The Palestinian Strategic Report 2010/11 Dr. Mohsen Mohammad Saleh, 2011-05-23 This annual referential report, has become an essential classic in the academic realm of Palestinian Studies. It includes the latest and most recent statistical and analytic data on the various developments related to the Palestinian issue. Al-Zaytouna Centre for Studies and Consultations issued its Palestinian Strategic Report 2010/11 (PSR 2010/11) which addresses the developments of the Palestinian issue in 2010/11. The PSR is considered one of the most important scientific studies published annually by Al-Zaytouna Centre. The Report is rich with information, analyses, tables and charts besides strategic visions and future outlooks. It is published for the sixth year in a row and it has become one of the major sources for experts and those interested in the Palestinian issue. It provides a comprehensive coverage of the developments of the Palestinian issue that happened over a year while abiding by strict scientific and professional standards. The Report is 444 medium-sized pages. It is co-authored by 15 researchers specialized in the Palestinian issue, reviewed by four consultants and edited by Dr. Mohsen M. Saleh. The PSR 2010/11 stresses that the uprisings witnessed in the Arab world since early 2011, especially in Egypt, will have a direct impact on the Palestinian issue. The impact will most likely be positive if the uprisings achieved their goals and yielded political regimes which express the real will of the Arab peoples. However, the Report notes that the internal affairs would most probably be the primary concern during the coming period. Regarding the inter-Palestinian reconciliation, PSR 2010/11 asserts that the reconciliation agreement signed in Cairo last May still needs more serious steps to end the division and achieve real reconciliation on the ground. It needs to resolve many obstacles through cooperation between the different parties, away from external interventions and pressures. On the Israeli level, the Report mentions that 2010 has continuously witnessed the inclination of the Israeli society towards the extreme right. It further notes the absence of any breakthroughs in 2011 especially in the light of Israel's rejection for the negotiations with President Mahmud 'Abbas. The agreement signed with Hamas and the PA's attempts to obtain international recognition of the Palestinian State in September 2011 hindered such negotiations. On the international level, the PSR says that the international diplomatic efforts towards the Palestinian issue have failed again in 2010. They could not achieve any significant progress regarding the peace settlement track or the siege imposed on the Gaza Strip. Moreover, PSR 2010/11 includes a large number of figures and statistics on Israeli violations on different levels. During 2010, 98 Palestinians were killed in the West Bank and Gaza Strip (including Jerusalem) by Israeli forces and settlers while 967 Palestinians and international solidarity activists were wounded. On the other hand, Israel's internal security service mentioned that during 2010, 9 Israelis were killed and 28 were wounded in operations carried out by the Palestinians. Concerning settlement building, the Report shows that despite the 10-month Israeli moratorium on settlement building, Israel established 1819 buildings/apartments in 133 settlements all over the West Bank, including Jerusalem; in addition to 1433 mobile homes (caravans). PSR 2010/11 also discusses the increased Israeli attacks on the Islamic and Christian holy sites in Jerusalem and historic Palestine, during 2010. It further shows that the developments during that year revealed that the Judaization of Jerusalem has become the primary battle for Israel due to the obsession with the "Jewishness of the state" dominating the Israeli mind. Concerning demographic indicators, PSR 2010/11 mentions that at the end of 2010 the number of Palestinians around the world was around 11.14 million people. More than half of them, i.e., 5.75 million (51.6%) live in Diaspora, while the rest, i.e., 5.39 million (48.4%) live in historic Palestine. The latter are distributed by 1.28 million people in the territories occupied in 1948 and 4.11 million in the '67 territories. The Report mentions that if the current growth rates of the Palestinians and the Jews persist, the number of Palestinians and Jews will become on par by 2017 where each will reach around 6.53 million. Thus, in 2020, around 49.2% of the population will be Jews as their number will reach 6.87 million compared to 7.09 million Palestinians. Regarding the economic indicators in the West Bank and the Gaza Strip, the Report shows that events during 2010 has not affected the direct dependence of the Palestinian economy on the Israeli economy. In addition, the isolation of the Palestinian economy from the outside world continued due to the Israeli control of all international exits and Palestinian border crossings besides the Palestinian foreign trade. PSR 2010/11 also refers to the enormous difference between the Palestinian economy in the West Bank and the Gaza Strip on one hand and the Israeli economy on the other. Thus, it shows, for example, that in 2010 the Palestinian GDP per capita was \$1500 (around \$1925 in the West Bank and \$877 in the Strip) compared to \$28,500 in Israel. In addition, the GDP amounted to \$5.73 billion for the Palestinians compared to \$217.13 billion for the Israelis.

None of us should be seeking virtuous perfection in orienting ourselves to the good in this life; we should only be seeking change. The journey is the goal.

After Violence Debra Javeline, 2023 Starting on September 1, 2004, and ending 53 hours later, Russia experienced its most appalling act of terrorism in history, the seizure of School No. 1 in Beslan, North Ossetia. Approximately 1,200 children, parents, and teachers were taken hostage, and over 330 -nearly one of every hundred Beslan residents- were killed, hundreds more seriously wounded, and all severely traumatized. *After Violence* is the first book to analyze the aftermath of such large-scale violence with evidence from almost all direct victims. It explores the motivations behind individual responses to violence. When does violence fuel greater acceptance of retaliatory violence, and when does violence fuel nonviolent participation in politics? The mass hostage taking was widely predicted to provoke a spiral of retaliatory ethnic violence in the North Caucasus, where the act of

terror was embedded in a larger context of ongoing conflict between Ossetians, Ingush, and Chechens. Politicians, journalists, victims, and other local residents asserted that vengeance would come. Instead, the hostage taking triggered unprecedented peaceful political activism on a scale seen nowhere else in Russia. Beslan activists challenged authorities, endured official harassment, and won a historic victory against the Russian state in the European Court of Human Rights. After Violence provides insights into this unexpected but preferable outcome. Using systematic surveys of 1,098 victims (82%) and 2,043 nearby residents, in-depth focus groups, journalistic accounts, investigative reports, NGO reports, and prior scholarly research, After Violence offers novel findings about the influence of anger, prejudice, alienation, efficacy, and other variables on post-violence behavior--

