronologically and thematically traces the evolution of this still-young art form. Exploring the diverse roles that photography has played in the communication of ideas, Rosenblum devotes special attention to topics such as portraiture, documentation, advertising, and photojournalism, and to the camera as a means of personal artistic expression. -- Product description.

Equivalence Nina Rosenblum,Lisa Rosenblum,2023-04-25 The first publication of the remarkable personal collection of eminent photographic historian Naomi Rosenblum Naomi Rosenblum (1925-2021) was the leading historian of photography in her lifetime. Her two major books, *A World History of Photography* and *A History of Women Photographers*, furthered the recognition of photography as a central art form of the twentieth century, and one in which women played a critical role. Rosenblum's deep knowledge and remarkable eye are evident in the collection of photography that she and her family built in her lifetime. This beautifully designed volume, conceived by Naomi and her daughters, Nina and Lisa, marks the first publication of the family's exceptional collection, which is focused on work that combines aesthetic considerations with humanist values. The photographers represented range from pioneers like Alfred Stieglitz, Margaret Bourke-White, Dorothea Lange, Lewis Hine, Paul Strand (the subject of Naomi Rosenblum's doctoral dissertation),and her husband, Walter Rosenblum, to acclaimed contemporary practitioners including Mary Ellen Mark, Ming Smith, and Sebastiao Salgado. The collection is intergenerational and also includes important examples of twentieth-century sculpture by such artists as Lynn Chadwick and Barry Flanagan. Essays by several distinguished contributors—including artist and scholar Deborah Willis; curator Barbara Tannenbaum; Milan-based curator and writer Enrica Vigano; and editor and writer Diana C. Stoll—celebrate and elucidate Naomi Rosenblum's life and career. *A Humanist Vision* is both a fitting tribute to a path breaking scholar and a contribution to the photographic literature in its own right.

Photography's Multiple Roles Columbia College (Chicago, Ill.). Museum of Contemporary Photography,Denise J. Miller,1998 This monumental book surveys the development of postwar American photography, and isolates four major roles of the medium--artistic expression, journalistic documentation, commercial industry, and scientific tool. With extensive essays from a range of scholars, and work from Arbus, Frank, Lange, Friedlander, and many more, this book represents a major reference work of photo history. All libraries should consider *Photography's Multiple Roles*--Library Journal.

A World History of Photography Naomi Rosenblum,2019-11-12 An up-to-date edition of the

authoritative history of photography—widely embraced by both students and general readers Naomi Rosenblum's classic history of photography traces the evolution of this young art form chronologically and thematically. Exploring the diverse roles that photography has played in the communication of ideas, Rosenblum devotes special attention to topics such as portraiture, documentation, advertising, and photojournalism, and to the camera as a means of personal artistic expression. Her text is illustrated with nearly nine hundred images by photographers both celebrated and little known, arranged in stimulating juxtapositions that illuminate their visual power. This fifth edition of *A World History of Photography* is substantively revised and updated. The photography of the past several decades is reevaluated from a contemporary perspective, and international developments are covered in greater detail. The main strands of today's complex universe of digital image-making are masterfully summarized and placed in their historical context, and the careers of representative contemporary photographers are studied in depth. Thoughtfully written, carefully and abundantly illustrated, and provided with a full apparatus—including a chronology, glossary, and annotated bibliography—Rosenblum's volume remains the indispensable work on its subject.

Italy Linda Butler, 1998 This beautifully printed collection captures the timeless spirit of Italy with haunting images of its architecture, antique objects, and evocative landscapes. Linda Butler strayed from the standard tourist path to create these subtly toned black-and-white photographs, each one a quiet meditation on Italy's past. The richly textured images are reproduced in the large-format tradition, preserving their delicate gradations in tone. This cloth-bound volume includes a text by the photographer that describes her immersion in Italy's mesmerizing history.

Seeing Straight Mary Street Alinder, Naomi Rosenblum, 1992 Seeing straight is the first extensive examination of f.64's contribution to photography - a pure, unencumbered technique that emphasized seeing rather than fancy printing--Inside cover.

