**Scalextric** Roger Gillham, 2009-02-15 First published in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. Now containing nearly 1,000 photographs, this book has become an extraordinarily detailed summary of everything in the world of Scalextric, written by an author who has been captivated by the subject for nearly 50 years.

Scalextric Jon Mountfort, 2011-11-20 Scalextric, the ultimate boys' toy, arrived in toyshops in 1957. The first-ever electric slot-car system, with uncontrollable tinplate cars running on heavy rubber track, it brought the speed and glamour of motor racing to suburban living rooms. Classic marques of the day such as Aston Martin, Jaguar and Lotus featured in the early '60s scalextric sets, and over the years that followed all the classic Formula 1 battles were re-created in schoolboy form, followed by sports cars, rally cars, and classic film re-creations such as the James Bond set of 1968, Batman and Knight Rider.

**A History of Tri-ang and Lines Brothers Ltd** Kenneth D. Brown, 2022-04-06 The

toy industry and its close relationship with children's artefacts and equipment, made a huge contribution British ascendancy in light industry, after decline of heavy industry. Light industry was a pivotal theme in British economic history and toy-making and sales in international markets was a vital ingredient in Britain's reputation as the 'workshop of the world'. It flourished from the Great Exhibition of 1851 - in competition with German and French toy industries - through the 20th century and the great depression of 1929, to postwar commercial ascendancy in consumer goods. Decline began in face of US and Asian competition and with Britain's post-war economic problems; and, the nature of family business contributed, with the passing of generations and loss of drive and tenacity. It is a family business story of the Lines Brothers Ltd, the world's largest manufacturer of children's toys with the household name of Triang, with model railways, Minic and Spot-on toy cars, soft toys, 1918-29 Pedigree prams, dolls' houses, Cindy dolls. It is a serious economic, industrial and business, history, full of personality and rivalry from supreme Victorian entrepreneurship to modern international decline, but a social and cultural story intimately linked history of childhood.
