Locating the Transatlantic in Twentieth-century Politics, Diplomacy and Culture Gaynor Johnson,2024-01-25 Written in tribute to the work of Professor Alan Dobson, this collection of essays brings diplomacy and the Anglo-American relationship together, considering politics and foreign policy in tandem with cultural interactions. Uniquely placed to define exactly what transatlanticism is, and to explore the ways in which this idea has evolved in the last 150 years, this book asks to what extent can it be argued that there was a transatlantic world, how can it be defined and what was unique about it? With contributions from leading scholars it offers an overview of the field as well as a comparative exploration of Anglo-American relations. From emotion in foreign policy decision making, to the RAF in the Vietnam War, as well as leader personalities and transatlantic reactions to women's rights in China, Transatlanticism and Transnationalism since the First World War explores this 'special relationship' at many levels and from many angles. It further asks how this relationship has evolved over the years, and considers how it might survive in a globalized, post-industrial world.

**1999 American Alpine Journal**, Published annually since 1929, The American Alpine Journal is internationally acknowledged as the world's finest journal of its kind. The latest volume of climbing's journal of record offers the most complete picture available of the world of climbing for 1998. From articles that present the climbing possibilities of Antarctica and Africa, to stories on the new bigwall frontiers of Mexico and Madagascar, to the alpine sagas on Bhagarathi III and Khan Tengri, and the emergence of the former Soviet climbers on the world stage, the 1999 AAJ continues its tradition as mountaineering's institutional memory.

**Celticism** Terence Brown,2023-03-13 The volume collects papers from a multi-disciplinary workshop, held under the auspices of the European Science Foundation, which examined the idea of Celticism in its European contexts from the eighteenth century to the present. Linguists, historians, cultural theorists and literary critics from a range of European countries addressed for the first time in a sustained way how the idea of Celticism developed and how it affected many aspects of European culture. A primary focus of the volume is James Macpherson's Ossian, now under-going a re-estimation. Other topics which receive significant examination are Celticism as a force in cultural nationalism, Celticism in contemporary Christianity, primitivism, the image of the Celt in archaeology, historiography, political propaganda and the role of the idea of the Celtic in linguistic taxonomy. This pioneering work will be of interest to scholars and students in a wide range of subjects in which the nature, function and effect of cultural concepts and images are of central concern.

**2019** Günter Berghaus,Oleh S. Ilnytzkyj,Gabriella Elina Imposti,Christina Lodder,2019-12-16 The ninth volume of the International Yearbook of Futurism Studies is dedicated to Russian Futurism and gathers ten studies that investigate the impact of F.T. Marinetti's visit to Russia in 1914; the neglected region of the Russian Far East; the artist and writers Velimir Khlebnikov, Vasily Kamensky, Maria Siniakova and Vladimir Mayakovsky; the artistic media of advertising, graphic arts, cinema and artists' books.

*Russia in Flames* Laura Engelstein,2017-09-19 October 1917, heralded as the culmination of the Russian Revolution, remains a defining moment in world history. Even a hundred years after the events that led to the emergence of the world's first self-proclaimed socialist state, debate continues over whether, as historian E. H. Carr put it decades ago, these earth-shaking days were a landmark in the emancipation of mankind from past oppression or a crime and a disaster. Some things are clear. After the implosion of the three-hundred-year-old Romanov dynasty as a result of the First World War, Russia was in crisis-one interim government replaced another in the vacuum left by imperial collapse. In this monumental and sweeping new account, Laura Engelstein delves into the seven years of chaos surrounding 1917 --the war, the revolutionary upheaval, and the civil strife it provoked. These were years of breakdown and brutal violence on all sides, punctuated by the decisive turning points of February and October. As Engelstein proves definitively, the struggle for power engaged not only civil society and party leaders, but the broad masses of the population and every corner of the far-reaching empire, well beyond Moscow and Petrograd. Yet in addition to the bloodshed they unleashed, the revolution and civil war revealed democratic yearnings, even if ideas of what constituted democracy differed dramatically. Into that vacuum left by the Romanov collapse rushed long-suppressed hopes and dreams about social justice and equality. But any possible experiment in self-rule was cut short by the October Revolution. Under the banner of true democracy, and against all odds, the Bolshevik triumph resulted in the ruthless repression of all opposition. The Bolsheviks managed to harness the social breakdown caused by the war and institutionalize violence as a method of state-building, creating a new society and a new form of power. *Russia in Flames* offers a compelling narrative of heroic effort and brutal disappointment, revealing that what happened during these seven years was both a landmark in the emancipation of Russia from past oppression and a world-shattering disaster. As regimes fall and rise, as civil wars erupt, as state violence targets civilian populations, it is a story that remains profoundly and enduringly relevant.

Nta'tugwaqanminen Gespe'gewa'gi Mi'gmawei Mawiomi,2016-03-30T00:00:00Z Nta'tugwaqanminen provides evidence that the Mi'gmaq of the Gespe'gewa'gi (Northern New Brunswick and the Gaspé Peninsula) have occupied their territory since time immemorial. They were the sole occupants of it prior to European settlement and occupied it on a continuous basis. This book was written through an alliance between the Mi'gmaq of Northern Gespe'gewa'gi (Gaspé Peninsula), their Elders and a group of eminent researchers in the field with the aim of reclaiming their history, both oral and written, in the context of what is known as knowledge re-appropriation. It also provides non-Aboriginal peoples with a view of how Mi'gmaq history looks when it is written from an Indigenous perspective. There are two voices in the book — that of the Mi'gmaq of the Gespe'gewa'gi, including the Elders, as they act as narrators of the collective history, and that of the researchers, who studied all possible aspects of this history, including advanced investigation on place names as indicators of migration patterns. Nta'tugwaqanminen speaks of the Gespe'gewa'gi Mi'gmaq vision, history, relation to the land, past and present occupation of the territory and their place names and what they reveal in terms of ancient territorial occupation. It speaks of the treaties they agreed to with the British

Crown, the respect of these treaties on the part of the Mi'gmaq people and the disrespect of them from the various levels of governments. This book speaks about the dispossession the Mi'gmaq of Gespe'gewa'gi had to endure while the European settlers illegally occupied and developed the Gaspé Peninsula to their own advantage and the rights and titles the Mi'gmaq people still have on their lands.

My Name Is Light Elsa Osorio,2003-08-05 Vacationing in Madrid with her husband and newborn son, Luz, a twenty-one-year-old Argentinean, secretly searches for her real father, a political activist who disappeared during the country's dictatorship in the 1970s. Original.

Zoo Eric Baratay,Elisabeth Hardouin-Fugier,2004 Wild animals have fascinated human observers since time immemorial. The story of our interest in collecting, classifying and dominating Nature so that its inner workings could be understood also looms large in the history of science, and thus it is surprising that the history of menageries, zoological gardens and the zoo as we know it today has been so poorly documented. This gap is addressed by Zoo, a comprehensive history of the zoo in the Western world.
