**Handbook of Entrepreneurship Research** Zoltan J. Acs,David B. Audretsch,2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years. Nevertheless, much of the research and scholarship in entrepreneurship has remained elusive to academics, policymakers and other researchers, in large part because the field is informed by a broad spectrum of disciplines, including management, finance, economics, policy, sociology, and psychology, often pursued in isolation from each other. Since its original publication in 2003, the Handbook of Entrepreneurship Research has served as the definitive resource in the field, bringing together contributions from leading scholars in these disciplines to present a holistic, multi-dimensional approach. This new edition, fully revised and updated, and including several new chapters, covers all of the primary topics in entrepreneurship, including entrepreneurial behavior, risk and opportunity recognition, equity financing, business culture and strategy, innovation, and the impact of entrepreneurship on economic growth and development. Featuring an integrative introduction, extensive literature reviews and reference lists, the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship.

*Religious Statecraft* Mohammad Ayatollahi Tabaar, 2018-05-08 Since the 1979 revolution, scholars and policy makers alike have tended to see Iranian political actors as religiously driven—dedicated to overturning the international order in line with a theologically prescribed outlook. This provocative book argues that such views have the link between religious ideology and political order in Iran backwards. *Religious Statecraft* examines the politics of Islam, rather than political Islam, to achieve a new understanding of Iranian politics and its ideological contradictions. Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran's factional and international politics, demonstrating that religious narratives in Iran can change rapidly, frequently, and dramatically in accordance with elites' threat perceptions. He argues that the Islamists' gambit to capture the state depended on attaining a monopoly over the use of religious narratives. Tabaar explains how competing political actors strategically develop and deploy Shi'a-inspired ideologies to gain credibility, constrain political rivals, and raise mass support. He also challenges readers to rethink conventional wisdom regarding the revolution, Ayatollah Khomeini, the U.S. embassy hostage crisis, the Iran-Iraq War, the Green Movement, nuclear politics, and U.S.-Iran relations. Based on a micro-level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs, *Religious Statecraft* constructs a new picture of Iranian politics in which power drives Islamist ideology.

**Introduction to Nanoscience and Nanotechnology** Gabor L. Hornyak, H.F. Tibbals, Joydeep Dutta, John J. Moore, 2008-12-22 The maturation of nanotechnology has revealed it to be a unique and distinct discipline rather than a specialization within a larger field. *The Encyclopedia of Indianapolis* David J. Bodenhamer, Robert G. Barrows, 1994-11-22 A work of this magnitude and high quality will obviously be indispensable to anyone studying the history of Indianapolis and its region. -- *The Journal of American History* ... absorbing and accurate... Although it is a monument to Indianapolis, do not be fooled into thinking this tome is impersonal or boring. It's not. It's about people: interesting people. The *Encyclopedia of Indianapolis* is as engaging as a biography. -- *Arts Indiana* ... comprehensive and detailed... might well become the model for other such efforts. -- *Library Journal* With more than 1,600 separate entries and 300 illustrations, *The Encyclopedia of Indianapolis* is a model of what a modern city encyclopedia should be. From the city's inception through its remarkable transformation into a leading urban center, the history and people of Indianapolis are detailed in factual and interpretive articles on major topics including business, education, religion, social services, politics, ethnicity, sports, and culture.

**Mastering Precepting** Beth Tamplet Ulrich, 2018

**An Economist Gets Lunch** Tyler Cowen, 2012-04-12 One of the most influential economists of the decade-and the New York Times bestselling author of *The Great Stagnation*-boldly argues that just about everything you've heard about food is wrong. Food snobbery is killing entrepreneurship and innovation, says economist, preeminent social commentator, and maverick dining guide blogger Tyler Cowen. Americans are becoming angry that our agricultural practices have led to global warming-but while food snobs are right that local food tastes better, they're wrong that it is better for the environment, and they are wrong that cheap food is bad food. The food world needs to know that you don't have to spend more to eat healthy, green, exciting meals. At last, some good news from an economist! Tyler Cowen discusses everything from slow food to fast food, from agriculture to gourmet culture, from modernist cuisine to how to pick the best street vendor. He shows why airplane food is bad but airport food is good; why restaurants full of happy, attractive people serve mediocre meals; and why American food has improved as Americans drink more wine. And most important of all, he shows how to get good, cheap eats just about anywhere. Just as *The Great Stagnation* was Cowen's response to all the fashionable thinking about the economic crisis, *An Economist Gets Lunch* is his response to all the fashionable thinking about food. Provocative, incisive, and as enjoyable as a juicy, grass-fed burger, it will influence what you'll choose to eat today and how we're going to feed the world tomorrow.
