Unfinished Work Joseph Coleman,2015-01-02 The era of the aging worker is here. The forces driving the first decades of the 21st century -- globalization, technology, societal aging, and jarring economic instability -- have made later retirement a necessity for many, but those who choose to stay in the workforce are frustrated by a job market that fails to take advantage of their talents. As government's ability to finance retirement and health care declines, making space for older workers in the labor force has emerged as a chief challenge for the coming century. Veteran international correspondent Joseph Coleman spent three years traveling to various places in Japan, France, Sweden, and across the United States to profile this aging global workforce. From the rice paddies of Japan to the heart of the American rust-belt, Coleman takes readers inside the lives of older workers. Clear-eyed portraits of individuals illuminate the aging of the world labor force and introduce readers to the factories, offices, and fields where older workers toil and the societies in which they live. *Unfinished Work* explores a world in the midst of a revolution that will have far-reaching consequences for present and coming generations. Coleman maps out the problems we confront, shows us avenues forward, and illustrates the dangers of inaction. The engaging narrative reveals how accommodating our aging workforce can usher in humane policies that benefit workers across the spectrum of age. Improving conditions for older workers is critical for ensuring success and prosperity for society as a whole for years to come.

Pressure lanterns, though not as convenient as throwing a wall switch, will produce light on par with electric. Do you know the difference between Coleman Quick-Lite and Coleman Instant-Lite? You probably should if you're into prepping. It's nice to speak the language. It's nice to go to a flea market and know what you're looking at. Do Coleman Dual Fuel lanterns really burn automobile gas? This book has some first-hand test results. Plus recommendations about what to buy and what to avoid. And this book has an excellent section on carbon monoxide. YouTube has both good info and bad on carbon monoxide. But do you know which is which? Wouldn't it be nice to REALLY understand it? Instant Karma Marissa Meyer,2020-11-03 In New York Times bestselling author Marissa Meyer's young adult contemporary romance, a girl is suddenly gifted with the ability to cast instant karma on those around her – both good and bad. Chronic overachiever Prudence Barnett is always quick to cast judgment on the lazy, rude, and arrogant residents of her coastal town. Her dreams of karmic justice are fulfilled when, after a night out with her friends, she wakes up with the sudden ability to cast instant karma on those around her. Pru giddily makes use of the power, punishing everyone from public vandals to mean gossips, but there is one person on whom her powers consistently backfire: Quint Erickson, her slacker of a lab partner. Quint is annoyingly cute and impressively noble, especially when it comes to his work with the rescue center for local sea animals. When Pru resigns herself to working at the rescue center for extra credit, she begins to uncover truths about baby otters, environmental upheaval, and romantic crossed signals—not necessarily in that order. Her newfound karmic insights reveal how thin the line is between virtue and vanity, generosity and greed . . . love and hate... and fate.

Four-Season Harvest Eliot Coleman,2012-02-28 Eliot is the reason I'm cooking. . . . I've followed that path because Eliot made it possible, and exciting, to farm in the four seasons.—Dan Barber, chef There is hardly a more well-known or well-respected name among organic farmers than Eliot

Coleman.—Civil Eats Learn season-extending techniques and eat the best food—garden fresh and chemical free—all year long, with little effort or expense. If you love the joys of eating home-garden vegetables but always thought those joys had to stop at the end of summer, this book is for you. Eliot Coleman introduces the surprising fact that most of the United States has more winter sunshine than the south of France. He shows how North American gardeners can successfully use that sun to raise a wide variety of traditional winter vegetables in backyard cold frames and plastic covered tunnel greenhouses without supplementary heat. Inside, you'll also learn: Composting techniques Simple Mineral Amendments Planning and preparing your garden site Seeds for four seasons How to build cold frames, high tunnels, and mobile greenhouses How to cope with snow How to create a root cellar and other storage techniques And much, much more! Coleman expands upon his own experiences with new ideas learned on a winter-vegetable pilgrimage across the ocean to the acknowledged kingdom of vegetable cuisine, the southern part of France, which lies on the 44th parallel, the same latitude as his farm in Maine. This story of sunshine, weather patterns, old limitations and expectations, and new realities is delightfully innovative in the best gardening tradition. Four-Season Harvest will have you feasting on fresh produce from your garden all through the winter. The man, the farmer, the legend, is Eliot Coleman.—The Atlantic To learn more about the possibility of a four-season farm, please visit Coleman's website www.fourseasonfarm.com.

Reaching for the Moon Katherine Johnson,2020-05-05 “This rich volume is a national treasure.” —Kirkus Reviews (starred review) “Captivating, informative, and inspiring...Easy to follow and hard to put down.” —School Library Journal (starred review) The inspiring autobiography of NASA mathematician Katherine Johnson, who helped launch Apollo 11. As a young girl, Katherine Johnson showed an exceptional aptitude for math. In school she quickly skipped ahead several grades and was soon studying complex equations with the support of a professor who saw great promise in her. But ability and opportunity did not always go hand in hand. As an African American and a girl growing up in an era of brutal racism and sexism, Katherine faced daily challenges. Still, she lived her life with her father's words in mind: “You are no better than anyone else, and nobody else is better than you.” In the early 1950s, Katherine was thrilled to join the organization that would become NASA. She worked on many of NASA's biggest projects including the Apollo 11 mission that landed the first men on the moon. Katherine Johnson's story was made famous in the bestselling book and Oscar-nominated film *Hidden Figures*. Now in *Reaching for the Moon* she tells her own story for the first time, in a lively autobiography that will inspire young readers everywhere.
