Personality Assessment in Police Psychology Peter A. Weiss,2010 In recent years, personality assessment by professional psychologists has taken on an increasingly important role in the field of police work. Most importantly, personality assessment instruments have been utilized in the pre-employment psychological screening of police officer candidates. This psychological screening takes place at the end of the hiring process to ensure that candidates do not have personality characteristics or existing psychopathology that would interfere with their job performance. Personality assessment is also used for other applications in police psychology. These applications include fitness-for-duty evaluations (FFDEs) and second opinion evaluations of officers who challenge hiring decisions. Moreover, police psychologists are involved in a considerable amount of research in order to determine which tests and scales are most appropriate for evaluations. The present volume is divided into four parts to cover the relevant issues in personality assessment for police work. Part I provides an introduction and the basic principles of personality assessment in police psychology. Part II focuses on the major assessment instruments used in police psychology. These include the MMPI-2, the Personality Assessment Inventory (PAI), the Inwald Personality Inventory (IPI) and Hilson Tests, the M-PULSE Inventory, pre-offer integrity instruments, and the Rorschach Comprehensive System. Part III examines multiple issues in personality assessment research in the field of police psychology. Part IV covers applications of personality assessment in police psychology. These applications include pre-employment evaluations, fitness for duty evaluations, conditional second opinion psychological evaluations of candidates, using multiple sources of information when conducting mandatory or required evaluations, and the politics of personality assessment in police agencies. This unique and comprehensive text is designed for psychologists who are actively working in the field of law enforcement, including psychologists in both applied and research/academic settings.

Introduction to Forensic Psychology Stacey L. Shipley,Bruce A. Arrigo,2012-11-07 Introduction to Forensic Psychology, Third Edition, has been completely restructured to explain in greater detail how courses on forensic psychology are taught, making it more applicable as a textbook than previous editions. It also features more figures, tables and text boxes, making it a true textbook. What this book has that others do not is equal representation of criminal behavior, the court systems, and law enforcement/prisons. It also has equal representation of criminal and civil forensics. Other texts tend to be weighted towards just criminal behavior or just criminal justice and primarily criminal or civic forensics but not both. This new edition also has equal representation of issues pertaining to adults and children. It contains new coverage of cyberbullying, tests and assessments in the courtroom, mental deficiency and competency to stand trial, and information on mothers who kill their children. Adult, juvenile and family issues are dealt with separately, making it easier to find what you need. Case illustrations dramatically highlight how the lives of individuals have been (or could be) impacted by developments in psychology and law. Chapters now include pedagogy, including outlines, main points, and relevant websites. This book is intended for professors teaching introduction to forensic psychology, as well as for students interested in adult, child, and family forensics as they apply to criminal and civic forensics law enforcement/prisons. Newly structured to map closer to how this information is taught and learned Comprehensive coverage ensures inclusion of criminal and civic forensics as well as police and law enforcement Chapters now include pedagogy, including outlines, main points, and relevant websites

Civil Liability in Criminal Justice Darrell L. Ross,2023-04-27 This book provides valuable information and recommendations for current and future officers and correctional system employees, introducing them to civil liability and federal law, as well as recommending strategies that can be taken to minimize risks. The increasing litigation against criminal justice practitioners in the United States poses a significant problem for law enforcement and other personnel. Law enforcement and corrections professionals need to have a working knowledge of both criminal law and the civil law process to ensure that they are performing their duties within the

limits of the law. Civil Liability in Criminal Justice is unique in its combination of applicable case law and related liability research, providing an overview of high-liability areas. This new edition has been revised to include up-to-date United States Supreme Court cases and illuminates the latest developments in the use of force, arrest-related deaths, custodial suicides in detention, collective bargaining, public perception issues, and more. Ross offers an engaging, accessible introduction to civil liability in the criminal justice system. A valuable resource for enhancing student knowledge and practitioner job performance, this text is suitable for undergraduate and graduate courses in criminal justice programs as well as for in-service and academy training.

Administrative Law Steven J. Cann, 2005-08-11 In this new edition, author Steven J. Cann once again enlivens the topic of United States administrative law through the use of recent and classic legal cases to make it accessible and interesting to students. Administrative Law, Fourth Edition is an engaging casebook that presents a unique problem-solving framework that contrasts democracy with the administrative state. This novel approach places the often complex subject matter of U.S. administrative law into a more comprehensible context. The Fourth Edition has been completely updated and revised and includes many new cases to reflect changes in the law since the year 2000. Each chapter begins with an interesting case that introduces key concepts followed by a summary of the principles, doctrines, and legal tests used by the courts in that area of administrative law. New cases in the Fourth Edition include: Norton v. Southern Utah Wilderness Alliance, 2004. President Bush's Secretary of Interior made a decision to allow off-road vehicles in wilderness areas. Pennsylvania State Police v. Suders, 2004. This is the Supreme Court's most recent sexual harassment case. Correctional Services Corporation v. Malesko, 2001. Correctional Services Corporation is a private company that contracts with the federal government to run halfway houses. An employee's reckless disregard caused the plaintiff to have another heart attack. Whitman v. American Trucking Association, 2001. The case involves the EPA's enforcement of the Clean Air Act and is the Supreme Court's most recent delegation of power case. Administrative Law is an essential tool for those seeking to understand, or obliged to work within, its general principles. It is an excellent textbook for advanced undergraduate and graduate students studying administrative law in departments of political science and public administration.

POLICE TRAINING Michael T. Charles, 2000-01-01 In his capacity as researcher and director of the Police Training Institute at the University of Illinois, Michael T. Charles undertook the difficult task of making needed changes to the police training academy curriculum. In Police Training: Breaking All the Rules, he gives the reader an overview of the history of police training in Illinois and follows with a description of the organizational and cultural changes that he helped to bring about. These include discussions of changes in areas such as method of teaching (pedagogical versus andragogical), discipline (quasi-military versus nonmilitary), and fitness training (morning program versus wellness program). The author also describes the steps taken to redefine student rules and regulations regarding an Honor Code and dress code. He outlines the administrative goal of providing recruits the opportunity to learn to follow orders in an atmosphere of mutual respect, an expectation of success, and team effort. Instructional personnel and staff were key to the process of changing the Institute and its culture. The author relates the actions taken to develop standards of quality including a mission statement, goals, and organizational philosophy. As a result of the director's efforts, the Institute's reputation for quality training, research, and innovation had been greatly enhanced and is now a leader in police training.