Women Seeing Women Elisabeth Bronfen, 2007 This anthology is dedicated to pictures of women taken by women. It begins with photographs by the two great female photographers of the 19th century, Clementina Lady Hawarden and Julia Margaret Cameron, and covers a period of over 100 years to the present day.; Some 160 images by 90 photographers present us with the entire spectrum of female self-definition both behind and in front of the camera. As such, the four major themes of social reality, the family, the female body and virtual reality come to the fore with their multifarious pictures from the worlds of art, literature, fashion, dance and show business. There are self-portraits as well as female photographers' portraits of female photographers, daughters, mothers and, of course, several important female figures including Virginia Woolf, Greta Garbo, Martha Graham, Simone de Beauvoir, Maria Callas, Madonna, Hillary Clinton, and even Her Majesty the Queen.

Making Renaissance Art Kim Woods, Carol M. Richardson, Angeliki Lymberopoulou, 2007-01-01 This book explores key themes in the making of Renaissance painting, sculpture, architecture, and prints: the use of specific techniques and materials, theory and practice, change and continuity in artistic procedures, conventions and values. It also reconsiders the importance of mathematical perspective, the assimilation of the antique revival, and the illusion of life. Embracing the full significance of Renaissance art requires understanding how it was made. As manifestations of technical expertise and tradition as much as innovation, artworks of this period reveal highly

complex creative processes--allowing us an inside view on the vexed issue of the notion of a renaissance.

Chernobyl Pierpaolo Mittica, Naomi Rosenblum, Rosalie Bertell, 2007 This volume photographically shows the aftermath of the catastrophic nuclear accident that occurred in 1986 at the Chernobyl Nuclear Power Plant in Ukraine. From 2002-2004, the author visited Belarus and the Ukraine several times to document the heritage left by Chernobyl. The expanses of abandoned cities, buildings left in a hurry, and decaying rural villages -- all still contaminated with mega doses of deadly radioactivity -- became horrifying testimonies of the extent of damage. Worse yet, many of the thousands of victims of this tragedy (mostly young, since many older victims are already dead) tell their stories from cancer wards and orphanages for handicapped children with genetic defects. Older residents from the surrounding contaminated areas have chosen to return to their homes to live out their limited lives on their own familiar turf rather than in substandard state-sponsored housing projects. The series of photographs are interspersed throughout the book with short easy-to-read essays, statistics, maps, and quotes from scientists, doctors, residents, and international governmental reports. A bibliography includes a list of sources, including books, documentary films, web sites, and footnotes to some 200 scientific, medical and governmental reports.

Latinx Photography in the United States Elizabeth Ferrer, 2021-01-14 Whether at UFW picket lines in California's Central Valley or capturing summertime street life in East Harlem Latinx photographers have documented fights for dignity and justice as well as the daily lives of ordinary people. Their powerful, innovative photographic art touches on family, identity, protest, borders, and other themes, including the experiences of immigration and marginalization common to many of their communities. Yet the work of these artists has largely been excluded from the documented history of photography in the United States. Through individual profiles of more than eighty photographers from the early history of the photographic medium to the present, Elizabeth Ferrer introduces readers to Latinx portraitists, photojournalists, and documentarians and their legacies. She traces the rise of a Latinx consciousness in photography in the 1960s and '70s and the growth of identity-based approaches in the 1980s and '90s. Ferrer argues that in many cases a shared sense of struggle has motivated photographers to work purposefully, driven by a deep sense of resistance, social and political commitments, and cultural affirmation, and she highlights the significance of family photos to their approaches and outlooks. Works range from documentary and street photography to narrative series to conceptual projects. *Latinx Photography in the United States* is the first book to offer a parallel history of photography, one that no longer lies at the margins but rather plays a crucial role in imagining and creating a broader, more inclusive American visual history.

How, When, and Why Modern Art Came to New York Marius de Zayas, 1998 Marius de Zayas (1880-1961), a Mexican artist and writer whose witty caricatures of New York's theater, dance, and social elite brought him to the attention of Alfred Stieglitz and his circle at 291, was among the most dedicated and effective propagandists of modern art during the early years of this century. His writings were the first to provide the American public with an intellectual basis upon which to understand and eventually appreciate the newest artistic developments. *How, When, and Why Modern Art Came to New York*, originally written in the 1940s, is a fascinating chronicle assembled from de Zayas's personal archive of photographs and from newspaper reviews of the exhibitions he discusses, beginning with those held at the Stieglitz gallery and including important shows mounted in his own galleries: the Modern Gallery (1915-1918) and the De Zayas Gallery (1919-1921)
