The History of the Normans Amato (di Montecassino),2004 The Norman conquest of southern Italy and Sicily was one of the most dramatic events of the eleventh century. To understand the magnitude of the Normans' achievement, and especially those of Robert Guiscard and Richard of Aversa, it is essential to know something of the world in which they lived and the manner in which they were able to create a Norman state in territories with a very different cultural tradition.

A Mother's Journey Libby Muller,2014-03-04 Libby Muller turned forty the same year as her young son, Joe, died suddenly at home in what was described as a freak accident. Libby relives, with a compelling, raw honesty, the heartbreak of what is one of the greatest sufferings imaginable – a mother's loss of her only child. She explores grief in the first year after her son's death. This journey starts as she navigates those first dark days of overwhelming sadness. But gradually the resilience of the human spirit shines. She finds solace in surfing, experiences the healing energy of the Torres Strait Islands and follows a deeply spiritual path in the search to find inner peace. What results is a deeper understanding of life and death. In sharing her story, Libby hopes to offer some comfort to others who may have also suffered the grief of losing a child.

Rhetoric in the Rest of the West Shane Borrowman,Marcia Kmetz,Robert L. Lively,2010-04-16 While the study of the history of rhetoric has expanded to include an ever-growing range of rhetorical traditions, lesser-known figures, and under- and un-studied texts, it has continued to exist in the hermetically sealed binary of West and Rest. Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves, reading and writing new histories of the rhetorical tradition through frames from gender to geography. Despite these substantial challenges to the traditionally received history of rhetoric, many voices are still silenced and many spaces are still excluded—voices speaking within the spaces of the less-than-monolithic West itself. This silencing and excluding continues, perhaps, because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces—regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long-standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland. Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition.

Varianten - Variants - Variantes Christa Jansohn,Bodo Plachta,2005 Das Phäauml;nomen varianter Fassungen spielt in der praktischen Editionsarbeit eine wichtige Rolle, ist aber noch nie systematisch erforscht und dargestellt worden. Die Beiträge des Bandes gehen auf eine Tagung zurüuuml;ck, die sich aus interdisziplinärer und internationaler Perspektive mit der Variante beschäftigt hat. Anhand exemplarischer Beispiele aus zahlreichen Epochen wird das Phänomen theoretisch und praktisch problematisiert.

Toads and Tessellations Sharon Morrisette,2012-07-01 Enzo is the son of a great magician, however unlike his father, his spells create chaos instead of order. What really interests Enzo, more than books about magic, are books by and about the lives of famous physicists and astronomers like Galileo Galilei and Johannes Kepler. Enzo dreams not of becoming a magician, but a mathematician instead. When Tessel, the village shoemaker, is called upon to make twelve identical shoes out of only one piece of leather, Aida, the shoemaker's sister, goes to Enzo's father for some magic to help her brother. With Enzo's father out of town at a magic convention, it's up to Enzo to help Aida and Tessel out of their predicament. A spell snafu leads Enzo and Aida to a method of forming patterns without gaps or overlaps, and they discover that math, not magic, may be the answer to their problem. Sharon Morisette's accessible text introduces readers to the concept of tessellations, while Philomena O'Neill's illustrations offer a clear visual to what tiling is—children will enjoy finding the tessellations hidden throughout the images. Back matter includes a glossary and notes about tessellations, Galileo, and Kepler.
