The 1967 Referendum Bain Attwood, 2007 In Australia, on May 27, 1967, a remarkable event occurred. An overwhelming majority of electors voted in an Australian national referendum to amend clauses of the Australian Constitution concerning Aboriginal people. May 27, 2007 is the 40th anniversary of this landmark event. Nowadays, a younger generation of Australians is unaware of this historical achievement, while an older generation remains unclear about its significance. The referendum is commonly considered the turning point in Australian historical and cultural life. This historic moment is when citizenship rights were granted including the vote and the Commonwealth finally assumed responsibility for Aboriginal affairs. However, the outcomes for Indigenous Australians have not improved significantly. So what is the referendum's value now? This fully revised and updated second edition explores the legal and political significance of the referendum and the long struggle by Australians for constitutional change. The book tr

FINALIST “Extraordinary ... A sweeping history of the Palestinian-Israeli conundrum ... Highly readable and evocative.” – The Washington Post The tale of a simple act of faith between two young people, one Israeli and one Palestinian, that symbolizes the hope for peace in the Middle East – with an updated afterword by the author. In 1967, Bashir Khairi, a twenty-five-year-old Palestinian, journeyed to Israel with the goal of seeing the beloved stone house with the lemon tree behind it that he and his family had fled nineteen years earlier. To his surprise, when he found the house he was greeted by Dalia Eshkenazi Landau, a nineteen-year-old Israeli college student, whose family left Europe for Israel following the Holocaust. On the stoop of their shared home, Dalia and Bashir began a rare friendship, forged in the aftermath of war and tested over the next half century in ways that neither could imagine on that summer day in 1967. Sandy Tolan brings the Israeli-Palestinian conflict down to its most human level, demonstrating that even amid the bleakest political realities there exist stories of hope and transformation.

Cultivating Community Jodey Nurse, 2022-02-22 For close to two hundred years, families and individuals across Ontario have travelled down country roads and gathered to enjoy seasonal agricultural fairs. Though some features of township and county fairs have endured for generations, these community events have also undergone significant transformations since 1850, especially in terms of women's participation. *Cultivating Community* tells the story of how women's involvement became critical to agricultural fairs' growth and prosperity. By examining women's diverse roles as agricultural society members, fair exhibitors, performers, volunteers, and fairgoers, Jodey Nurse shows that women used fairs' manifold nature to present different versions of

rural womanhood. Although traditional domestic skills and handicrafts, such as baking, needlework, and flower arrangement, remained the domain of women throughout this period, women steadily enlarged their sphere of influence on the fairgrounds. By the mid-twentieth century they had staked out a place in venues previously closed to them, including the livestock show ring, the athletic field, and the boardroom. Through a wealth of fascinating stories and colourful detail, *Cultivating Communities* adds a new dimension to the social and cultural history of rural women, placing their activities at the centre of the agricultural fair.

Mechanisms for Long-Term Innovation Masatoshi Fujiwara, Yaichi Aoshima, 2022-12-16 This book explores how a long-term innovation can take place based on historical analyses of the development of reverse osmosis (RO) membrane from the early 1950s to the mid-2010s. The RO membrane is a critical material for desalination that is a key to solve water shortages becoming serious in many places of the world. The authors conducted in-depth field studies as well as analyses of rich archival data to demonstrate how researchers, engineers, managers, entrepreneurs, and policymakers interacted each other for this material innovation to be realized. A series of historical analyses in this book uncovered that initial government supports, strategic niche markets, emergence of breakthrough technology, and company-specific rationales played significant roles for companies to overcome four types of uncertainty, technological, market, competition, and social/organizational ones, and enabled the companies to persistently invest in the development and commercialization of the RO membrane. This book depicts that innovation does not arise on a sudden, but that it is actualized through long lasting process with turns and twists, which is driven by many

non-economic rationales beyond economic motives.

