Writing and research have changed dramatically since the first hardcover handbooks appeared.

Today's students don't just write papers: they create multimedia presentations. They don't just do research: they find their way through a maze of online information. They don't just read print: they

analyze visuals. They don't just come to class: they participate in an online learning community. These changes have put new demands on composition courses. With its focus on writing in college and its integrated coverage of technology and visual rhetoric, The New McGraw-Hill Handbook has been designed to meet those demands.

POWER Learning Robert S. Feldman, 2006-03-01 The only first-year experience text with a unifying system for critical thinking and problem solving, P.O.W.E.R. Learning maximizes students' potential for success in college and in life. Using the simple, class-tested principles of the P.O.W.E.R (Prepare, Organize, Work, Evaluate, and Rethink) system, students gain a sense of mastery and achievement as they move through the text, and with the growth of their confidence comes the increased intellectual enthusiasm and personal discipline needed for them to excel. The third edition of P.O.W.E.R Learning has been substantially revised to include new assessments, critical thinking questions, an emphasis on academic honesty and integrity, and the importance of service learning.