Sustainable Development in Hong Kong Terri Mottershead, 2004-05-01 Sustainable Development in Hong Kong provides a unique and pioneering examination of what the application of the ideas of sustainable development implies for Hong Kong with all its exceptional characteristics, political, social, ecological, and especially its very high urban density. The book brings together, for the first time, a broad cross-section of 21 public and private sector specialists in the many and varied aspects of sustainable development. In so doing, it demonstrates the breadth and depth of local knowledge and expertise in the subject, as well as the wide range of concepts and issues that will have to be considered and interests reconciled, for the concept to be fully implemented in Hong Kong. Sustainable development has been defined as: development that meets the needs of today whilst not affecting the ability of future generations to meet their own needs. Implementing this concept requires that decision-makers from all stakeholder groups (government, business and the public) not only commit to sustainable development, but also incorporate it at every level of decision-making regardless of the political, economic, social, technological, cultural and legal frameworks within which their decisions are made. It also requires that, before doing so, they hear, respect and utilize the input from each other in these decisions. Sustainable development was placed squarely on the political agenda in Hong Kong through the Chief Executive's commitment to it in his Policy Address in 1999. This was followed by the adoption of it as an overriding objective in Hong Kong 2030: Planning Vision and Strategy (2001) and the establishment of the Sustainable Development Unit (2001) and the Council for Sustainable Development (2003). This is a book for all who are concerned about Hong Kong's environment and about its future development. The exceptional nature of Hong Kong means that this book also provides a valuable extreme case study for all who work in the sustainable development field.

Passions of the Christ F. Scott Spencer, 2021-05-04 Senior New Testament scholar F. Scott Spencer focuses on a neglected area in the study of Jesus and the Gospels: the emotional life of Jesus. This book offers a fresh reading of the Gospels through the lens of Jesus's emotions--anger, grief, disgust, surprise, compassion, and joy. These emotions motivate Jesus's mission and reveal to Gospel readers what matters most to him. Amid his passions, Jesus forges his character as God's incarnate Messiah, wholly embodied and emotionally engaged with others and thoroughly embedded in the surrounding environment.

Guidelines for the international packaging and shipping of vaccines , 2020-12-22 International shipping of vaccines is the first leg of the complex journey that vaccines undertake to reach the end users in a country. Particular challenges include the size and weight of packages, implementation of quality control checks at reception, ensuring environmental sustainability, and maintaining required temperatures during the journey. Although there are many possibilities of transport e.g. sea freight and terrestrial transportation, air freight currently remains the most widely used means of transport for vaccines. In recognition of this fact, these guidelines apply predominantly to the air freighting of vaccines. Transportation of vaccines from the manufacturing facility to the airport facility require the use of ground transportation, and reference is also made to the qualification of refrigerated road vehicles as well. The objective of these guidelines is to provide technical guidance to help ensure the quality of vaccines during all stages of the international air transportation process. These guidelines are applicable to all persons and institutions involved in international air shipment of vaccines from the premises of the product manufacturer to the recipient country. This includes all parties involved in shipment, vaccine manufacturers, logistics service providers (LSPs), freight forwarders, carriers and their employees. The relevant sections of these guidelines should also be considered for implementation by UN procurement agencies and other international procurement organizations, countries, donor agencies and certifying bodies.

Augustine's Problem Jeffrey F. Nicoll, 2016-06-03 Augustine's Problem provides a new approach to St. Augustine's life and doctrine, hypothesizing that his problem was not sexual addiction but sexual impotence. For Augustine, the problem with sex was not the seductive nature of women, but the unpredictability of desire, which can induce an unwanted erection or fail to provide one when even the mind would choose to have sex. He extends his personal incapacity to a general impotence of the will--we can never, without grace, choose any good. Just as the impotent man cannot work on his impotence, we cannot work on our salvation; only God can make a difference and predestines a tiny elect. The disobedience of the Garden is transferred to the disobedience of the male member, guaranteeing that the sin of Eden is transferred, in conception, as original sin. The most controversial elements of Augustine's theology are all linked to the theme of impotence, as expressed in his writings, from the Confessions to the anti-Pelagian works written at the end of his life.

Privacy and Power Russell A. Miller, 2017-02-23 Edward Snowden's leaks exposed fundamental differences in the ways Americans and Europeans approach the issues of privacy and intelligence gathering. Featuring commentary from leading commentators, scholars and practitioners from both sides of the Atlantic, the book documents and explains these differences, summarized in these terms: Europeans should 'grow up' and Americans should 'obey the law'. The book starts with a collection of chapters acknowledging that Snowden's revelations require us to rethink prevailing theories concerning privacy and intelligence gathering, explaining the differences and uncertainty regarding those aspects. An impressive range of experts reflect on the law and policy of the NSA-Affair, documenting its fundamentally transnational dimension, which is the real location of the transatlantic dialogue on privacy and intelligence gathering. The conclusive chapters explain the dramatic transatlantic differences that emerged from the NSA-Affair with a collection of comparative cultural commentary.