Where's Charlie? Tim Soyars, 2011-07-14 History books and novels are filled with stories of young men and women going off to war. In each, the experiences and challenges are as varied as the people themselves. The stories tell of leaders and followers, cowards and heroes. In *Where's Charlie?* author Tim Soyars narrates his own story of how he came of age while serving in the US Army during the Vietnam War. In this memoir, Soyars tells how his personality, background, and attitude contributed to his will to succeed and his desire to be involved in the Vietnam War. As a boy, he always knew he'd serve his country. With both humor and sincerity, Soyars narrates his story: his birth in Virginia in 1945, his induction into the army in 1965, his marriage in 1966, and his one-year service in Vietnam with the First Cavalry from March of 1967 to 1968. Including photos of the period, *Where's Charlie?* conveys not only the sadness and heroics often associated with war, but also shares stories of warmth, compassion, and romance. It provides a glimpse into the horror of battle and offers insight into one soldier's actions and thoughts during this unique time in history.

Converging Destinies Stuart Dauermann, 2017-03-14 While all have reason to celebrate the greening of Christian-Jewish relations since the Shoah and the promulgation of *Nostra Aetate* (4), few will deny that much work remains to be done by Christians and Jews seeking the best way forward that they might best serve God's purposes in the world, the mission of God. This book addresses that need by first surveying how each community has historically conceived of its own mission and from that stance assigned an identity to the other. The text illuminates how such constructions have often impeded progress and therefore need to be upgraded and supplemented. But how shall this be done?

Converging Destinies proposes an eschatological vision and practical suggestions to summon Jews and Christians to prepare for that day when each will be both commended and reproved by the judge of all, sounding a call for more determined action, greater humility, and cooperative effort as together Jews and Christians serve the mission of God, accountable to him for how they have served him and each other in the world that he has created according to his will.

The Quest for Artificial Intelligence Nils J. Nilsson, 2009-10-30 Artificial intelligence (AI) is a field within computer science that is attempting to build enhanced intelligence into computer systems. This book traces the

history of the subject, from the early dreams of eighteenth-century (and earlier) pioneers to the more successful work of today's AI engineers. AI is becoming more and more a part of everyone's life. The technology is already embedded in face-recognizing cameras, speech-recognition software, Internet search engines, and health-care robots, among other applications. The book's many diagrams and easy-to-understand descriptions of AI programs will help the casual reader gain an understanding of how these and other AI systems actually work. Its thorough (but unobtrusive) end-of-chapter notes containing citations to important source materials will be of great use to AI scholars and researchers. This book promises to be the definitive history of a field that has captivated the imaginations of scientists, philosophers, and writers for centuries.

Just One Catch Tracy Daugherty, 2011-08-02 The New York Times bestselling writer Tracy Daugherty illuminates his most vital subject yet in this first biography of the *Catch-22* author Joseph Heller. Joseph Heller was a Coney Island kid, the son of Russian immigrants, who went on to great fame and fortune. His most memorable novel took its inspiration from a mission he flew over France in WWII (his plane was filled with so much shrapnel it was a wonder it stayed in the air). Heller wrote seven novels, all of which remain in print. *Something Happened* and *Good as Gold*, to name two, are still considered the epitome of satire. His life was filled with women and romantic indiscretions, but he was perhaps more famous for his friendships—he counted Mel Brooks, Zero Mostel, Carl Reiner, Kurt Vonnegut, Norman Mailer, Mario Puzo, Dustin Hoffman, Woody Allen, and many others among his confidantes. In 1981 Heller was diagnosed with Guillain-Barré Syndrome, a debilitating syndrome that could have cost him his life. Miraculously, he recovered. When

he passed away in 1999 from natural causes, he left behind a body of work that continues to sell hundreds of thousands of copies a year. Just One Catch is the first biography of Yossarian's creator.

