The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Censored 2020 Andy Lee Roth,2019-10-08 In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as the enemy of the people, *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in junk food news and news abuse--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion Media Democracy in Action. Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, fake news as a Trojan horse for censorship, and online memes as a form of political communication.

America's Covert Border War Todd Bensman,2021-02-02

This thirteen-year work of journalism finally settles one of the nation's most controversial and politically powerful ideas about the American southern border: that Islamic jihadists might infiltrate it and commit terrorist acts. Perhaps no other idea about the border has sown more conflict, claims, counterclaims, rebuttals, and false narratives on all sides. This book provides a first comprehensive neutral baseline of truth about the threat, goring oxen on both sides of the partisan divide. It documents an ambitious and intrigue-laden covert American war on terror effort that stretches from the Mexican border to the tip of South America. Its existence to protect the homeland from terrorist infiltration was often regarded as entirely imagined—until migrating jihadists recently started killing and wounding hundreds in Europe. Americans concerned by unchecked global migration, porous borders, and national security also may feel surprised to learn that thousands of long-haul migrants from the Islamic world similarly breach the US-Mexican border each year—among them hardened jihadists—despite media insistence that none of this traffic exists. It does. The secret American campaign has prevented land border infiltration attack on US soil, safeguarding an unknowing nation—so far—from Europe's bloody ongoing experience. But this geographically sprawling effort is suffering from denialism and neglect at America's peril...just as Europe was before its calamity. How much longer can these programs keep America safe without the public recognition that they exist and the needed care and attention that acknowledgment would bring? This book is much more than revelation and complaint; it provides solutions to better protect the homeland from this chronically misunderstood border threat.

The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 This book provides a unique historical and qualitative review of ten foreign automakers with plants in developed North America from their early beginnings to their export entry into North America. It seeks to expand the

knowledge of American and Canadian policymakers pursuing a new foreign motor vehicle assembly plant or Foreign Direct Investment.

Global Trends 2040 National Intelligence Council,2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.
