The Wolf of Dorian Gray Brian Ference,2018-06-07 Brian Ference writes a thrilling creature tale... With lots of action, gore and plot twists that will keep you guessing throughout. Praise for Lupari Werewolf Hunter. Highly recommended! - Chris Turner, author of Denibus Ar and many other fantasy, adventure, and science fiction novels. If you are a fan of werewolf fiction, this series is a must-read. Ference's writing and ability to spin a powerful tale is top notch. - Nickel Crow, author of Master of the Hunt The visceral action scenes Ference writes will leave your heart pounding - Toneye Eyanot, author of Blood Moon Big Top and Wolvz: Whispers of War Sage Holdsworth is a gifted painter with a terrible secret. One thing Sage cannot conceal is her infatuation with the handsome and charismatic Dorian Gray. Sage creates a lifelike painting of Dorian and a small wolf pup, but there is more to the painting than meets the eye. As Dorian unlocks his inherent darkness, a werewolf is spawned that begins killing in the streets of London. The lycanthrope turns to killing Dorian's enemies, but who is the real monster here? Sage never imagined her passion would give birth to a vicious monster that could cost her everything. Can Dorian and Sage save their souls? Or will the beast consume them all? This is the first book in The Wolf of Dorian Gray series: A Werewolf Spawned by the Evil of Man (Book 1) Purgatoryof the Werewolf (Book 2) Lupari: Werewolf Hunter (Book 3) Rarely does romance and revenge intersect so pleausurably and delicately, forming a dance of passion and purpose that

embraces a soul search and a confrontation between choices of salvation and sin. - Midwest Book Review A delectable page turner. An excellent debut by Brian Ference. Full of excitement, anticipation, and rich scenery. - Pavan ★★★★★ It has something for everyone with action, romance, and mystery. - Rachel ★★★★★ Ference's debut puts a twist on Oscar Wilde's classic *The Portrait of Dorian Gray*, adding the dimension of a wild beast. The arrangement smoothly parallels the original...Victorian gentleman Dorian remains stunningly handsome after his youthful self is captured by an exceptionally talented artist in an eerily powerful painting. However, Dorian is not alone in this portrait; also depicted is a wolf cub, and after the painting is hidden away, the wolf is the one to change. A element of intense violence is added to this version, and there are some gender swaps, but the plot of a young man led astray into lusty debauchery remains the same. Passions and betrayals abound. Ference lifts some lines from Wilde's text and adds his own gift for description: 'Flowers, bright in sapphire blue and crimson reds, sang out from every corner of the ornately decorated room.' - Publishers Weekly There on my desk is the first passionate love-letter which I have ever composed in my life--and it is addressed to a dead girl. The wolf had begun hunting human prey. They were plentiful in the dark city streets and provided enough good meat to satiate his gnawing hunger. He was still very careful not to let any who saw him live. To do otherwise would displease the Master. He would only stalk those people that were foolish enough to walk alone in the night. The engorged moon hung full and low in the sky like a yellow skull. Misshapen clouds stretched across the floating orb with elongated hands and bony fingers grasping. As they neared the docks, the gas lamps grew fewer and the streets gloomier. The cobblestones blackened as they passed the deserted brickfields. Bottle-shaped kilns spat their outrage with orange tongues of fire into the cooling air. Mangy dogs snarled in hunger and wandering sea-gulls screamed their displeasure at the hansom's passage. Wicked Moon Tori Centanni, 2018-06-20 I'm Charlotte Lear and I'm a werewolf who's slowly coming around to the idea that being a horror movie monster might not be so bad. Sure, there are downsides—shifting still hurts like heck—but the local wolf pack is pretty chill. When a couple of werewolves go missing during the full moon, including one from another pack, it becomes painfully clear that someone out there still wants us all dead. And to make matters worse, now a rival wolf pack is butting into our territory. As more werewolves die, tensions between our packs mount. With the help of a frustrating (but still pretty sexy) werewolf named Raff, I've got to figure out who's trying to kill me and my new wolf pack before they succeed in killing us all or starting a werewolf war. *Wicked Moon* is book two of the *Reluctant Werewolf Chronicles*, a humorous urban fantasy series with elements of mystery and romance.