Conflict at the Interface Bert Preiss, 2020-02-18 More than two decades after the Northern Ireland peace agreement, conflict still flares between deprived Protestant/Unionist/ Loyalist and Catholic/Nationalist/Republican working-class interface communities, who remain divided by numerous 'peace walls'. In light of Brexit, the Irish border issue and the power-sharing impasse progress in local peacebuilding has stalled. This might even jeopardise the overall peace process. Within this context, this book explores, largely empirically, the nature and causes of conflict at the interface. An attempt is also made to provide an outlook on peace in Northern Ireland and to highlight potential lessons for other conflict-ridden, divided societies.

What a Bloody Awful Country Kevin Meagher, 2022-08-30 Highly readable - Irish News A gripping appraisal of Northern Ireland's turbulent first century. Essential reading for anyone who wants to understand how we have got to where we are today. - Suzanne Breen, Belfast Telegraph A timely and lucid analysis of the Troubles that asks hard questions of successive British governments. The good news for the current government is that it also offers some answers. - Rory Carroll, The Guardian *** For God's sake, bring me a large Scotch. What a bloody awful country! Home Secretary Reginald Maudling, returning from his first visit to Northern Ireland in 1970 As a long and bloody guerrilla war staggered to a close on the island of Ireland, Britain beat a retreat from all but a small portion of the country - and thus, in 1921, Northern Ireland was born. That partition, says Kevin Meagher, has been an unmitigated disaster for Nationalists and Unionists alike. Following the fraught history of British rule in Ireland, a better future was there for the taking but was lost amid political paralysis, while the resulting fifty years of devolution succeeded only in creating a brooding sectarian stalemate that exploded into the Troubles. In a stark but reasoned critique, Meagher traces the landmark events in Northern Ireland's century of existence, exploring the missed signals, the turning points, the principled decisions that should have been taken, as well as the raw realpolitik of how Northern Ireland has been governed over the past 100 years. Thoughtful and sometimes provocative, What a Bloody Awful Country reflects on how both Loyalists and Republicans might have played their cards differently and, ultimately, how the actions of successive British governments have amounted to a masterclass in failed statecraft.

Lucy in the Mind of Lennon Tim Kasser, 2013-07-11 Many have speculated about the meaning of John Lennon's Lucy in the Sky with Diamonds. Psychologist Tim Kasser applies innovative methods to the song's lyrics and music, weaving his findings together with the musician's past to provide an integrative perspective on the place of Lucy in Lennon's life.

Lethal Allies: British Collusion in Ireland Anne Cadwallader, 2013-10-25 '. . . a well-written piece of investigative journalism that asks some deeply troubling questions . . .' - NY Journal of Books 'Cadwallader has written a brave, powerful and forensically detailed book about a shameful and denied aspect of our conflict's history.' - The Irish Times. 'Anne Cadwallader's remarkable book focusses on collusion in the British security forces (the RUC, the British Army, and the UDR) in the mid-Ulster Murder Triangle. Over 120 people were killed by a loyalist gang operating in mid-Ulster and Cadwallader has created a convincing argument that collusion with certain elements of the security forces was crucial in the committing of these crimes and the lack of proper investigation into many of these crimes' - The Dublin Reader Farmers, shopkeepers, publicans and businessmen were slaughtered in a bloody decade of bombings and shootings in the counties of Tyrone and Armagh in the 1970s. Four families each lost three relatives; in other cases, children were left orphaned after both parents were murdered. For years, there were claims that loyalists were helped and guided by the RUC and Ulster Defence Regiment members. But, until now, there was no proof. Drawing on 15 years of research, and using forensic and ballistic information never before published, this book includes official documents showing that the highest in the land knew of the collusion and names those whose fingers were on the trigger and who detonated the bombs. It draws on previously unpublished

reports written by the PSNI's own Historical Enquiries Team. It also includes heartbreaking interviews with the bereaved families whose lives were shattered by this cold and calculated campaign.

