The Thank You Letter Jane Cabrera, 2019-10-29 Celebrate gratitude and simple ways of brightening others' days with this sweet, brightly illustrated story about a girl's letters. . . . and her town's overwhelming response. After a wonderful party, birthday girl Grace sits down to thank her friends and family for all their kind gifts. But she doesn't stop there-- as she writes, Grace realizes there are so many things to be grateful for! So she thanks her teacher for helping her learn to write. She thanks her dog for his cheerful wagging tail. She even thanks the sky for being perfectly, beautifully blue. The Thank You Letter is perfect for starting conversations about gratitude-- both for tangible gifts and for the little things we don't always stop to appreciate. The sweet story encourages young readers to focus on positivity and share it-- to write letters of their own to family, friends, and loved ones and share their joys. For everyone who wants to encourage children to write thank you notes for gifts, and for everyone searching for new ways to connect with distant loved ones, The Thank You Letter is a perfect model for expressing gratitude-- and showcases the joyful response a simple gesture can create. When Grace returns home after delivering her notes, she finds a wealth of affection-- cards, letters, and notes from her neighbors and friends, expressing their love for Grace and appreciation for her letters. A beautifully illustrated gatefold page shows how deeply her letters have touched the hearts of everyone around them, and Beloved storyteller and illustrator Jane Cabrera's vivid and textured acrylic paintings are filled with joyful cuteness and warmth. Collage elements, including patterns from the inside of envelopes, smartly add to the epistolary theme. This delightful celebration of mindful thankfulness and community togetherness is perfect for curling up in a cozy spot and sharing one-on-one.

Train Doctor Roger Senior, 2016-09-30 Train Doctor is the story of Roger Senior's career in the railway industry, from 1968 when the author joined British Railways, until his retirement from Great North Eastern Railway. The book takes you from the 1970s period, with its first generation Diesels, through to privatisation in 1994 and the electrified East Coast main line. This will be of interest to enthusiasts and modern railway historians, with its inside look at the railway industry during a time of considerable change. The author began his career with first generation diesel classes, on the Eastern Region, of what was then British Railways and went on to work with the High Speed Train Fleet, when they were first introduced to main line service, in the 1970s. This is a story of troubleshooting, with many different types of modern traction over a period of twenty-five years, an insight into the trials and tribulations of keeping the railway running, in all weathers and at all costs. Roger Senior later worked with electric traction, both before and after privatisation, on the East Coast main line, finishing his career with Great North Eastern Railway as the Resident Engineer for the refurbishment of the MK1V fleet known as the Mallard project.