Werewolves, Witches and Vampires Bill Valiontis, 2024-03-17 A secret society of werewolves and witches battles against a powerful vampire coven for control of a bustling city's underworld. A forbidden romance blooms between a young werewolf and a powerful witch from rival factions, threatening to ignite a war within the already fragile alliance of the secret society. A traitor within the werewolf pack is secretly working with the vampires, providing them with crucial information that could turn the tide of the battle and expose the society to their enemies. A brewing power struggle erupts within the vampire coven as an ambitious vampire seeks to overthrow the current leader and take control of the city's underworld for themselves, throwing the delicate balance of power into chaos. A mysterious artifact with the power to tip the scales in favor of either the werewolves or the vampires is discovered, leading to a race against time as both factions vie for possession of the ancient relic. An underground black market thrives in the city's supernatural underworld, where illegal magical artifacts are traded among humans and creatures alike, drawing the attention of both the secret society and the vampire coven as they seek to control the lucrative trade. A group of human vampire hunters enters the fray, determined to eradicate all supernatural beings from the city and unwittingly complicating the already tense conflict between the werewolves and witches. A powerful psychic medium with ties to both the werewolf pack and the vampire coven is haunted by visions of a dark prophecy foretelling the destruction of the city unless the warring factions can find a way to unite against a common enemy. A series of brutal murders grips the city, with each victim bearing the telltale marks of both werewolf and vampire attacks, sparking fear and paranoia among the human population and forcing the secret society to investigate the possibility of a dangerous hybrid creature on the loose. A young half-breed werewolf, ostracized by both the werewolf pack and the witch coven, navigates the treacherous streets of the city as a neutral party caught in the crossfire of the escalating conflict between the supernatural factions.

The Psychology of Our Dark Side Sheila Stewart,2015-02-03 Tales of the dead feasting on blood and shape-shifting humans prowling around in animal form have been a part of the folklore of human beings for untold generations and all over the world. Vampires and werewolves are universal themes in horror lore. And our fascination with these creatures of the darkness has continued into a twenty-first-century world of space travel, computer technology, and advanced medical science. What is it about these beings that so inspire our fear and our loathing, our desire and our delight? Is there a place deep in our psychological makeup where the dead do not rest and wild beasts howl at the moon? The insights of modern science may help us understand our relationship with those things that both frighten and attract us, and perhaps tame the monsters inside us.

The Werewolf Eugene Field,Varla Ventura,2011-10-15 In the dark of the night, in the deep of the woods, there dwells a creature that is neither man nor beast. Considered by some to be supernatural, many would call his plight a curse. The curse of the werewolf. Hunted, feared, and deified this snarling being is the stuff legends are made of. This classic tale of terror from noted children's author Eugene Field will have you howling at the moon!

The NYC Werewolf and the Brotherhood of Wolves Phyllis Fahrie,Bert Murray,2018-02-13 This novel is not genre fiction (urban fantasy or paranormal romance). It is, instead, character driven literary fiction with a fantasy twist. The book is set in Manhattan and a Long Island beach town. The book is written for readers who enjoy Young Adult/New Adult fantasy books with college students as the main characters. James and Lucy are only twenty years old and the story is meant for readers who like books about the lives of younger people. It is told in the first person by Lucy, an attractive art history major at a New York City college, who begins dating a classmate with a dark secret. Lucy does everything she can to help James cope with the strange supernatural abilities he has developed. The couple's friendship with a lonely older woman in her late seventies that they meet in Central Park in Manhattan becomes a pivotal part of the story. Although the book has fantasy, comedy, suspense and paranormal elements, it is best understood by readers with an interest in literary coming-of-age novels about college age students and readers with a strong interest in psychological literary fiction as the book deals with complex themes like emotional control, facing your demons, family relationships, dating, jealousy, stalking, seduction, the unconscious mind, hypnosis, Greek mythology, friendship, grief and dealing with the loss of a loved one.
