Whips and Whipmaking David W. Morgan,2004 Whipmaking is the highest refinement of the art of leather braiding. This revised edition introduces another major category of whipsthose made in the Mongol tradition. Braiding details are shown in an extensive selection of photographs that also serve to document the geographic distribution of the whips; their historic use and characteristics are explained in detailed captions. A new chapter describes the evolution of a whip design that became world famous through its association with Hollywood. The whips used by Indiana Jones were all made by the author, David W. Morgan, and the films prompted an immediate revival of interest in whips for performance and sport use.

Whips of the West David W. Morgan,2007 This book is designed to bring together and record the development of whips in the United States. It covers the production of buggy whips in Westfield MA, a center for the growth of the Industrial Revolution in New England and carries on to the Diamond Whip Company in Chicago and the handcrafted whips of the far West. The book is liberally illustrated and records essential historical documentation in the appendices.

How to Make Whips Ron Edwards,2009-07 Ron Edwards was born in Australia in 1930 and brought up in the country where small farmers still plowed with horses and harvested their half acres with sickles and scythes, and larger properties relied on the annual visit of the steam-driven threshing machines. By the 1940s all this had vanished, and Edwards had realized that the country's traditional crafts also were disappearing. He began making drawings and notes of them and published these materials in his native country. How to Make Whips is the American edition of his ninth book. The first section gives instructions for a basic eight-strand whip; the second deals with the making of fine kangaroo hide whips. Other chapters explain the making of bullwhips, snake whips, and whips made from precut lace. Also included are instructions on plaiting names in whips and using plaiting designs for whip handles.

Braiding Fine Leather David W. Morgan,2002 Designed to help the beginning leather braider acquire basic skills in a straightforward manner, this book shows readers how to braid simple projects fairly quickly. With close attention to detail and a little practice using the methods described here, novices can produce attractive and enduring items from either precut lace or from a skin or side of leather. Leather braiding was developed in Australia in whipmaking shops. The craft had been carried to Australia by thongmakers from England, who were familiar with the thongs used on finely braided carriage whips. Kangaroo leather, one of the finest leathers available for braiding, provided the material for high-quality work, and a large and discriminating market in Australia led to improvements in techniques. Using these highly refined techniques and providing complete instructions and clear closeup photographs showing each step in the process, David Morgan has created an excellent book for those who want to learn to braid leather. A metallurgical engineer by training and occupation, in the 1960s Morgan became interested in Australian braided work made from kangaroo hide. With his wife he set up a part-time mail-order business selling a variety of Australian imports. In the 1980s he made the whips for the Indiana Jones movies, and he has been making them ever since. By 1990 he had abandoned metallurgy to run the mail-order business full time. He is now following an interest in the historical aspects of cattle-working whips.--Wheelers.co.nz.

Roald Amundsen's Sled Dogs Mary R. Tahan,2019-01-04 This book is an analytical account of how Roald Amundsen used sledge dogs to discover the South Pole in 1911, and is the first to name and identify all 116 Polar dogs who were part of the Norwegian Antarctic Expedition of 1910-1912. The book traces the dogs from their origins in Greenland to Antarctica and beyond, and presents the author's findings regarding which of the dogs actually reached the South Pole, and which ones returned. Using crewmember diaries, reports, and written correspondence, the book explores the strategy, methodology, and personal insights of the explorer and his crew in employing canines to achieve their goal, as well as documents the controversy and internal dynamics involved in this historic discovery. It breaks ground in presenting the entire story of how the South Pole was truly discovered using animals, and how deep and profound the differences of perception were regarding the use of canines for exploration. This historic tale sheds light on Antarctic exploration history and the human-nature relationship. It gives recognition to the significant role that animals played in this important part of history.

Gynecocracy. A Narrative of the Adventures and Psychological Experiences of Julian Robinson (afterwards Viscount Ladywood) Under Petticoat-Rule, Written by Himself Julian Robinson, Robinson [Pseud Attributed to Stanisla, 2011-12-13 Following an indiscretion with a maid, exuberant Julian Robinson is sent to his family's country estate to be educated by a beautiful and bewitching French governess, Mademoiselle de Chambonnard, who subjects him to a rigorous disciplinary regime of birching and cross-dressing. Complete in three volumes, Gynecocracy is an influential masterpiece of Victorian clandestine erotica, first published in 1893. It is significant for the novelty of its focus on the subjection of a young man to women through enforced cross-dressing. This Birchgrove Press edition includes the excerpt from Don Juan, which modern reprints often omit, and a number of chapter head decorations from a nineteenth-century edition. The authorship of Gynecocracy is usually attributed to an English lawyer, Stanislas Matthew de Rhodès (1857-1932), who is also credited with writing *The Yellow Room* (1891) and *The Petticoat Dominant* (1898), which are also available from Birchgrove Press.