Blackboards and Bootstraps David Hamilton, Benjamin Zufiaurre, 2014-02-05
Blackboards and Bootstraps: Revisioning education and schooling contributes to an international conversation about public education that, in recent decades, has been attenuated if not silenced by advocates of neoliberalism, marketisation and neocorporatism. Written for a wide audience, this book is not a manifesto for the twenty-first century. It is more of an invitation than a blueprint. In drawing a distinction between education and schooling, it identifies, recovers and explores many ideas about education and schooling that are no less important to the practice of the present than they were to the pedagogues of the past. The introduction questions the role of schooling in the future trajectory of spaceship earth. The remainder of the book considers these questions by revisiting a range of ideas that underpin current practice. It launches itself by returning to the sixteenth century, a time when the organisation and conduct of modern schooling took shape around a new set of terms - syllabus, class, curriculum and didactics - that, in their Latin forms not only became prominent in the international educational lexicon but also survived into the twentieth century. By the First World War, there was an international awareness that schooling is not the same as education. Schooling originally for the land-owning, mercantile and commercial elites of the sixteenth century had only partially engaged with the visions of democratic schooling voiced in the eighteenth century Enlightenment and the subsequent extension of suffrage and national and sexual liberation movements. Impressed by the universalistic achievements of

the Renaissance and the Enlightenment, the authors raise the prospect of a new educational humanism in the globalised world of the twenty-first century.

Advances in Manufacturing Technology P.F. Mcgoldrick, 2013-11-11

The Republic of Biafra: Once Upon a Time in Nigeria Dr. Onyema G. Nkwocha, 2010-10-26 Not quite four months after the Western Region's election of October 10, 1965, did the localized mayhem in that Region find its way furiously into the center of the nation on January 15, 1966! It was like a whirl-wind of nothing but anarchy and lawlessness. The serious aftermath of the marred and rigged election was that it acted as the last straw that broke the Carmel's back, providing immediate reason for the army to overthrow the government of Dr. Nnamdi Azikiwe. Anarchy ensued; a counter coup led to the death of Major-General Ironsi. Callous barbarous massacre of thousands of easterners in the North followed. With their lives in jeopardy, easterners fled for safety to eastern region; refugee crisis followed. To guarantee their safety, easterners seceded from Nigeria and on May 30th 1967, formed an independent and sovereign nation of the Republic of Biafra. Determined to bring Easterners back, on July 6, 1967 Nigeria invaded Biafra; waged a gruesome thirty-month-civil war against Biafra. Nigeria blockaded Biafra on land, sea and air, to prevent food from entering Biafra. A malnutrition disease, Kwashiorkor that caused the deaths of thousands of Biafrans, followed. Nigeria bombed Biafran civilians, killing thousands. On January 12, 1970 the war ended leaving more than three million people dead in a war that was totally avoidable!

Confessions of an International Banker Sean Hickey, 2013-03-08 From the City of London to the deserts of Arabia, the former Soviet states, and sub-Saharan Africa, this book traces the life and career of a man who has been a banker

in some remarkably challenging environments over a period of half a century. The author has counted bales of cotton in Yemen, dodged Israeli bombs in Lebanon, financed exports from Romania in the days of Ceausescu, been a banker to a member of a ruling family in the Gulf, conducted business in the sauna of a bank in Kazakhstan, and met Her Majesty Queen Elizabeth II. In his spare time, he has taken an active part in amateur theater groups in the countries in which he has lived, served as a member of committees administering cemeteries, and been a warden appointed by the British Embassy to assist their citizens in times of trouble. As well as being an engrossing story of banking in many varied countries, the book includes chapters about the background to the problems of some of the places in which he has worked that show a clear understanding of the history and politics involved. Having lived in the Middle East for much of his life, he comments on the Arab Spring, and his long and diverse banking career has enabled him to write incisively on events in the industry in recent years. He draws conclusions on both of these momentous stories.
